Evidence in Murder Case Led to Fresh Investigation

Paris .- A dramatic scene occurred at Havre recently when a former Marseilles hairdresser who had been sert ir chains to Devil's Island (the nohaving been kept a prisoner for eleven industry.

The man, Henri Bellon, now aged a 200-acre farm in the west of Eng-3', was the victim of an incredible land which has been carefully fenced drama every bit as strange as that off and which has for a long time exof Captain Dreyfus, one of the most cited the wonder and curiosity of retorious instances of a miscarriage neighboring farmers. It is a plant of justice ever known.

NEW TRIAL. tablishment of his innocence is due to a murder trial in Paris that had grown even in a comparatively cold no connection with the hairdresser's country like England. It grows from alleged offence. It was evidence obtained at this murder trial that secured for Belon a new trial which to 10 feet and a stem circumference ended in his acquittal.

Bellon's case is one of the most extraordinary in the history of mili- makes a rich oily cattle food. From tary and civil jurisprudence. He had kinds of textile purposes similar to been invalided out of the army in 1914 kinds of textile purposes similar to seriously wounded, and resumed his those of flax and jute. From the core profession of hairdresser and wig- of the plant is obtained a cellulose maker. He went to Geneva to buy for paper making. women's hair-nets. There he met a naturalized American named Stanley plants will yield 3,735 pounds of fibre Mitchell, a Pole by birth, who was ready for hackling in a textile mill; working in Switzerland for the French 12,030 pounds of material ready to counter-espionage service.
