## Woman of 102 Wishes for Youth

Her Wish is For Youth Renewed and Capacity for Work and Play-Guards Secret of Longevity

London-Who wants to live to be 102 years of age? Is it worth it? Mrs. Mary Ann Priest is the oldest woman in England, and when visited on her 102nd birthday in the Kensington institution where she has lived for twenty-five years had no doubts on the matter.

She declared emphatically that it is not worth it, and this is why, in her own words:

No one lives who remembers the days when I was a girl.

I live in another age-almost another world.

The world goes on without me, Mrs. Priest is a wonderful old woman but she is a lover of youth, not age, and her years weigh on her more than most centenarians will admit. "How have I managed to live to 102? Why, I would not tell you if

I could," she said.

Everybody's Pet Mrs. Priest lives in a most comfortable ward, and is the most petted old lady in the world. By her bed stood a cake with pink and white icing, and covered with 102 candles.

"Yes, I could have no kinder friends than I have here," she went on.

"The nurses are kind-but nothing can make up to one for youth, work, and play. Even the worries of youth are worth while. I have no worries

"There are few cares that last till one is 102.

"You must remember that sixty and seventy even seem young to me. My children would be older than that if they lived still.

"I have memories. I remember my courting days, when I was married, and all the hard work that was threeparts of my life.

"No, I should not ask how to live to 102 if I were you. If you live to that age you will stay in your bet while the world goes on without you -only you will know that it goes on. One Wish

"I have the pleasantest life it is possible to live at my age. I am surrounded by kindness-and as you grow old you appreciate that more

and more. "But-k is worth it?"

I -and did-was to scare us stiff and dition of life, then, indeed, loneliness in war time with a warning signal for another day. . . That is all."

## Seven Years After

Japan in 7 Years Builds New Tokyo at Expenditure of 700,000,000 Yen

Tokyo-Reconstruction of the capital following the earthquake of September, 1923, is now practically complete after more than six years of energetic labor and an expenditure of 700,000,000 yen (a yen equals about 50 cents), and a fitting observance of the gigantic achievement will be held in the presence of the Emperor on

March 26. The restoration of Tokyo is a monu ment of Japanese determination and competency. The task faced seven years ago was that of rebuilding the greater part of one of the largest cities of the world, of rehabilitating shattered and disrupted public services of all kinds, of re-establishing disorganized industry. Thus the Tokyo of to-day is a new Tokyo both physically and

in the spirit of its people. The ceremony will be onducted by the national Government in co-operation with the Tokyo prefectural and municipal boards, and prominent persons among the officials and private citizens will be the guests of the reconstruction bureau. It is expected that these will gather from all over the country to the number of some 10,000 More than 30,000 medals will also be distributed in commemoration of the completion of the gigantic task, one of the greatest of the kind in his-

ated the removal or clearing away of the debris of some 200,000 buildings of every description. So many obstacles, both economic and physical, were encountered and overcome that the restoration of Tokyo becomes unquestionably one of the great achievements of modern times, and a testimonial to Japanese energy and capa-

N middle life, when vitality is not as great as it once was, and the blood stream is naturally thinned and devitalized, anaemia easily lays hold on the system. At first, just a tired feeling, it quickly results in bodily weakness that ordinary tonics

cannot avail. Dr. Williams' Pink Pills then become a wonderful aid. They supply the necessary oxygen to the blood, increase the blood count and renew waning vigor.

"I was seized with anaemia," writes Mrs. Charles Lambert of Port Hope, Ont., "and was in a very bad state. As a girl I had taken Dr. Williams' Pink Pills for a run-down condition and decided to take them once more. Again the result was marvellous. In a little while I was fully well again."

You cannot begin too early to check anaemia, Dr. Williams' Pink Pills are sold at your druggist's or by mail, postpaid, 50 cents, from The Dr. Williams Medicine Co., Brockville, Ont.

## Unseen Guard Has Possibilities

Crisp New Banknote Can be Switzer, Granton, Ont. Had for the Taking if One Can Remove it Without -FARM HELP Ringing Bell - Invisible Ray Stands Watch and Never Sleeps at Post

New York-A \$50 bill guarded by an invisible day was offered recently to any person who can pick up the money without making the ray sound an alarm.

The ray was set up at a meeting of the New York Illuminating Engineering Society in the Westinghouse Lighting Institute by James L. Mc-Coy, research engineer of the Westinghouse Lamp Company. It was announced that the money would re main indefinitely behind the ray awaiting all comers, or until someone solves the riddle.

The bill was put in a five-foot safe with the door closed, but unlocked. Somewhere athwart the safe, probray was placed. It is harmless. It cannot be felt by human touch. It is invisible either in darkness or light. It "shines," so to speak, upon a photoelectric eye some distance away. Anyone attempting to pick up the bill interrupts the ray, thereby costing an unseen "shadow" upon the mechanica, eye. Thereupon the eye loudly goes
