This recognition has led our worthy member to remember his young namesake and accordingly has sent him a lovely silver spoon engraved thereon with the initial "F." Now please don't call all the new babies "Farquhar" as it would be rather hard on the member, no matter how much he might care to respond.

JAS. TURNBULL ENJOYS MOT. OR TRIP THROUGH MUSKOKA

On June 9th about 5.30 a. m. I cranked the Ford, and accompanied by Mrs Turnbull and Mrs. Jas. McDonald, we started on a trip to Huntsville to visit our brother.

We were joined in Durham by Andrew Smith, who went with us as far as Barrie, where we arrived at nine o'clock, stopped a while and had some refreshments. Andrew then boarded a C. P. R. train for Sudbury and we started off again. From Barrie to Severn the road was good, and we made very good time, but ten miles south of Gravenhurst, large gangs of men and teams were at work building a new highway, so from there on to Gravenhurst, the road was a bit rough. We arrived at Gravenhurst at 12.30 but did not stop as the main streets were being paved so we had to keep to the back streets and went on to Bracebridge, where we stopped to rest a while.

Huntsville is 28 miles further north the road being good, but very crooked, winding round rocks and through valleys in which are some very good farms with good buildings. We arrived in Huntsville about 2.30 p. m. It is a very nice town of about 3000 population. There is a large tannery and a number of saw-mills which give employment to a lot of men both summer and winter. There is also a creamery doing a good business.

One place of interest to me was a large dairy barn, built entirely of concrete with galvanized roofing, in which is kept about 50 Holstein cows. As our time was limited, we could not see all they wanted us to. We took a trip to Lake of Bays, one of the famous tourist resorts, and a few other places. Then the time came to start for home, the only regret being that we had not longer to stay.

A THRILLING SUMMER TOUR

Through 1,500 Lakes and Virgin Forest without a Guide

Algonquin Park, in the Highlands of Ontario, is the ideal spot for a holiday. Some 2000 feet above sea level, its cool pine scented-air and fresh invigorating breezes bring new life and health to nerve-worn people.

You may paddle or hike almost anywhere throughout the park without a guide. The fishing—speckled trout, salmon trout and small black-mouthed bass—can hardly be bettered.

The Park, with its glorious pine woods, rocky hills, gleaming lakes and rivers, is a veritable mecca for those who like a "he-man" holiday. Every mile of its three thousand sq. miles is interesting and beautiful.

Ask any Canadian National Railways Agent for full information and illustrated literature on Algonquin Park.

Nearly Swindled of \$29,000

There are many ways to swindle the public, and one would think at night to ferret out some new scheme. John Puthorough, a London contractor, and son of Mr and Mrs Sam Puthorough, formerly of the 2nd con., Bentinck, has recently passed through a somewhat unusual experience and most likely is now regarding the day and date in question as one of his lucky days, since he failed to "bite" for the proposition, though doubtless it looked good to him at the time.

The story as related by Mr Puthorough, reads like a fairy tale of fiction. Six members of a gang of American confidence men, apparently with unlimited resources at their disposal, enticed Mr Puthorough to Toledo, where a contract for the London building was to be signed by an alleged colonel of Cleveland, who was putting it up as a trust for a child. While in Toledo, Mr Puthorough saw exorbitant sums being made for him and two recently acquired partners on the stock market. The climax was reached when \$385,000 in profits was spread on the hotel room table by the "manager of the stock exchange."

All that was needed before Mr Puthorough and his two partners could claim this sum was that a credit note of \$125,000 be redeemed. Mr Puthorough's allotted share was \$29,000. He had 48 hours in which to raise it. Mr Puthorough returned to London to raise the money, but on thinking it over he became suspicious. He stalled for time and endeavored to attract the attention of the U. States federal police in the matter. They failed to act however and the schemers went free.

Six men were in on the swindle plan. Five operated in either Toledo or Cleveland and were "in" when the scheme reached its head and the other acted as a spy in London. The latter obtained employment with Mr Puthorough and shadowed him for two weeks. He was discharged after the plan fell through.

ORGANIZED BANDITRY

The forces of civilization, organized for the protection of law-abiding citizens, seem to be unable to cope with the schemes of bad men who respect no law, human or Divine.

Tuesday night about midnight at the Union Station, Toronto, a mail train for Detroit, Chicago and Western points, was being made up as usual, mail bags stowed away, and it appears, bags of a special kind containing money or registered articles, among them.

Suddenly six armed thugs, jumped amongst the officials, overawed them with pistols and sawed off guns, and demanded the money bags. They got them, fung them into a waiting automobile and before police could be at them, were off. However one police car got after them, keeping them in sight as far as Sunnyside, then lost them. Estimates of stolen property run up to \$300,000, and now there will be opportunity for some fine detective work.
