GRASBY — HUNTER

A very quiet but pretty wedding took place at the home of Mr Andrew Hunter, near Holstein, on Wednesday June 7th, when their daughter Alice, was united in marriage to Mr Harold Grasby, the bride's pastor, Rev Chas. Jay, B. A. officiating. The bride wore a gown of powder blue georgette with silver trimmings and carried a bouquet of white carnations and fern. After the ceremony a dainty luncheon was served with only the immediate friends of bride and groom in attendance. They take up house-keeping on the groom's farm, a mile and a half south of Durham, on the highway.  
The Review extends congratulations to the young couple.

We hope she will soon be improved and able to come home.

**RYLTH'S CORNERS**  
Andrew Marshall, newly elected President of the Farmers' Telephone Co. of Durham, Limited, and your humble scribe, Sec'y Treas. of the same, met Mr G E Cooke, Stratford, District Manager of the Bell Telephone Co. on Saturday last and signed up agreement for Durham as a Central. This contract has been about as difficult and slow of progress as the reparation problem, but we at last are assured of service in about two weeks.  
Mr Henry Damm shipped 47 head of fat cattle to a commission firm in Toronto on Friday last. We are sorry to say that on the same day he lost a good brood mare and foal.  
The slight frosts we have been having more or less the past week, has checked the vigorous growth we experienced a few days earlier and a nice little gentle shower would do a world of good. As it is however, everything looks lovely.  
The cement bridge built a couple of years ago, near Wetlaufer's saw-mill, which crumpled up with other cement bridges in Normandy during the spring freshet, is being replaced by the old steel bridge below Orsdarville, which was pulled down last summer and replaced by the huge cement bridge, which also narrowly escaped going down stream.  
When cement bridges were first built, most people thought that they are anything but that and a lot remains to be learned in making a suitable foundation. They are not half so reliable as the old fashioned pile timber bridge, most of them built at a fraction of the cost of cement ones.  
Miss Agnes Macphail holds the right view re the immigration policy from a farmers' viewpoint at least. So long as production rules the price we fall to see how the farmer is going to better his condition by inviting more competitors. For proof of our view, look where wheat is today. Too much production, sure.

**BENEDICTS 17, HIGH SCHOOL 3**  
The Benedicts are going stronger every game in the Durham-Holstein Softball League and last Friday handed the H. S. boys a severe trimming their first, Space forbids a full report
