Walkerton has now a "K. C." in their midst. Otto E. Klein's name appeared among the list of eminent Ontario lawyers to receive this coveted honor from Attorney General Price on Monday last. Graduated at Western with Brilliant Record

Last Friday was a red-letter day in the life of Albert E. Kress, son of Mr and Mrs Edward Kress, Durham, as it marked his graduation with well-merited honors after a four year Arts course at Western University, London, specializing in Political Economy. In every field of student activity, Albert took a foremost part, and was evidently one of the most popular lads in attendance.

Among the honors he carried away were the University Gold Medal for Economics; it is now A. E. Kress, E. A.; then he won the "W" for athletics, awarded to players on championship teams,— and Albert starred on both hockey and rugby line-ups for several seasons. This past year he has been perfect, which is the highest office in the gift of the student governing body. As such, he officiated at the planting of the class tree last Friday which preceded the Arts '29 class day exercises.

Then seven of the students, of whom Albert was one, were presented with pin and parchment, which signified their admittance as members of the Honor Society, bestowed upon students distinguishing themselves in non-athletic activities, such as debating, dramatics, and music. Dean Neville presented these memberships. Following this ceremony, Albert delivered the class prophecy.

His parents, brother and sister attended the closing exercises last week, and "Sox", as he is familiarly known, is now at home for a holiday, he helped to put Durham to the fore at Western, and we congratulate him upon the honors he has won for himself, family and town.

Council Makes First Payment on Sewer Work

Women's Institute would purchase New Piano for Upper Hall, they to derive rental fees — Representatives here to insure Town against Public Liability.

All members except Coun. W. S. Hunter were present at June meeting of the Town Council Monday. Messrs Plaxton and Huston were representatives present soliciting municipal insurance from the town to cover all public liability 100 per cent, for any accident arising from defective sidewalks, culverts, etc. The Council felt it was good business to carry it, but in the past, have had very few claims to pay and were not sure at present that they could afford to carry any policy, with so much street expense. The minimum policy is \$150 per year and up to \$200. It was laid over till a full Council next month.

The petition for Lambton and Bruce St. paving was again before the Council with nine additional names to it. Accounts totalling 406.95 were presented by the Finance Com. and passed.

The Women's Institute propose to purchase a piano and were granted permission by Council to place it upstairs in Town Hall, for use at concerts, the Institute receiving rent same. The Public School now own the piano on lower floor, which is rented for dances.

\$1900 was passed as first payment to Standard Paving Co. for work now done on sewer construction, also \$95 to James, Proctor and Redfern, engineers' fees.

Councillor R. Whitmore reported interviewing several property owners in business part of town, regarding sewer connections, and all are desirous of having all drainage connections made before pavement is laid. Poor Condition of Retaining Walls
Coun. C. Howell reported the dangerous condition of the McAluffe sidewalk in Upper Town and urged immediate attention, which Council will undertake to repair. The Mayor also referred to the retaining wall in front of Queen St. Church, which has been holes in it. It had not been properly pointed, and it will be referred to the contractor, who built it a couple of years ago for completion. Reeve Bell urged a deputation to attend County Council in Owen Sound, to seek to have the County Road from the Galt to Garrafraxa running straight across Proctor and 16th Egrement to Garrafraxa, instead of former route planned. It was left to Board of Trade to appoint them.

Few Changes Made at Court of Revision

All members of the Town Court of Revision, except W. S. Hunter, attended the annual Court, previous to Council meeting Monday. There were six appeals and three of these were sustained. J. W. Ewen and Son were deemed assessed a little high and \$250 was cut off assessment on land and buildings, and \$250 more off business assessment, on account of recent dam washout. Smith Bros. were also reduced \$250 on business assessment on account of being out of business about seven months, following their big fire of last September.

Miss Sparling's assessment had been erroneously entered at \$1200, and it was corrected at \$1000. Geo. Ryan assessed, for \$1700, Wm Smith for \$1800, and Bert Stoussure for \$1500, appealed against assessments as being excessive, but the Court decided to make no change in any.

Rev. Jas T. Priest and Mrs Priest were added the roll, in place of Rev. W. Spencer. Dr Smith was assessed for lots 5, 6, Bruce East, instead of Geo Webb, who sold the property to the Dr. Thos. Young's dog was struck off list. It being shot soon after assessor called.

YOUNG LIFE PASSES OUT IN DETROIT TUESDAY

Mr James Watson, North East Normanby, went to Detroit this week, in response to word received of the death of his infant grand-daughter, Elizabeth Gertrude, daughter of Mr and Mrs Archibald S. Watson of that city. The little child was five months old and for the past few weeks has trouble being largely responsible. Two sisters, Estelle and Jean, with the parents, will mourn the passing of this little flower who was in bud for such a short period.

Somehow it would be quite natural for Labor to have an "over-all" majority in the recent British elections

Cutting Down Roadway Preparatory to Paving

The sewer laying in Upper Town to Durham Road corner, was completed last week and this week, the Standard Paving Co. has the gang at work excavating along just north of Ewen's Mill right into the main river bed. Here the outlet of the lower town sewer will be in swift water about 200 feet below the dam. The ditch for the sewer is now dug almost to Saddler St. The past week a number of hoover wagons, a caterpillar steam shovel and roller were shipped in. The steam shovel was set to work at top of hill and is working northwards, taking a foot or so off the surface of highway. The gravel and earth is scooped up, emptied into the wagons and the material dumped at sides of road in the gulley on Durham Road, just east of Garrafraxa, where a wider road is badly needed.

Mr Resulle is in charge of the equipment now here and Mr Brown, general superintendent, has been here and will be at various times during the summer.
