ing Bases Are Established in Iceland and Greenland

holm.—An airplane flight from to the United States via Iceland and Greenland, probably a distance of some 4,300 miles, is planned by Captain Albin Ahrenberg, one of the crack civilian pilots of the Aerotransport Company, who maintains inland and foreign bases.

ate will go from Stockholm to Reykjavik, where a fuel depot will be established in advance. Similar depots will be set up in Greenland, probably at Etah, and at some lake in the Province of Quebec. From Montreal Ahrenberg expects to fly direct to New York, where he will make his destination some days after his take-off in Stockholm.

flight he plans to use a monoplane, specially designed for the Swedish Flying Industry Co. at Malmoe, under Ahrenberg's supervision. Aside from himself, the plane will carry a mechanic, who will serve as radio operator, and a third person. Ahrenberg is planning the proposed venture, probably will take place during the month of July of this year. Captain Ahrenberg states in the Stockholm press that he does not intend to set records of speed or endurance. His purpose is to investigate the possibility of establishing an air route from Stockholm to New York; in fact, retracing in the opposite direction the route which the Swedish flier, Bert Hassel, tried to make last year.

the flier is known as the "Svea", having made propaganda flights around the world to stimulate interest in civil aviation. Last summer he spent five weeks on such a tour, making 2,333 hours carrying over 10,000 passengers on short trips. These flights were made from primitive fields in all parts of the world.

INTEREST IN SWEDEN

proposed flight has created a keen interest in Sweden, and in which Captain Ahrenberg has convinced aviation experts of the soundness of his plan. Captain Carl Florman, president of the Aerotransport Company, of Sweden's pioneer aviators, expressed himself as confident that the venture will be a success. Ahrenberg is using an airplane in a newspaper in which he reasons Hassel failed due to the fact that he did not believe in the undertaking. Ahrenberg's optimistic view on the flight was offered by J. Ahrenberg, of the government department of hydrographical and meteorological studies, who accompanied the Swedish expedition last year as weather observer. Ahrenberg has better success than any other aviator in establishing a plane, and he hopes to fly in June or July, as there is but little danger of fog on the northern route. He should

New British Speed Boat Being Built

Estelle IV. Will Be Shipped to Montreal Next Month 90 MILES AN HOUR

Montreal.—That the much-coveted Harmsworth Trophy for motor boat racing will be held by an English woman after the first week in September is the firm opinion of Herbert Ditchburn, one of the best known speed and pleasureboat builders on this side of the Atlantic, who, with Mrs. Dutchburn, landed recently from the Cunarder "Andania" following an extensive tour of Europe.

While in England, Mr. Ditchburn inspected Miss Betty Carstairs' "Estelle IV," her new racing craft which is now nearing completion and with which she hopes to wrest the valuable trophy from the Americans. The new craft, said Mr. Ditchburn, has been designed by A. H. Hawker, an Englishman with considerable Canadian experience in boat-building, and will be capable of a speed of over 90 miles an hour. The type of engine used will be the Napier Lion, similar to that used by Sir Henry Seagrave in his Golden Arrow when he covered 231 miles an hour at Daytona Beach recently, though the actual number of engines and the horsepower developed is still a secret.

Mr. Ditchburn explained that England is at a disadvantage where trials are concerned, owing to the fact that the engines are fitted with very thin steel water jackets tests can not be made in salt water and there are no fresh water lakes in Great Britain large enough for such a high speed. Accordingly arrangements have been made for the Estelle IV to be shipped to Montreal on a Cunarder early next month and on arrival here it will be transhipped by rail to Gravenhurst, Ont., where it will be put through its trials over Muskoka Lakes before entering the international race at Detroit on Labor Day. At the same time Miss Carstairs will arrive in New York on the Cunarder Berengaria and proceed to Gravenhurst.

While at Gravenhurst, said Mr. Ditchburn, the British representative will be able to take advantage of the extensive body of water there and will also have the co-operation of the Ditchburn Yards at Gravenhurst. A special crew of experts will accompany Estelle IV all the way from England and will take care of the craft until its return to England after the races.

Prior to leaving England for the United States Miss Carstairs will enter for the outboard motor boat races in the English Channel.

Empire or League?

National Review (London): If a title of the attention that has been lavished on the Geneva League of Nations had been devoted to the consolidation and development of the British League of Nations, not only would the Mother Country and Dominions be appreciably more prosperous, but the peace of the world would be far more assured. This Swiss obsession has had a pernicious effect both upon British and Overseas statesmanship by suggesting that so long as the British Empire cuts a dash at Geneva and stands well with Scandinavian Socialists and Norwegian explorers, every inter-imperial tie can be allowed to go by the board; and as a consequence the centrifugal or separatist forces overtaking the centrifugal unifying forces, and diplomatic disunity deliberately stereotyped under the auspices of an Imperial Conference, to the grief of every unfriendly foreign power who regards the gradual break-up of the King's dominions as the solution of their problem in world policy.

The Immigrant

Windsor Border Cities Star (Ind.): Those who have traveled in foreign countries have some idea of how difficult task of the newcomer to Canada must be. Getting off the beaten paths, the traveler sometimes encounters hazards that call for his skill and ingenuity to overcome. And he has usually the advantage of having sufficient money to pay for all the ordinary wants of life and lodging. He can place himself in the position of the stranger in Canada, with only enough money to last for a few days, knowing no one, unacquainted with our customs, and up against the problem of getting a job or starving. . . . Yet these people are coming to Canada to make a living. They are here with the intention of being good Canadians.

Fate

You shuffled and stacked the cards, O Fate! I cut with my courage high; Your smile was as cruel as death, O Fate! But my heart it did not die. You won the game—it was fairly played. I had no chance from the start; You held the stakes—both Love and Fame. I played with a single heart. Played and lost—lost everything—But a sense of void and pain. O Fate, when you shuffle the cards Deal me my life again. Apply the Golden Rule regardless of consequences.

Dreaded anaemia can be banished!

IN middle life, when vitality is not as great as it once was, and the blood stream is naturally thinned and de-vitalized, anaemia easily lays hold on the system. At first, just a tired feeling, it quickly results in bodily weakness that ordinary tonics cannot avail.

Dr. Williams' Pink Pills then become a wonderful aid. They supply the necessary oxygen to the blood, increase the blood count and renew wearing vigor. "I was seized with anaemia," writes Mrs. Charles Lambert of Port Hope, Ont., "and was in a very bad way. As a girl I had taken Dr. Williams' Pink Pills for a run-down condition and decided to take them once more. Again the result was marvellous. In a little while I was fully well again." You cannot begin too early to check anaemia. Dr. Williams' Pink Pills are sold at your druggist's or by mail, postpaid, 50 cents, from The Dr. Williams' Medicine Co., Brockville, Ont.

Another giant stride has been taken in the Canadian National Exhibition's program for Aviation, Transportation and Commercial Travellers' Day, Thursday, September 5th.

The station-master rushed out of his room after hearing a crash on the platform. He discerned a dejected young man sprawled out perfectly flat among a confusion of overturned milk cans and the scattered contents of his travelling bag. "Was he trying to catch the train?" the station-master asked a small boy who stood by admiring the scene. "He did catch it," said the boy, "but it got away again."

Major Wilson, Controller of Civic Aviation, will send an inspector from his department to be attached to the Canadian National Exhibition for the two weeks period of operation from August 23rd to September 7th. Rapid progress is being made in the negotiations for an airplane Derby from Cleveland to Toronto, sponsored jointly by the Canadian National Exhibition and other local organizations and the United States national air race committee. Cleveland will be the rendezvous for hundreds of planes during the Exhibition. If present negotiations are brought to a successful issue the greatest international congress of the air ever seen in America will be one of the attractions at the Exhibition.

Truth

For my own part, I am fully persuaded that the most powerful god-dess, and one that rules mankind with the most authoritative sway, is Truth. For though she is resisted by all, and oftentimes has drawn up against her the plausible forces of falsehood in the subtlest forms, she triumphs over all opposition.—Polybius.

"Greenwich time," famed throughout the world, is determined by the movement of a certain star which arrives due south once every twenty-four hours.

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess of food. Correct it with an agent. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

"Ah, weel, maybe ye're right," agreed Angus placidly. "But it'll no be for want of ministers, ye ken!"

IS THERE A BABY IN YOUR HOME?

Is there a baby or young children in your home? If there is you should not be without a box of Baby's Own Tablets. Children ailments come quickly and means should always be at hand to promptly fight them. Baby's Own Tablets are the ideal home sweeter the stomach; break up colds and simple fevers—in fact they relieve all the minor ills of little ones. Concerning them Mrs. Moses Cabotte, Makamik, Que., writes: "Baby's Own Tablets are the best remedy in the world for little ones. My baby suffered terribly from indigestion and vomiting, but the Tablets soon set her right and now she is in perfect health." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Moscow Cancels Chinese Immunity

Soviets Take Action Following Raids on Harbin Consulate

Moscow.—The Moscow Embassy of the Chinese Nationalist Government and Nationalist Consulates throughout the Soviet Union were deprived of normal extra-territorial immunities by the Soviet Government. The action was the result of a series of alleged provocations which were eliminated by the raid of the Soviet Consulate at Harbin this week and the arrest of more than forty persons, including two Soviet consular general. At the same time, the Soviet Government warned Nanking to avoid "further tests of the Soviet Government's patience by provocative acts and violations of agreements." A note couched in indignant terms was handed the Chinese Charge d'Affaires here last night by L. M. Karakhan, assistant-foreign commissar.

The Way It Works

Detroit Free Press: Thugs who entered a drinking place in Hamtramck recently commenced their operations by shooting the proprietor without warning. From their callous standpoint there was no reason why they should not do that. They place no value on lives except their own lives, and the law in this State is no more severe on robbers who kill than it is on robbers who abstain from killing. The Legislature did its best, but the open season for murder continues.

When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the crueler pangs of colic, or constipation, or diarrhea; effective, too, for older children. Twenty-five million bottles were bought last year.

Victims of the Market

New York World: It is the small and inexperienced traders who are the last to go in and the first to get hurt, and who usually get hurt the hardest. They are victims of what is sometimes called the "psychological lag." Their bullish enthusiasm comes too late and is poorly directed. Instead of cautiously investing they are prone to buy volatile stock on margin and thus play into the hands of those who know the market better and who can afford to indulge the luxury of a chance. The experience may be worth something to them, but it comes too high.
