**MAGIC**

**THIS MAN** is putting up telephone poles. Early in the morning he is out making a way for the wire that is to come. At night when the gang gets back to camp he is tired. But he likes it. There is zest in the work he is doing, for he is in new country. There have never been telephones here before.

He is blazing the trail. After him will come families and homes and stores and factories to make another city. Over the wires on the poles he plants there will be voices and laughter, business will hum, all the world will draw closer.

He works with magic. The wire transforms time and distance. Today you can lift the telephone at your elbow and within seven minutes hear the voice of your friend in England say: "Are you there?"

**THIS MAGIC** in the telephone has not come in a day. It has come with year after year of experiment and improvement. The telephone of today is no more like the first telephone than a machine gun is like a bow-and-arrow.

And the telephone of tomorrow will surpass the telephone of today. Tomorrow perhaps, this telephone at your elbow will bring you the face of the person you talk with, will hold new magic we now do not dream of.

**THIS IS** the urge to improve—to seek and to find something always better—which has been the definite policy of the telephone business since the first crude instrument reproduced the voice of its inventor fifty-odd years ago.

By no other policy could the telephone have kept pace with this country or contributed to its progress as it has done in reducing Canada's wide distances and differences of geography.

And by no other policy can the telephone now meet the responsibility of serving Canada's future.

**CANADA'S FUTURE** is at least twenty years of unprecedented growth and prosperity. All the signs and barometers of business point to it. All the shrewdest prophets of business predict it.

The signs and the prophets are so sure, and the future is so unmistakable, that within the next five years more money will be needed for extension of the telephone system in Ontario and Quebec than was spent by the business in all its first forty years.

**THE MAN** pushing poles and wire into new country and the foresight which now is planning over one hundred million dollars of new plant to meet the needs of the next five years come from the same policy and the same purpose—to give Canadians facilities of communication worthy of their country and its future.

Published by The Bell Telephone Company of Canada to tell you something about the telephone business and the people in it.

**How one mother keeps young**

"How splendid, that we can run away for a few days to visit your mother! Without Long Distance it would be of course quite out of the question, but it is so easy to call up our homes by Long Distance and make sure all is well that, really, there is no excuse for denying oneself."

"I suppose you use Station-to-Station calls. I do. By asking for the number I get the cheaper rate, and the Evening rate after 8.30 is really most reasonable."

The rates to nearby towns, within a radius of say 25 miles, are so low that it is now possible to keep up a wide circle of friends at very slight expense.

**PRESENTATION TO CRUTCHLEY'S**

Friday evening last, Rocky Saugeen section was well represented at the home of Mr and Mrs Abraham Crutchley, north of town, where, in speech and otherwise, they aimed to show the loving couple that their immediate community were genuine and sincere. Mr and Mrs Crutchley have been highly respected residents of the district for many years and while not removing far, the bond of neighborhood is broken, and this the section feel. So as a slight recognition of their appreciation as residents among them, the departing couple were presented with a handsome floor lamp, as well as a pipe and tobacco to Mr Crutchley. Mrs Thos. Lauder read the complimentary address and Mr Thos. Turnbull made the presentation on behalf of the gathering. To this, Mr Crutchley made a splendid response in appreciation of the gifts and for other kindnesses shown and Mrs Crutchley also extended her personal thanks. Mr Jas Lawrence was chairman of the gathering and short impromptu speeches were heard from Messrs R. Lawson, T. Lauder, C. Weppeler and Stewart McArthur.

The remainder of evening was given over to dancing and card playing. Shortly after midnight another evening was brought to a close where the former order of things give way to younger muscle and brawn. This week Mr and Mrs Crutchley move in to Durham to the residence recently purchased by them from Mr Alex Al. Joe. The latter is moving to his farm on the 2nd con. Genleg. Mr and Mrs Abraham Crutchley Dear Friends:

On the eve of your departure from our section, we have gathered to your hospitable home to once more exhibit the sociability that is so characteristic of your family circle. This occasion however, is tinged with regret over your removal from our immediate midst. In the many years of your residence here, we have found your friendliness and neighborliness a great asset and benefit to us all, and the joys and sorrows of the community were shared by you as if personal.

While out of the section's bounds, we are pleased you will still be 'nearby' residents, and at frequent intervals join with us in our community gatherings.

As a slight and tangible appreciation of our esteem and regard for you, we are asking you to accept these gifts, for they bear the seal of your Rocky friends in wishing for you a long and happy residence in Durham.

To Mr and Mrs Neil McLean and family

Dear Friends:

To-night with us is to be an evening of pleasure combined with sorrow—pleasure that we are to spend a few hours with you, and sorrow in the knowledge that in a few days you are to take your departure from this neighborhood, one in which might be said, the whole of your lives have been lived and in which we can assure you that your many estimable qualities have been held in the highest regard. You have been good neighbors and true friends and this with your exalted ideas of citizenship, makes our parting the more sorrowful.

We learn that it is your intention to make your home in Saskatchewan for the present and we can realize the happiness that must be yours in the anticipation of new friendships to be made, tho' we are as well aware that you can scarcely sever old friendships without a pang of regret. With you, as with us, your departure must be regarded in the light of a new adventure and tho' the anticipation of new scenes is ever a joy, there is always a certain anxiety when casting loose from old friendships and leaving the acquaintance of a lifetime.

To you, Mr and Mrs McLean and your family, we can assure you that the news of your future successes will always be welcomed in your old home neighborhood, whose earnest hope is that you will never regret the step you are about to take and that at some future time in the not far distant future, we shall be privileged to meet again.

To express in a tangible manner our esteem and regard for you as a member of this neighborhood, our appreciation for many kindnesses and favors in days gone by and our
