GLENELG TELLING HER OWN HISTORY AS DRAWN FROM HER IMAGINATION

I do not know whether I was baptized by sprinkling or immersion, when they called me Glenelg. However, as there is abundance of water flowing in different parts of my premises, it wasn't necessary to disturb them for an unnecessary act in christening me. It is nearly 90 years since I was called Glenelg. Whether it was of my many hills and hollows I do not know. However I got them as a free gift to do with them as I should see proper.

Eighty six years ago, a man called Hunter came to the town called Durham. I felt proud that they had to trespass on my property. I predicted that in future years this expected town would be in existence and I am now predicting if the world holds good, it will be a city for the future generations yet unborn.

As I said, being of a liberal turn of mind about 82 years ago, I gave the surveyor the privilege of surveying a road through my property to the east which they call the Durham Road, going over hills and hollows till they reached a place which is now called Priceville.

I ordered the surveyors to stop for fear of trespassing on my neighbor's property, called Artemesia. And so I was always a good fellow, wishing others to see their property prospering. I extended a hearty good wish to my neighbor Artemesia to have a town built in future years and now I am well pleased that my good wishes were accomplished by seeing a prosperous town in existence.

And as I want to do unto others as others would do unto me, I hope that the third generation will see Priceville a city also. I am sorry to say that the good old pioneers who braved the forest on my property 85 years ago, have all passed away and now I see that their grandchildren are in possession of the hard labor of their forefathers.
