### EVERYBODY'S DOING IT

To read the daily and weekly press these days, you find statement after statement of reduction in salarles in parliamentary, mun'elpal and school circles. Economy is evidently to be the keyword in 1932, and it is even interfering with the sessional indemnity of our M. P's and M. P. P's. Unless we can call a moratorium or mounting expenses, every line of living will have to be drastically cut to break this crgy of high expenditure and mounting taxation.

The Town of Fergus has reduced their municipal councillors: Dumfries councillors are reducing their remuneration from \$3 to \$2 Salaries of township officials

An Advertisement addressed to the Readers of this Newspaper

Isn't it true that stores which invite your custom oftenest, and which give you the most information about their offerings are those to which you go by preference?

Isn't it true that silent or dumb stores- stores which never tell you that your custom is wanted and valued, and which never send you information about their stocks and prices, are less favored by you than are stores which inform you, by advertisements in this newspaper, about themselves, their stocks, their prices?

Isn't it true that you want, before you go shopping, information about goods of desire, which are obtainable locally, and about where they can be obtained?

The fact is that advertisements are a form or kind of news, and careful buyers want the kind of news which sellers provide just as much as they want the news which it is the business of the newspaper to provide.

It is advantageous to you, regarded as a purchaser to be "advertisement consciens," meaning to be observant of advertisements and to be readers of them when seen in magazines, farm papers and in your local news-

The reading of the advertisements appearing in this newspaper week by week not only will save you time, by telling you what and where to buy: but also they will direct you to "all alive" stores, providing goods which have been carefully selected and competitively priced.
