stand that there have been delegations from Mt Forest Dundalk and Durham visiting the Min. of Highways re the county road in Egremont. Surely this road is partly for the benefit of the people in Egremont and not altogether for others touring through our township. While we welcome the tourists we understand there is not as much as a gas tank on proposed routes. Do the members of these delegations not consider the people of Egremont capable of managing cur own affairs. Why not transfer their valuable knowledge to the Township west of us whose county read goes zig zag across it, for the acommodation and benefit of the majority of the township?
