

Co. and Town Make Agreement for Lambton St. Paving

The central 20 feet of the connecting link through the town of Durham will be paved and in consideration of the county constructing and financing the payment of this pavement, Durham will forego the annual rebate of the County of Grey for a period of ten years, from 1929 to 1938 inclusive.

That part of this connecting link west of the overhead railroad bridge, will be paved immediately, while that stretch lying east of this bridge cannot be paved until some agreement is entered with the railroad Co. regarding the construction of this bridge.

The county road committee, along with R. McKnight, county engineer and R. C. Muir, chief of municipal highways, met the railway company's engineer at Durham Thursday morning last with the result that the agreement was entered between the county and the Town of Durham and a report of this committee to this effect was presented by J. J. Buchanan, chairman of the county roads committee. The road west of the discussed bridge is approximately 2,000 feet, while the remainder is 1,000 feet.

The report of the county roads committee contained a recommendation that the county of Grey enter into a similar agreement with the town of Hanover that the rebate to that town to be held a similar length of time.

Clause three of the report which reads as follows: That the county of Grey contribute towards the cost of permanent pavements in towns and villages an amount equal to and not exceeding the cost of a cement concrete pavement.

This was protested by Mr. Hunt, who asserted that, in his opinion, this covered a big portion of the roads in the county. However Mr. Hunt was assured that the clause was to give the county council a basis on which to work, and that it meant the county council would pay the price for concrete pavement, on these roads and not for more extensive form of pavement. Should the town or village wish a more expensive form of pavement, they would have to pay the additional cost.

A clause in the report recommending the payment of a number of accounts involved by some of the members who interviewed Mr. Muir of Toronto, and which included the name of Mr. Bell, reeve of Durham, was contended by Mr. Hunt, who wanted to know if Mr. Bell was not representing the Town of Durham and not the council at the interview and that it

was therefore the county who was liable for his expenses. The report also recommended that the committee investigate the claim of Mrs. Catharine Walker of Artemesia Twp. re a washout during the last storm, which was claimed to have been caused by a damaged drain.

Mr. Buchanan also stated that a bridge on the county line of Grey and Bruce, one mile south of Neustadt, would have to be rebuilt. The old bridge, which had been under- mined, was a 65 foot span, but it was thought advisable to build the new one 80 feet. Twenty five per cent of expenses would be paid by Grey Co., 25 per cent by Bruce and the similar situation was on the townline between St. Vincent and Duprassia.

LADY M. D. AT TOBERMORON An important advance in the work of the Women's Institute of Ontario has commenced, when Dr. Eva R. Fisher takes up practice at Tobermorum district. This capable medical woman has undertaken to do her work in this inaccessible part of the province and will be subsidized by the Federal Women's Institute of Ontario. Dr. Fisher has been in charge of Dr. Caroline Brown's practice for some time. Announcement of Dr. Fisher's appointment was made by the special committee on health at the Easter meeting of the W. I. Provincial Board, held in Toronto, and created keen interest among the members in isolated localities for some time and the appointment of Dr. Fisher is a step of exceeding great importance.

MAJORITY OF 27 The amendment drawn up by the Conservatives, practically impeaching Hon. Veniot, Postmaster General, was defeated by the above figure. The division was made by the party lines tho' only three of the Labor and Progressive parties voted with the government. While Mr. Veniot has the confidence of his friends, it is disquieting if some of Leader Bennett's charges are correct such as that in 16 mos. he has discharged Postmasters of the rate of 1 a day. The Daily Globe has been after him with a big knife and though defeated, promises that it is not over yet.

HAMPDEN Seeding has begun in general, although a few days later than some years. The warm weather that has been so reluctant in coming in here, and with a gentle rain after so many white frosts. All may be well yet as the grass and wheat fields are looking quite green.

Mr Bert Rahn had a large force of men and teams last Wednesday driving gravel to repair the damage done by the recent high water. Mr Sharp Sr. and Mrs M. W. Myers were the guests of Mrs Hudson, Steel Bridge, last Wednesday afternoon, where the Campbell's Corner Institute held their monthly meeting.

Mr and Mrs Andrew Fulton and family spent Friday evening with Mr and Mrs Alex. MacLean, S. Bentinck. Mr and Mrs E. O. Hickling spent a day recently with friends at Maple Hill.

Mrs Wm. Henderson and baby visited with her parents at Allan Park last Tuesday. Mrs Johnston of Ebenezer, Mrs. Corbett of South Bentinck and Mrs. A. Fulton visited with their mother Mrs. Henderson Sr. last Wednesday.

FOOT BEATS

The life work of this column is to chronicle the sporting activities of the world in general, but of Holstein in particular.

Taking everything into consideration, it looks like a good season for sports in Holstein.

The athletic field has been re-earched and seeded down, which will undoubtedly make a great improvement.

The spring fever affects us all in different ways: It makes some just a little more industrious, the boys dig out their football boots and wonder when they will start to practice. The older boys hunt up their fishing tackle and stroll around to see how the bowling green looks. And we all know how it affects the women.

"It's an ill wind that blows nobody good." We can now say "it's an ill wind that does nobody good." Judging from the large number of ball bats lying around, it looks like a good season for baseball.

Another good thing that the flood did was to wash some deep holes out in Brown's; they've got trout written all over them.

A lot of the big ones that got away last season will be down there for the spring rush.

This column will give a prize of \$5.00 to the angler who can catch the one that got away from Jim Calder last year. After spending ten minutes describing the size of the fish, he added "I'd show how long he was if my arms weren't so short."

The boys had their first football practice on Friday. There were not many out but those who did, showed a great deal of improvement. They are all in good shape and are going out for the cup this year.
