In test to determine the most immovable thing in the world, a postage age stamp wich has been put on by mistake runs second to a woman asking directions of a traffic policeman,

The Electric Eye And Reckless Drivers

The grim hand of the law is slowly stretching out to reach those foolish people who persist in ignoring the traffic laws when driving automobiles. The latest plan to compel them to obey is an electric eye, which operates just as effectively as if two policemen were stationed along the road operating a speed trap. Photo-cells are concealed in the roadway at stated points, and when a car passes over them a bell is rung in a police telephone booth at a distant point. This bell shows how long the car took to limit the policeman on duty hands the heart must needs melt and he will love everything there, while their own runs driver a ticket as soon as the latter thee again.-Richter. reaches him, regardless of the speed

at which the car is then being driven. This contraption is now in operation on the old Boston post road leading out of New York, and is said to be producing "perfectly splendid results." If it operates so that no error is made in serving the right driver with the ticket, then it certainly is an invention of which excellent use could be made around Montreal, Toronto already has installed in certain sections the signal lights that stop the driver and then turn green to pass him on when he sounds his horn. That is another wrinkle which might be considered here. Nothing that tends to make the breaking of the speed laws more difficult for the speed fiend should be ignored. - The Montreal Daily Star.

Frequent headaches mean too much acid. Neutralize the acids with Phillips' Milk of Magnesia. It ends your headache because it removes the cause. Take a little whenever a coated tongue or sour stomach or sluggish bowels warn you of an acid condition. Take it when you've eaten too heartily, or after any meal that "disagrees." Be sure it is genuine Phillips' Milk of Magnesia, in this bottle.

ALSO IN TABLET FORM: Phillips' Milk of Magnesia Tablets are now on sale at drug stores everywhere. Each tiny tablet is the equivalent of a teaspoonful of genuine Phillips' Milk of Magnesia.
