ISSUE No. 26-28

Of Vermont State In Maple Products St. Alban's, Vt.-Vermont's claim

Canada Is Ahead

to leadership in the production of maple products is being challenged by Canada, the monthly statement of the Vermont Customs District shows. More than half the \$58,821 in revenue collected at Newport during April came from duties paid on maple sugar products crossing the border from Canada. Nearly 1,500,000 pounds was imported. Automobile travel showed a marked increase. A total of 28,916 cars with 82,418 passengers crossed

In increasing numbers the summer tourists have invaded the Springfield Republican: (A party of quiet country at the south of England, British Congregationalists numbering to bathe on her white beaches at

the Conquest; that it was later restored by the Normans in their own particular style.

At any rate, there must have been some sort of castle on the Island of Tintagel, or Tintagol, when Geoffrey of Monmouth, the most believable of the early writers, recorded his version of the Arthurian legend about the year 1147. At the close of that century, it seems evident, the Norman family of De Hornacot, seated at Hornacot in North Tamerton, had a grant of the manor of Bossinney, including, no doubt, the Island of Tintagel. They thereafter took the name of Tintagel as a part of the family name, which is thought to indicate that there was some castle or mansion on the island for them to reside

Cliff Now Owned by Church

The isle of Tintagel and the ruins upon it now belong to the Prince of Wales, as Duke of Cornwall, Much of the other land of especial note in the region is similarly protected for posterity. But the area along Church Cliff, which is attached to the glebe and of the vicarage of Tintagel, is the property of the Church, and as such may be sold at any time, pro vided proper authority is obtained from the Ecclesiastical Commission-

Since the increase in the tourist trade of the region began, the value of the land for building sites has steadily gone up. The Rev. A. Blis sard Barnes and others interested in the sentimental value of the cliff front have been alarmed lately lest an especially fine offer induces the church to sell, allowing the cliffs to fall into private hands. Accordingly they have taken steps to buy the land them selves, at a price of £1,500, which is said to be less than half the value of the cliff even now for building sites, and to turn it over to the National Trust, national society for the preservation of historic monuments and spots of natural beauty. . ---
