Lifeboats
in England

A Record for the Past Season
of the Coastal Life-Savers
of the Sea Girt Isle

"Nineteen hundred and twenty-eight has been a year of splendid achievement for the Life-boat Service, overshadowed by a great tragedy," says "The Lifeboat," the organ of the National Lifeboat Institution.

"During the year the Institution gave rewards for the rescue of no fewer than 591 lives. This is the largest number rescued in one year since 1923. Of these lives, 60 were rescued ten days in the gales in the middle of November. In addition to the lives rescued, 52 vessels and boats have been saved or helped to safety.

"In other ways, 1928 was a very busy year for the lifeboat service. Seven new motor lifeboats were built for Stromness in the Orkneys, Wain- on-the-Naze and Southend-on-Sea, Essex; Swanage, Dorset; Fowey, Cornwall; Cromarty; Cromartyshire, and Thurso, Caithness-shire. Sixteen other motor lifeboats were under construction at the end of the year. The lifeboat fleet, on December 31, numbered 205, of which 70 were motor lifeboats.

A Good Fish Story

Giant Siamese Sea Creature
Takes Villagers a Day to
Land

Bangkok, Siam.—With due regard to the traditional pinch of salt with which fish stories are received, the Bangkok "Daily Mail" published photographs showing a giant freshwater fish about the size of a cow and described its capture by the "Mali" Chinese correspondent.

In a Cool Tower

In a cool tower, close to the sky Ladies should live, their gentle gaze Bent on their handiwork, lest, passing by One speak their name or give them praise. They should have rivers, hesitant and still To look upon and, when night comes, a breeze To talk with; a fair enchanted hill To dream about. There should be leafy trees. Against their windows, rest the white moon-flower. Open its buds and breathe its spell in a cool tower. —Eliabeth in the New Yorker.

British Motor Exports

London Times Trade Supplement: American manufacturers have a huge outlet at home for standardized products that are as suitable for the conditions in most export markets as for those in the United States. They begin, therefore, with the initial advantage of an assured protected home market which justifies mass production quite apart from export requirements.

Two Languages

Winnipeg Liberte (Ind.): It is all very well being bilingual but we should not be so to our own cost. We should know enough to speak out loudly and clearly in French when occasion demands it.

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

Reformers Get
Scant Following
In South Seas

Natives of the South Sea Islands Hard to Move from Old Customs

CLOTHES? RIDICULOUS! Wear such ugly clothes? Go to that bother? Not on our lives, said the South Sea Islanders. And the chief who had been struck with reforming zeal almost lost his leadership in the same way that King Amannah found trouble in Afghanistan when he tried to modernize his people.

At times the would-be reformers have been wongun. In the mountainous interior of New Guinea I came across one such. Her special brand of reform was the abolition of a new tribal dance which had been introduced from the coast and was rapidly becoming popular.

In one of the lesser known of the Solomon Islands, "where sorcery is a highly lucrative form of blackmail, a native woman caused a tremendous sensation by announcing she had discovered a new and infinitely more powerful form of the art."

Democracy means nothing if it does not mean the realization by the individual of his responsibility. If the individual fails, the body of which he is part will become corrupt, and democracy will perish.

Canada a British Country

Ottawa Journal (Cons.): (Present Hoover complains of the record of crime in the United States.) In this Dominion we are still largely imbued with those high ideals of culture and civilization and civil and religious freedom for which Britain has always stood and from which the American Republic cut itself out over one hundred and fifty years ago.

like those of a ship's bunk, and in the end they agreed to do it. At Cape York, in far-northern Australia, where, the only white, the writer spent eight years establishing a coconut plantation, he thought he would try his hand at improving the lot of the exceedingly primitive blacks.

THE RESPONSIBILITY
OF EVERY MOTHER

The child in the home is a never-falling source of joy, but, at the same time a never-falling responsibility to the fond mother. It not infrequently happens that minor ailments of the child distress and puzzle her.

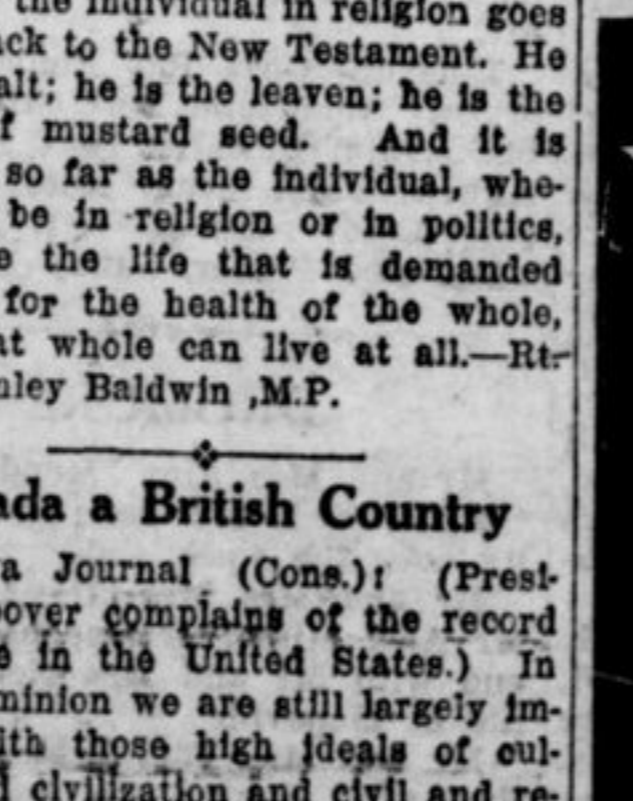

At a black's camp in a remote part of tropical Australia, an aboriginal girl who had been employed as a domestic servant at a distant town conceived the idea of teaching her brethren to live as she had seen white people live. The tribes took no heed at all of her advice.

The Individual

Democracy means nothing if it does not mean the realization by the individual of his responsibility. If the individual fails, the body of which he is part will become corrupt, and democracy will perish.

Faults

Don't make too much of the faults and failings of those around you— even be good to yourself, and don't harry your soul over your own blunders and mistakes.—Ada C. Sweet.

It is not possible to build a better lawn mower than SMART'S. SMART'S Mowers have proved their superiority wherever grass is grown. They are easy to use, cut and absolutely guaranteed.

Looking Three Ways

A poor man who had achieved an enviable reputation among his neighbors for a happy, contented disposition, was asked for an explanation. "It consists in nothing more than making a right use of my eyes," was the reply. "In whatever state I am, I first of all look up to heaven, and remember that my principal business is to get there. Then I look down upon the earth and recall how small a place I shall occupy when I am done with life. Afterwards I look about me and observe how many there are who are in all respects more unhappy than I."

THE RESPONSIBILITY
OF EVERY MOTHER

The child in the home is a never-falling source of joy, but, at the same time a never-falling responsibility to the fond mother. It not infrequently happens that minor ailments of the child distress and puzzle her.

Flattering Phrases

"Do you think by bathing suit is forward?" "Well—about 50-50 forward and backward, I'd say."

It May Be Urgent

Stephen Gwynn in the Fortnightly Review (London): Europeanization has at least to some considerable degree meant Christianization among the leading Chinese. It is easy to be cynical about Kellogg Facts and the rest; indeed, it is difficult not to be. But a China whose governing persons were even partly Christianized should find it easier to come to reasonable terms with a somewhat demoralized Europe.

When your Children Cry for It
Gastoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done, for Gastoria is a baby remedy, meant for babies. Perfectly safe to give the youngest infant; you have the doctors' word for that! It is a vegetable product and you could use it every day. But it's in an emergency that Gastoria means most. Some night when constipation must be relieved—or colic pains—or other sufferings. Never be without it; some mothers keep an extra bottle, unopened, to make sure there will always be Gastoria in the house. It is effective for older children, too; read the book that comes with it.

Felt Tired
and Miserable

"I took Lydia E. Pinkham's Vegetable Compound for miserable and tired feelings and it gave me strength to do my work. My nerves are better and I feel well and strong and have a good appetite. I sleep well and am in pretty good spirits and able to work every day now. I recommend the Vegetable Compound, and you may use this letter as a testimonial."—Miss Delaney Wallace, Union Street, North Devon, New Brunswick.
