

WINS CHAMPIONSHIP WITH DURHAM WHEAT

For the third time the crown of "wheat king" has come to Hermon, Trelle of Wembley, Alberta. At the Chicago International Show recently he captured the title for the prize-winning sample of Durham wheat. The event marked the first time that Durham wheat has gained championship honors. In addition to the championship in wheat, he took five first class awards for exhibits of other grains.

Mr Trelle will be an exhibitor in the competitive classes of the World's Grain Exhibition and Conference to be held in Regina in 1933. He has already prepared samples and has indicated his intention to prepare others from this year's crop.

Mr Trelle's interest is not confined only to preparing exhibits of his own grain. For the last year or so he has taken an active part in encouraging farmers of the Peace River District to participate in the 1932 competitions and he will be remembered as the author of a very fine series of articles on the growing and preparation of exhibition samples, published in a large number of newspapers and magazines throughout Canada.

GOVERNMENT SALE OF LIQUOR INCREASED CRIME

Official statistics prove that the free sale of liquor under Ontario's government control regulations has produced a large increase in drunkenness among the people of this province since the new law that in 1926 replaced the prohibition act that was put in force during the Great War. Figures show an increase from 2,400,000 to 1,523,000 in the number of gallons of absolute alcohol consumed. The following table of latest statistics available from official sources gives the increase in convictions under different heads, also fatal highway accidents:

ions of dollars collected in revenue, and it is for the people to judge whether there is sufficient compensation for the degrading effect produced by the drinking of larger quantities of all kinds of booze that prevails at the present time. Government sales in this country have done a truly flourishing business, that has been slowed down very little by the depression that affects every other trade and business.

A CHINAMAN TELLS ABOUT THE WAR

The North Baitford News, Cameron, Ontario, at P. Editor, a Dorchester boy, gives space this week to an address by Mr Kwan, a native of China, who has acquired a speaking knowledge of English. He is owner of a cafe and a graduate of McGill College, Montreal.

After dealing with China for a few decades back, in which the influence of Russia is discernible, he said: "The revolution of 1911 put an end to the Manchu dynasty, but some of the corrupt officials of the old regime had wormed their way into the new government. As a consequence the country was torn by internal strife. In 1915, Japan at the point of the bayonet, presented to the group then in control at Peking, the Twenty-one demands, which, had they been accepted in their original form would have turned China into a Japanese colony. Public opinion had found expression in a boycott of Japanese goods. This forced Japan to alter its terms but she had extended her rights in Manchuria."

"Meanwhile the influence of the Kuo Min Tang, the Chinese Nationalist league, had greatly increased, until in 1923, all of China, including Manchuria, was brought under one central government at Nanking. The aims of the Kuo Min Tang are based on San Min Principles or Three Republics Principles, formulated by Sun Yat-sen after having closely studied the political and economic ills of the Western nations. These principles are:

1. Nationalism, which aims to make China a free and equal member in the society of nations and to accord all races under the Chinese flag equal rights of government.
2. Min Chien or People's Rights, the right of suffrage, the right of initiation, the right of referendum and the right of dismissal.
3. Min Sang or People's Living, which aims at the control of land ownership and capital so that all people who are willing to apply themselves may have an equal share of this world's goods.

You can readily see that the successful prosecution of these principles means an end of Japanese Imper-

Eliminated Warton Team after 20 min. Overtime

After two hard-fought contests with the Warton Redmen, when each team won by a 2-1 score, Durham finally won the G.H. game in Owen Sound ice last Friday night, and again by the same score, 2-1. At full time it was a one-all tie, but Durham's better condition in the 20 min. overtime, when they had the better of the play, was the deciding factor.

A packed house sat in the Riverside Rink to view the game—the largest crowd of the season in Owen Sound and gate receipts approximated \$400. A couple hundred fans from Warton were on deck, while Durham also had a goodly representation. Owen Sound spectators were almost entirely behind Warton in their vocal support, but that didn't hinder the Durham redhairs coping the honors. Durham's greatest stumbling block on the road to victory was the Warton team, especially their goalie, Williams, who held Durham scoreless till more than half way through the final period. As in Durham, Warton corralled the first goal. After a scoreless first period, Ashley coasted down from the Warton nets near the end of 2nd frame, swung over to left wing and unloosed a sizzling drive as the defence blocked him. It glided off McDonald's stick into the nets. Durham followed with a more determined attack, but couldn't get them on the nets, or beat Williams when they did.

The final period was 11 1/2 min. gone when Durham scored the equalizer. Elvidge sped down centre and passed to McIlraith on wing, who shot a nice one for the corner of net. It fooled Williams who was covering the other side of net and he couldn't cover in time to block it. It struck his pads and bounced in. Only 3 min. after the same play was duplicated, and Durham should have been awarded the game in regulation time. Elvidge tripped the puck towards nets and was tripped, at the same time passing it to McIlraith, who scored before Teasdale rang bell a moment before, however, to penalize Totten for the trip, when he should have waited till the play was completed. It cost Durham a nice goal.

This tripping or boarding Elvidge was a mania with Warton who doubtless prevented some sure Durham goals by such tactics and they paid about a dozen penalties therefor. They evidently remembered that Elvidge had scored both goals against them here, but discovered there are other marksmen on the Durham line-up. Durham's condition in overtime gave them a margin on the play, but they failed to score in first 10 min. of overtime. The break came when 7 min. of second overtime had passed. Totten was serving a penalty and McIlraith at side of nets made a perfect pass to C. McGill, unguarded in front, who made no mistake in ramming home the winning goal. Two Durham penalties came shortly after but the timekeepers' bell removed Warton's threat.

HAMPDEN

Died, in Detroit on Feb. 18, Mr. Wesley A. Boddy, elder son of Mr. and Mrs John Boddy, Dunkeld, Bruce County. This but a few short months ago that deceased was united in marriage to Miss Nettie Byers, second daughter of Mr and Mrs M. W. Byers of Hampden and though almost a stranger here, he made many friends, being of a pleasant personality.

A week ago he had his tonsils and adenoids removed and was getting along favorably when some severe hemorrhages took place and in spite of skillful aid, his young life was cut off. Death was in the cup. His father and sister arrived one half hour too late. The remains were brought to his father's home by his chum, Mr. Wilfrid Brown and arrived Saturday. The funeral on Monday at 2 p.m. was largely attended, many from this locality motoring over to pay their last respects to the husband of one of the most popular young ladies of the vicinity. Much sympathy goes out to her in her sad bereavement, and to the sorrowing parents, also a brother at the old home and a sister, Mrs Stanley Purdy of Glamsis. An aged grandmother also survives.

JOHN KNOX TRAIL RANGERS

The meeting closed by repeating the Mizpah.

Here and There

Figures of United States motor cars entering New Brunswick in 1931, issued by the provincial bureau of information and tourist travel, show an 8 per cent gain over 1930. The new record for 1931 is 58,583 as compared with the former record of 54,068 for 1930.

Approximately \$11,000,000 was saved in Canada last year in the cost of construction of buildings and other buildings in 61 cities owing to reduced cost of building materials. Aggregate value in these cities of building permits was \$110,971,410.

The aid of Hon. G. Howard Ferguson, Canadian High Commissioner in London and of Lord Beaverbrook will be sought by the Maritime Provinces representatives who left aboard S.S. Montcalm from Halifax recently, in an effort to secure the lifting of the British Government's embargo on Canadian potatoes.

A railroad career that has seen many changes and covered much widely separated territory witnessed another movement when Robert E. Larmour, general freight agent, Canadian Pacific Railway, was transferred recently from Montreal to Toronto. Mr. Larmour, aside from his railway duties, is well known as one of Canada's outstanding yachtsmen.

Carnival Queen nominations from Edmonton, Drumheller and Vancouver testify to the great popularity of the Banff annual winter carnival to be held February 6 to 13. The Alberta branch of the A.A.U. of Canada has agreed to hold figure skating championships at the carnival and may hold their skiing championships there as well. Every kind of winter sport will be represented.

Entries are coming in rapidly for the great winter event of the 1932 sporting season, the 11th annual Eastern International Dog Sled Derby to be run over a course of 123 miles, spread over the three days February 22-24 and concluding with the Dog Derby Costume Ball at the St. Godard, Seppala and other names outstanding in Dog Sled racing are already entered.

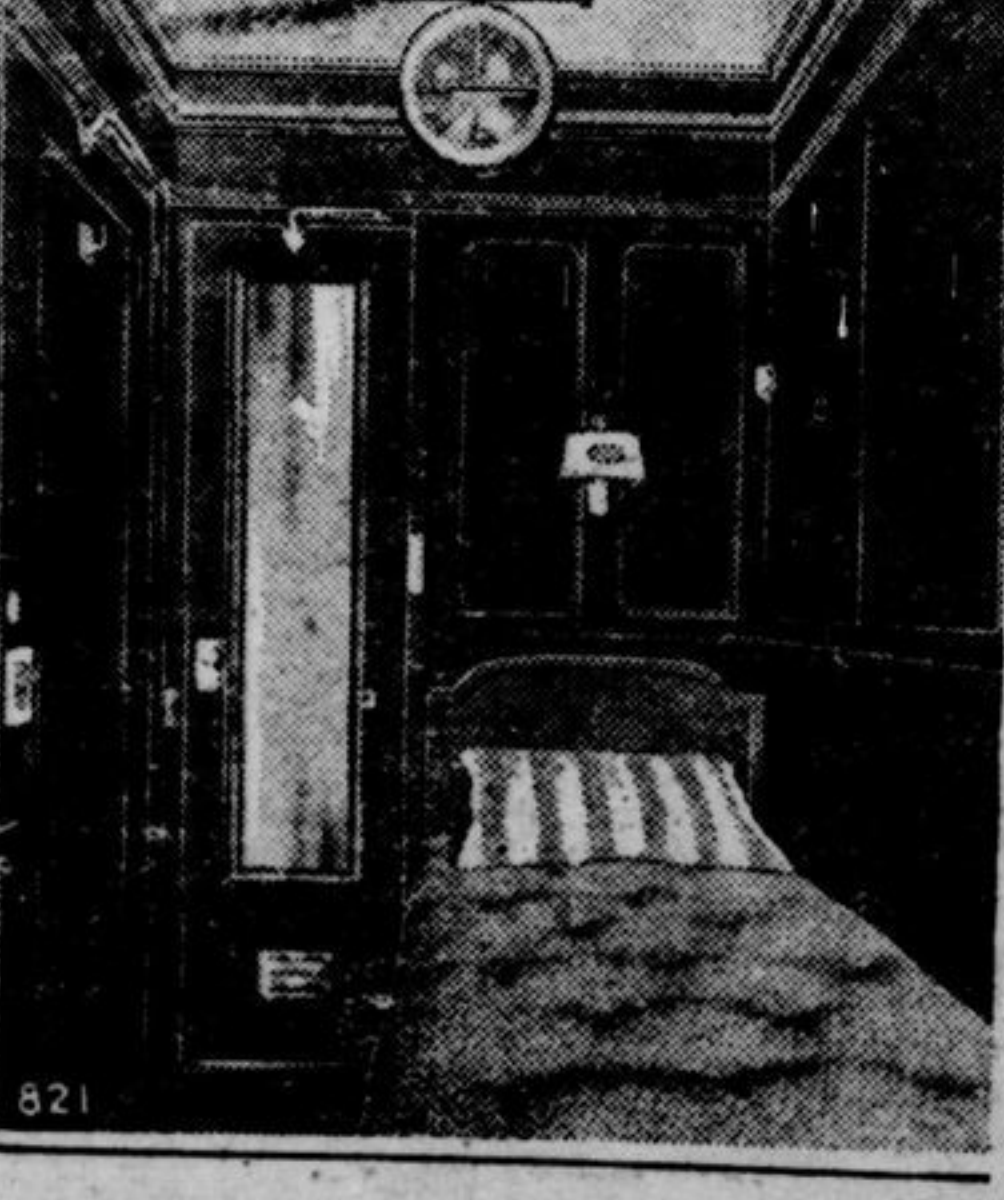

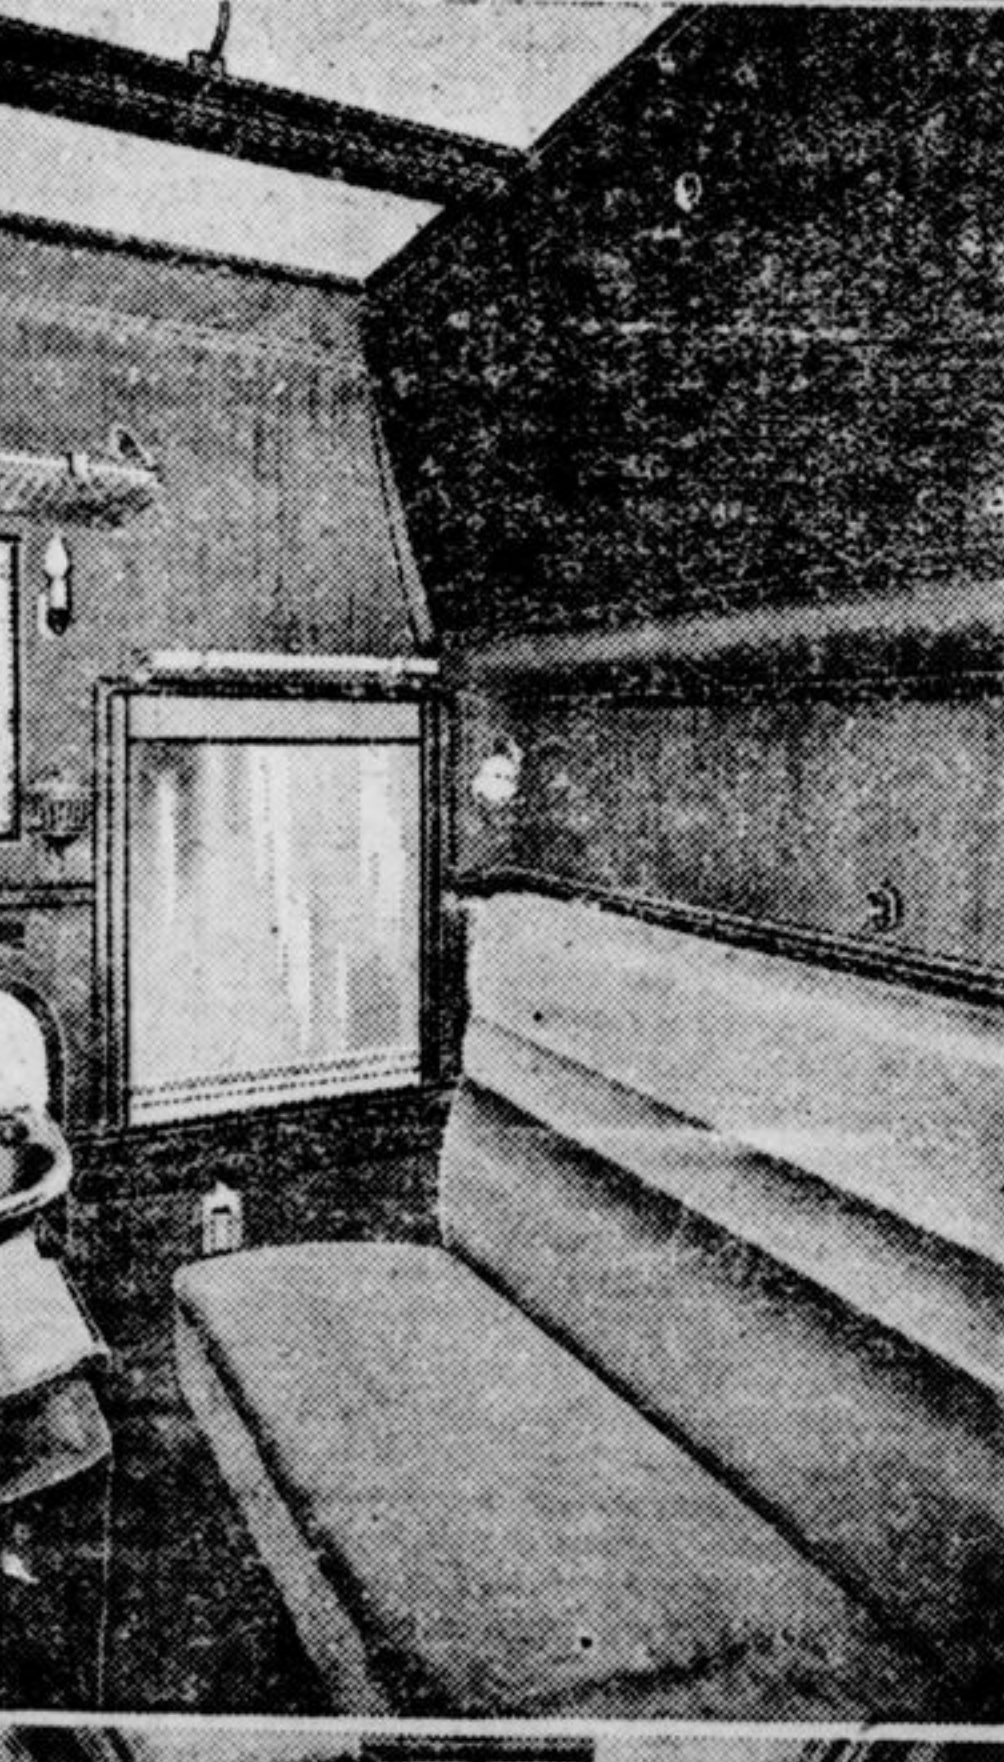

The largest shipment of Government-approved cockerels for any one breeder or hatcheryman in Canada arrived recently by Canadian Pacific special at Perseus, Ont., from Winnipeg to the order of J. G. Tweedie, of the former city. The birds were selected by government inspectors from the choicest flocks from British Columbia to Nova Scotia. During the last four years Mr. Tweedie has shipped an average of 200,000 chickens to various points between the Atlantic and Pacific.

Competition between truck and railroad service is shown in a new angle by a letter recently to a Reading paper, "Labor." A cattle raiser of Nebraska, Nebraska, tried out both methods, shipping cattle by truck and by rail. On the railroad there was a shrinkage of 21 pounds for each animal; by truck there was a shrinkage of 38 pounds each. What the raiser saved on freight he lost on the truck. The value of the shrinkage amounted to \$13.14 on each animal.

Overnight Bedroom Sleeping Cars Popular

Please reserve bedroom on Canadian Pacific 11:59 p.m. train for Toronto, as a common nowadays into the railway cars by the travelling public. A company reports a very heavy demand of late for this kind of accommodation and this necessitated operation of bedroom sleeping cars on the runs between Montreal and Quebec, Montreal and Toronto, Ottawa and Toronto, Toronto and Detroit, and Montreal and Detroit. Privacy, comfort and the last word in convenience and luxury are keynote of this latest development in overnight travel by Canadian Pacific as expressed in the single and double bedroom compartment cars, which represent the equivalent of the best of hotel accommodation. They provide all the luxurious appointments of individual private rooms with a real bed that ensures deep and refreshing sleep. Each room has toilet, lavatory, electric fan, overhead ventilator with exhaust fan, reading lamp and other conveniences, the whole being decorated in restful colors. In the double bedroom cars an overhead bed may be opened from the wall, if desired, affording additional facilities. Some further features of the sleeping cars may be enumerated, which make the hours of sleep so refreshingly delightful. Temperatures are controlled thermostatically throughout the train; roller bearings assure smoothness of motion; coil spring mattresses invite restful slumber; heavily padded carpeting harmonizes with interior arrangements, creating a general soothing effect. Berths are wide and long and unusually roomy. The service is presided to travellers as a masterpiece of transportation luxury and comfort. It is the realization of all those refinements of art and efficiency of which travel equipment designers long have dreamed. From the inception of this new service it has won increasing favor among travellers who distinguish between good average service and perfection in travel. The word "moderne" has its fullest and most inclusive expression in these cars.

Layout shows (lower picture) single bedroom car and (above) double bedroom car.

In the women's dressing rooms attached to the sleeping cars there is real comfort and satisfaction. The most fastidious woman will find facilities such as she would expect to see in a first-class hotel. Mirrored dressing table and other toilet accessories provide maximum accommodation without overcrowding. Here are vanity chairs conveniently placed, ample artificial and natural lights in softly colored shades, spotlessly white lavatories with hot and cold running water, specially dispensed soap and a never-ending supply of clean linen. This affords the requisite pendant to refreshing sleep-jerky toilets.

The men are treated in like fashion. They too have commodious dressing rooms where they can relax not only for the purpose of making their toilets but also for an enjoyable smoke before retiring or after they have slept. Their room is perfectly lighted, well ventilated amply supplied with lavatories of newest design and in decorations harmonize with the general finish and furnishings.
