WAITING FOR 8.30

Mother and Anne had always been very close to one another. When Anne married and moved to another city, each missed the other greatly.

But one thing more than any other has helped to keep them close—the telephone. Every Friday evening Anne calls her mother by Long Distance—... after 8.30 p.m. when the low night rates are in effect. During the week they both keep memos of topics they wish to discuss. Then there is no time lost... and nothing forgotten.

What if they are 120 miles apart! The telephone connection is made in about a minute—nearly always while Anne holds the line. Their voices are just as clear as on local, and the cost, after 8.30 p.m., is only 40 cents.

Evening rates on "Anyone" (station-to-station) calls begin at 7 p.m. Night rates begin at 8.30 p.m.
