NOT AMONG THE HIGHLIGHTS

Marathon contest winner goes to Argentina; young man Canada was not among the highlights of the recent world Olympic Marathon contests at Los Angeles over last week end.

Is Canada losing her hold on her national game, lacrosse? Is she willing to let U. States, her nearest neighbor and to whom she showed the fine points of the game, oust from her the Olympic honors as she did in Los Angeles last week?

As a matter of fact the United States was the better team of the day's play and fully deserved to win. "They simply ran the Canucks ragged," says Lou Marsh of the Toronto Daily Star, and an eye witness.

Seventy five thousand people saw the lacrosse demonstration—and seventy thousand saw it for the first time. When they came in, says Lou Marsh, they had no more idea of lacrosse than they had about Siamese takraw.

OPENING OF THE NEW WELLAND CANAL

Last Saturday afternoon this new link of the St Lawrence waterway was opened with great colorful ceremony and with the presence of dignified statesmen, including the Governor General, who officiated.

From the Globe's excellent write-up of this historic day, we quote a few paragraphs:

"With one quick flick of his grey-haired hand the Governor General formally set whirring the drive wheels behind this mighty avenue of trade transportation, and in so doing, wrote a final and a fitting chapter to an achievement that has been for 19 years in the building, has cost \$135,000,000 and has—with the true characteristics of any steadfast march to progress or for progress, be it in war or be it in peace,—taken the staggering total of 115 builders' lives.

In the colorful ceremony with Fred Heit's Sunday evening.

which officialdom invested the canal opening on a blazing hot midsummer day, there was triumph—unmistakably triumph—and as the Lemoyne flagship of the Canada Steamship Lines—decks and rigging as clean as a bound's tooth, paint brighter than the infectiousness of her skipper's smile, proud of her reputation of the world's greatest grain-carrier—noled down from Lock No. 7, along the green-gray, string-straight stretch of water beneath rows of acclaiming public and breeze-tossed pennons, while copper-throated radio amplifiers flung the stirring strains of "O Canada" to the cobalt blue of the skies, there was no denying the conviction she drove home to all minds—the consciousness that "our fair Dominion" has "grown up tolerably" since the days when romantic adventurers of the La Salle and Marquette school of thought, braving danger and hardships, took the long torturing portage haul between Queenston and Chippawa Creek in order that the then insurmountable barrier between Erie and Ontario—the Niagara Falls—might be passed.

Premier Bennett Speaks "My purpose is not to make a speech," remarked Premier Bennett. "I can only say that in this canal we see something more than a connection between two lakes. We see the courage and ingenuity of the Canadian people and it is an evidence of what that spirit will contribute to the world. Locking out over this vast work recalls to mind that men have always been in conflict with forces of nature and men have conquered in many ways. The portage between two great waters was the method of transportation of our forefathers in exploring and in missionary work. Now we have a connection between the two great lakes, but we also have a link connecting the head of the lakes with the ocean. It would not be merely enough to connect two lakes. It must be more. While this is a Canadian canal built by Canadian labor, it is open to ships of the world. This is a contribution we have made to the world. It is a contribution to all who go down to the sea in ships to trade."

posals for the day. Maxé tuit use of him. Alex can give you all the service and information you require, etc. The Government is taking this method of entertaining tourists who may come to the city during Conference period.

With such a start and with such a guide, the party wasted no time. Alex proved as entertaining as he was informative. This holiday week end in question, many of the Imperial Conference delegates were at Welland, viewing the canal project, and the House being empty, it was the privilege of our tourist friends to see the building from top to bottom, including the Senate chamber and the wonderful Parliamentary library. Agnes Macphail's seat was visited and the party all realized the picnic that members have to put up with in being in Ottawa is not a picnic at all.

But Ottawa is beautiful apart from being the parliamentary seat. The Parks Commission take special pride in keeping the city spotless and to make the best impression possible on Conference visitors, the citizens had access to all the water they could use for lawns and gardens. This ran into considerable money and expense, but the Government felt the impression left would justify the expense entailed.

Another feature of Ottawa's cordiality to tourists was the system the city has in showing forth her aspects. "Alex" was only guide and as the visitors enter a building, they are introduced as tourists and taken in complete charge until ready once more to enter their car. They were taken over to Hull and from there to a Scotch settlement of some 2500 souls, comprising Highland and Lowland Scotch and Aberdonians! And in old Quebec!

All this time our party were doing the real tourist stunt, with only a nourishing drink (we don't know what it was) to stimulate. In fact, to get over the prescribed ground in the prescribed time laid out by Alex, there was no time to do such an ordinary thing as eat. They could do that at home.

So at 4 p. m., they drew up at Chateau Laurier, Ottawa's palace hotel, and after seeing every thing in it from top to bottom, with the exception of Premier Bennett's private suite, the cuisine of the hotel was tested. The party feel however that the Royal York of Toronto, can go the Chateau one better.

A call was made on a lawyer nephew of Mrs Kitchens and though Liberal in politics, he was exceedingly gracious in kind words for Mr Bennett and the man he is. Premier Bennett, he felt, was doing a Herculean task in leading Canada over the present depression period and ex-Premier W. L. MacKenzie King could count it a lucky day for himself and party, when they went down to defeat, in the face of conditions which followed.

Within the course of two months, Mesford will be able to boast of another industry. It will be the fruit packing and storehouse, which when completed, will cost approximately \$10,000. The owners and operators will be the Mesford Co-operative Fruit Growers Ltd.

We much regret your departure from church and community, for you have been faithful assets to both. You have been willing workers at all times to aid in the activities of church and community life. We all join in wishing you God speed, and may you find much happiness in your new church and community. May you find work for your hands to do, for you are capable of rendering valuable service for both. We ask you now to accept these small gifts, as a token of remembrance and appreciation of service. May God be with you all and guide and direct you in all your undertakings.
