Cantonese Will Suppress Piracy

New Regime Will Act Independently of Nanking Authorities

Shanghai—Suppression of piracy at Bias Bay, notorious lair of Chinese pirates who long have defied every authority, is the first job that the new Cantonese government has set for itself.

Foreign dispatches from Canton recently stated that the Canton group of Nationalists which started a few days ago to establish a new Cantonese government independent of all other nationalist regimes, is preparing its plans rapidly and is taking an active hand in Cantonese administration.

As an indication of the group's intention of operating independently of its erstwhile colleagues at Nanking, it was announced that the 30,000 Cantonese soldiers now proceeding toward Hankow to aid the Nanking regime will be called back to Canton.

The first job that the major portion of Canton's army will be ordered to undertake is the suppression of piracy along the south China coast centering on Bias Bay, the notorious and picturesque pirate centre against which the British authorities at Hong Kong have more than once sent punitive expeditions.

The latest Bias Bay incident was the capture of the Chinese steamer Irene on Oct. 13, by a group of pirates, who were driven off by a British submarine. The Irene subsequently sank as a result of the submarine's fire.

The new Cantonese leaders feel that these piracies have long retarded the commercial development of the Canton territory and that therefore they must be stopped. Plans to garrison the shores of Bias Bay, which is just outside the British sphere at Hong Kong, have been announced.

Developments in the Yangtze Valley in the fighting between the Hankow and Nanking governments are virtually unknown here, reports from the scene being most conflicting. The Nanking forces, however, are declared to be moving steadily on Hankow where heavy concentrations of Hankow troops are in progress.

The Hankow forces are stated to be virtually leaderless and foreigners are in fear of a renewal of outbreaks and general lawlessness in the area.

British Economist Thinks Labor Unions Will Become Extinct

New York—Bertram Austin, British economist, who has just completed a month's study in the United States of co-operation between labor and capital, believes labor unions soon will become antiquated because labor will have nothing left to fight for.

Austin, who sailed recently for London, his home, made a sensation in England last year with the book he wrote with W. Francis Lloyd, "The Secret of High Wages." The two young British economists studied for some time in American factories and industries and then told the British that the Americans had a better system of co-operation between capital and labor.

During the past month Austin visited the Mitten management in Philadelphia and the Street car railroad in Buffalo. Both the Mitten plant and the Buffalo organization are owned partially by the workers in the street car companies.

"When the ideal conditions exist between capital and labor there is no need for a third party to intervene," said Austin. "Therefore when co-operation between capital and labor reaches a high point and it is making progress in both this country and in England, it will not be necessary for workers to organize into labor unions. In time I believe the unions will pass out from lack of use. This has happened largely in the Mitten organization. There the men settle their trouble directly with the management."

He said the unions were organized as a combative unit and as the co-operation between capital and labor increased there was less and less need for conflict.

The Church Endangered.

Leeds Yorkshire Post (Cons.): At the very moment when unity and the power to set a visible example of love and fellowship is demanded of the Church, not for her own sake only, the Modernists and the Catholics become not only embroiled but publicly embattled—over what? Over a dogma. But a vital dogma, say the protagonists. True, the dogma is vital; but it is vital to the individual. To Bishop Barnes we would say, "There is a time to keep silence and a time to speak." To his opponents, who feel that his attacks upon dogmas which they hold sacred and essential must be resisted, we would say, "Let all things be done decently and in order." This is not the time to divide the Church on a point of doctrinal interpretation.

Costa Rica Banana Plantations Raided by Savage Leopards

Tires—the local name for the great leopards of South and Central America—are causing such an excessive loss of human life and live stock on the banana plantations of Costa Rica that an active campaign is now being waged against them.

In a recent issue of the Diario de Costa Rica a fruit company inserted the following advertisement: "Hunters take notice: We will pay \$62.50 for every leopard killed on the lands of our plantations at Banano in the Pacure region. We will furnish food and lodging to the hunters during their stay."

Costa Rican leopards are extremely ferocious, and often weigh from 300 to 400 pounds. Their method of attack is to conceal themselves in the branches of trees above a road and then leap down on their passing victims. They have so terrified the residents of rural districts that visiting after dark has been suspended unless under an escort of several armed men, and with dogs to run ahead.

Poisonous serpents also form a constant menace to Costa Rican agricultural laborers. The deadly coral snake and others almost as venomous lurk in the banana plants. Being almost the color of the foliage, they are seen with difficulty. Should the laborer be bitten in the hand or foot, the usual remedy is to slash off the wounded member with his machete, and the sight of mutilated natives of the laboring class is not uncommon. Recently the fruit companies operating in Costa Rica have obtained snake bite serum from Brazil, and it is expected that by its prompt injection many lives will in the future be saved.

MADE HER BABY PLUMP AND WELL

Nothing makes a mother more grateful than a benefit conferred upon her child. Mothers everywhere who have used Baby's Own Tablets for their children speak in enthusiastic terms of them. For instance, Mrs. Zepherin Lavoie, Three Rivers, Que., writes:—

"Baby's Own Tablets are a wonderful medicine for little ones. They never fail to regulate the baby's stomach and bowels, and make him plump and well. I always keep a box of the Tablets in the house and would advise all mothers to do likewise." Most of the ordinary ailments of childhood arise in the stomach and bowels, and can be quickly banished by Baby's Own Tablets. These Tablets relieve constipation and indigestion, break up colds and simple fevers, expel worms, allay teething pains and promote healthful sleep. They are guaranteed to be free from injurious drugs and are safe even for the youngest and most delicate child. The Tablets are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Some interesting advice on how to care for a baby, as published in a newspaper advertisement: "When the baby is done drinking, it should be unscrewed and laid in a cool place under a tap. If the baby does not thrive on fresh milk it should be boiled."

Havana Bars All Litter

Havana, Cuba, is probably the only city in the world whose street cleaners appear for work wearing starched linen, neckties and gloves, and with shoes luminously polished.

Six to eight men form the crew of each garbage truck, and they work on the run, a gong being sounded when the truck approaches each residence as a signal for the garbage cans to be set out. The law requires that the cans must be returned immediately after being emptied, and woe betide the careless servant who overlooks this obligation and leaves out cans for flies to reach.

Not a scrap of paper is to be found on the streets, for sweepers are always at work. Each afternoon the trees in the parks are sprayed and after midnight great watering trucks deluge the streets with such force that all dust and dirt are washed away.

TONE UP THE BLOOD AND NERVES NOW

Dr. Williams' Pink Pills Have No Equal for This Purpose.

Anemia, or lack of good blood, causes not only pale faces and white lips; it is the root of many pains and miseries. It is the cause of shattered nerves, headaches and backaches, and the always tired feeling from which so many women and girls suffer. To regain new health and strength the blood should be enriched through the tonic treatment with Dr. Williams' Pink Pills. This medicine has brought new health and strength to thousands of weak despondent people.

Among those who have found new health through the use of this medicine is Mrs. Gregory J. Murphy, East Ship Harbor, N. S., who says:—"I bless the day I heard of Dr. Williams' Pink Pills. Before I began their use I was in a run-down and very weak condition. The least exertion would leave me breathless and tired out. Household work was a trial, and at times I felt very despondent. A friend advised me to try Dr. Williams' Pink Pills and I got six boxes. I had not been taking the pills very long until I began to improve in health, and continuing their use they restored me to my former good health. I also gave the pills to my daughter, who was anaemic and run-down, with the same good results. Now I always have the pills in the house, and would not like to be without them."

Get a box of Dr. Williams' Pink Pills from your druggist to-day, or send 50 cents to The Dr. Williams' Medicine Co., Brockville, Ont., and a box will be sent you post paid. A little book, "Building Up the Blood," which explains the treatment, will be sent free on request.

Lindbergh Airplane Wins World Market

San Diego, Calif.—Because of the international popularity of Col. Charles A. Lindbergh and his airplane, the Spirit of St. Louis, orders for duplicates of the Lindbergh craft have been received by a local manufacturer from Japan, Greece and Brazil. Inquiries have also been received from several British colonies, Mexico, Columbia, Peru, and Uruguay. Greece has ordered planes for the use of the Ministries of War and Marine, while the five Latin-American countries will use them for public and air mail use.

PAINS ALL OVER BODY

Two More Cases of Feminine Illness Relieved by Lydia E. Pinkham's Vegetable Compound

Barrington, N. S.—"I had terrible feelings, headaches, back and side aches and pains all over my body. I would have to go to bed every month and nothing would do me good. My husband and my father did my work for me as I have two children and we have quite a big place. I read in the paper about Lydia E. Pinkham's Vegetable Compound, and then got a little book about it through the mail, and my husband sent to Eaton's and got me a bottle, and then we got more from the store. I am feeling fine now and do all my work and am able to go out around more. I tell my friends it is Lydia E. Pinkham's Vegetable Compound that makes me feel so well."—Mrs. VICTOR RICHARDSON, Barrington, Nova Scotia.
