ANALYSIS

1-10.

II. THE GREAT COMMISSION, 16-20.

surrection of Christ that the church made a forced landing in a forest near rests. It was the belief in this fact Bornaldo, New South Wales, it seemthat aroused the disciples from their doubt, and started a new joy in their hearts. It was as witnesses of the re- have to be dismantled before it could surrection that they went forth as the be removed. Captain Smith bit upon first missionaries. It still is the foun- another idea. He tied the plane's tail dation of the Christian hope. If Christ to a tree and set the engines going full

There are narratives of the resur- the ground and strained at its leash, these have certain discrepancies which cannot easily be reconciled; but the general impression is the same in all I. THE APPEARANCE TO THE WOMEN 1-10.

V. 1. In this double reference to

the time, the end of the Sabbath would include any time after sunset on Sabbath, while the same statement places the event very near to the breaking of the morning light of our Sunday. V. 2. Four Marys are mentioned in BY ANNABELLE WORTHINGTON been taken in this river. the Gospels as connected with the closing ministry of Jesus, (1) Mary the mother of Jesus, (2) Mary Magdalene, whom Jesus had cast seven devils, and who was well known to the church, (3) Mary the mother of James and Joses, (4) Mary the mother of James and John. It is said that they came to see the sepulchre, but we learn from the other Gospels that they also, brought spices for the anointing of

the body. V. 2. Matthew alone mentions the earthquake, and this explains the fact given in Mark and Luke that the stone

had been rolled away. V. 5. The angels urge the women to abandon all fear. They do not need have the alarm which the watchmen have evidently shown.

V. 6. Their fear is needless because their Saviour has risen in accordance with his prediction. Besides, the angel bids them look at the tomb, the meaning of which is more clear when we read John 20: 5-7, where the position of the clothes is given.

V. 9. There are five accounts of the appearances of the risen Christ. The four Gospels contain one each, while Paul gives us his list in 1 Cor., chap. 15. It seems evident that the first appearance was made to Mary Magdalene. Altogether there are eleven distinct instances on which Jesus manifests himself to his disciples. In Matthew and Mark the chief interest is in the appearance made in Galilee, where the apostles had gone after the crucifixion. In v. 7, they are bidden to meet him in Galilee. Luke and John are more concerned with the appearances in or near to Jerusalem, though in the last chapter of John we have the beautiful story of Christ revealing himself by the shore of

Galilee. In general these narratives point out several facts, (1) There is no doubt t' at it is the same Jesus whom they had known before. (2) Yet there are very great changes, for he is no longer subject to the laws of natural form. He passes through closed doors. (3) He appears only to believers. II. THE GREAT COMMISSION, 16-20.

Too long have we roamed neglected. Too long have we sickened with The mercy you hope and pray for,

You can grant us now and here. -Ethelred Breeze Barry. ----

Soviet Russia Cows Wear Spectacles

Soviet Russia has originated many novel social and economic experiments, but perhaps it has never before tried to do anything quite so unusual as to make cows wear spectacles. The purpose of this experiment has no connection with the ancient joke about the cattle raiser who put green spectacles on his cows so that away on a vacation corresponding they would eat sawdust and believe with his wife." it to be grass. The new invention has a serious purpose-to defend the eyesight of the cows against storms.

Ground Work Essential

Miss Amy Johnson flew alone from saying: "The guest of honor will now | England to Australia in nineteen days, give us his address." Lackaye arose and in a Moth airplane with a secondits and said: "My address is the Lambs' hand engine. But it does not follow that any pretty miss who happens to take a notion can fly to the ends of the earth at will. Miss Johnson took a job as mechanic's assistant, and made up her mind to master the entire craft of flying. And before she attempted her great adventure in the clouds she qualified for an Air Ministry's license as a ground engineer,

Organize!

The spectacle of a bread-line at The Pas in Northern Manitoba has served to call attention to a problem that is becoming acute in Canada. In the newest section of a new country if reports be true men have been obliged to line up in a parade and ask for food. With the tremendous possibilities of development in this country there should be few idle men between early spring and late fall. The trous ble seems due to lack of any serious organized effort to arrange a fair distribution of work.

A proposed new use for rubben, now much over-produced for the world's markets, and a new article of clothing, have been created in France in the form of a rubber necktie. 014300
