KEEP YOUR HOUSE WARM AS TOAST

The amazing way that the Gilson "Magic" Furnace gives a greater volume of warm moist air from a smaller quantity of fuel is the heating wonder of the age. Built on entirely different principles, the Gilson Magic brings new comfort to the home and cuts fuel bills one-third to one-half.

BURNS HARD OR SOFT COAL, COKE OR WOOD
The Gilson Magic burns any fuel equally well. It heats three times faster. The one-piece, heavy steel plate body, special cone-shaped grate, booster joints, which permanently prevent gas and dust from leaking, all contribute to make the Gilson "Magic" the most satisfactory and economical furnace.

CHEVROLET

In 1920 this Chevrolet 2-door Sedan Cost **\$1795.00**

In 1927 this Chevrolet 2-door Sedan (Coach) Cost **\$750.00**

COMPARE the Chevrolet of seven years ago with the Chevrolet of today and realize how radically Chevrolet has revised all conceptions of motor car value.

In 1920, the Chevrolet illustrated here represented the highest standards of quality and value . . . at a price of \$1795 (f.o.b. Oshawa) . . . over a thousand dollars more than you pay today for a Chevrolet that possesses style, luxury and refinement unthought-of in any car a few years ago.

In following its fundamental policy of constant improvement, Chevrolet has built up a production volume which places it first among all cars in the world. And Chevrolet has shared the savings of volume purchasing and production, with the public by reducing the prices of Chevrolet cars.

So, today, you get a Chevrolet with amazing QUALITY in its every detail at a fraction of the cost of a similar model Chevrolet of seven years ago.
