Yukon Revives

Silver Lead Deposit Found at Dawson Stirs Old Romance

Romance has returned to the Yukon territory, says 'The San Francisco Chronicle." Once again the earth has disclosed a treasure store which is making the prospector of to-day the potential millionaire of to-morrow.

The mineral is a silver-lead deposit extending over a vast area and unusual value, the depth extent of which remains to be determined. The deposit area is some 200 miles east of Dawson, and the fact that the treasure is of base metal and not gold has resulted in most of the world being in ignorance of the new strike.

Information concerning the silverlead mining operations was supplied by C. R. Settlemier, for many years children can be traced to the overeditor of "The Dawson News," who stimulation during infancy, caused by came to San Francisco on his way regarding baby as a sort of animated home from Florida and Southern Cali- toy for the amusement of parents, re-

NEW STRENGTH FOR WEAK STOMACHS

Indigestion Disappears When the Blood is Enriched

The most urgent need of all who suffer from any form of indigestion is a tonic to enrich the blood. Pain and distress after eating is the way the stomach shows that it is too weak to perform the work of digesting the food it takes. New strength is given to weak stomachs by Dr. Williams' Pink Pills because they purify and enrich the blood. This accounts for the speedy relief in stomach disorders that follows the use of this medicine. The value of this medicine in cases of indigestion is shown by the case of with indigestion. Always after eating Canadians. According to scientists New Guinea Tom-"Yes, I know, but I'd rather which I readily did, and I am feeling been surpassed. His brother, Ivind other lines.
