At the evening service at St Columba, Mr Beecher Parkhouse of Ferguson, occupied the pulpit very acceptably to his many friends here, taking as his text 2 Kings 10:32, "In those days the Lord began to cut Israel short", showing how religion was bred into one by their mothers, citing the persecutions of Jezebel. Yet in spite of persecutions, the Covenanters and many other instances quoted, were not destroyed. Men who have become great have served under great Masters—Laurier under Blake, Mowat under John A. Macdonald. Josiah was a great person. Each person must finally depend upon himself. Leaving to business alone, is not safe.

### Desires no Encouragement to Immigration

BY AGNES MacPHAIL, M. P.

Dear Editor:

If it were possible to do with it, Parliament will soon propose. I think the wide asphalt pavement from Wellington St. up to the centre door is the hottest place in Canada. We have sweated this week.

Immigration has occupied the spotlight for some days. Gen. McRae, the member for Vancouver North, moved an amendment to the Immigration estimates as follows:

"That all Canada words after 'that he struck out' and the following substituted therefor:

"this house regrets the failure of the government to profit by Canadian experience in the colonization and settlement of the country and deplora the fact that men and women have, during recent months, been settled on western crown lands at great distances from transportation, educational, hospital and other necessary facilities, thereby making it almost impossible for them to achieve success and happiness in their new surroundings, and is of the opinion that such conditions can only be remedied by the immediate reorganization of the Department of Immigration and Colonization."

With that anyone could agree, but he tacked it on to the tail end of a speech which outlined a major colonization scheme for the Peace River which would cost three hundred million dollars in ten years, or thirty million a year. He claimed there were 75 million acres of good agricultural land available in the Peace River, which is 10 acres more than is under cultivation in all Canada.

With an average farm of 240 acres, he proposed to settle 300,000 farmers or a population of one and a half million people. These he believed, would support an urban population of 650,000, and on paper, he showed an increase in Canadian population of 2,150,000, if his scheme were adopted.

Gen. McRae wanted the Government, by the use of high powered machinery to clear the land of trees in the district and leave the newcomer on the land free from interest or principal for five years. In the meantime, the farmer who is struggling along paying interest and principal would be shouldering the cost, or at least his share of the cost of the scheme.

The Government, farm and Labour groups gave him no support and I thought he got very little from his own party. Several spoke on the subject but the motion was lost without a division.

Mr Donald M. Kennedy, U.F.A. member for Peace River, while giving credit to Gen. McRae for his industry in studying the Peace River country, disputed many of his conclusions.

Mr Lucas, U.F.A. Alberta, thought it poor policy to give the Dominion Government control of a vast area in the Province of Alberta.

Barry, Conservative member for Fraser Valley, read letters and gave figures to prove that the Lands Settlement Scheme, which had brought British families out and settled them on the land, vacated by the soldiers, was not working out to the advantage of the settlers. That is, a man who had bought a piece of land for \$100,000, and had a splendid farm, with a large turn out.

I put in some time studying the speech of Gen. McRae and voiced my opinion of it in the House as follows:

"The Honourable member for North Vancouver has certainly studied the subject but he has studied it as soon as an armchair. He talks like a promoter to me. His speech reads like a prospectus; it would also convince one against his better judgment. I have no doubt at all that a very honest, very clever, and very estimable gentleman, but he talks of these farmers as though they were inanimate subjects and sometimes I think that farmers must be almost that or far worse, if something is to be done of Common. I wish they could sit in the galleries and hear the words of wisdom that drop from the lips of the Hon. members. It seems a pity that such wisdom should be entirely lost. At least the farmers would learn from them, a lot about farming that they never learn from actual practice."

Mr. Forke had complained that no one had made constructive suggestions regarding immigration, so I offered one dollar of state money on immigration—not a dollar, and would do nothing to induce people to come to this country. I give as my opinion that farmers do not want that if we continue to do it we will lower the standard of living on farms; that it is the railways and banks and manufacturers, the land etc. who want immigration because they find farming them a profitable business. What money we do spend, I thought should be spent on inspecting, keeping out all who are not physically and mentally fit to enter.

The wheat crop of the world in 1923 exceeded the bumper world crop of 1922 by 300,000,000 bushels. Mr. Geo. McIvor, Gen. Sales Manager of the Canadian Pool, in commenting on these figures said, "It is perfectly clear that the supply of bread grains considerably larger than last year, and of course it naturally follows that the supply will be disposed of at lower prices than those prevailing a year ago."

Mr. Luchkovich, of Alberta, the on-ly Ukrainian member of the House of Commons made the best speech on hickory limbs to dry and before countrymen being classified as non-

preferred and to prove that it was an objectionable classification, and: "Suppose the Minister of Immigration were to call the members who sit on the left of the Speaker the non-preferred party, would the Conservatives like it? They certainly would not, because deep down in their hearts the Conservatives feel they are just as good as the members who sit on the right of the Speaker, and
