New Troops

This week we have to record the where a person is honorable it usually formation of two new Regular Scout follows that they are courteous. ton. These Troops commenced opera- nothing to be polite and it is probably tions as Lone Scout Patrols, and for easier to be polite than it is to be some time have been doing very suc- boorish and rude. cessful work in that capacity. The But the result of being courteous is number of boys in those districts, how- very much more far reaching than if ever, who are interested in Scouting, one is the reverse. The average perhas grown so large, that steps were son has not much time to waste on taken to locate a local Scoutmaster people who cannot even be civil in and form Regular Troops.

them from the ranks of the Lone courteous at all times is held in the Scouts, we congratulate the members very highest estem by all who know of the new ng and 1st Cannington him. Troops on their inauguration, and wish Therefore a Scout is courteous, and Scouting.

A Good Turn in Ham and Eggs

Close to 900 d zen eggs were collected as their Special Easter Relief good turn by the Scouts of St. Johns Preparations for the Lone Scout Relief campaigns.

Boy Scout Apple Day

On April 1st the Boy Scouts of Toronto sold Ontario apples in the streets of that city for the purpose of raising funds to help the Scout Financial Campaign which was at that time in operation. The Scouts on that day sold some 200,000 apples and realized e sum of roughly \$5,400, which is

considered to be a highly creditable effort. We hear that Oshawa and Owen Sound are also intending to try vince will be interested to know that the experiment for their own funds, a series of radio talks, lasting 15 minand we wish the Scout Authorities in utes each, is now being given each those centres every success.

special date each year for the sale of over CFCA, CJGC, CKCO, CFCH, and Ontario apples by Scouts, on the CKPR. These talks are arranged by streets throughout the Province, to be the Vocational Dept. of the Western known as "Boy Scout Apple Day."

Toronto's Mayor on Scouting

"We would have fewer misfits in the world to-day if all boys had the advantage of Scout life," declared Mayor W. J. Stewart of Toronto recently. "The boy who has been a Scout becomes a man with definite developed capabilities, who does not walk the streets looking for pick and shovel or routine office work." The mayor's son Billy is a Scout.

Five Methods of Irrigation

Five methods are generally followed in applying irrigation water in farms and ranches of the West, according to a booklet recently issued by the Bureau of Reclamation. The scheme to be followed depends principally Fills rock-bound shores with thunupon the topography, the character of the surface soil and subsoil, the kind o thou, each beat of whose temof crop to be irrigated and the quantity of water to be used.

In the flooding method, field laterals are run out from the farm-head ditch at intervals of seventy-five to 100 feet, usually on a small grade. By means! of canvas dams placed at frequent intervals, the water is turned out of the laterals and spread over the field. The border method consists of the division of the field into narrow strips by means of low levees about six inches high and five or six feet wide, spaced from twenty to 100 feet apart. It is adapted to lands having a gentle slope.

The corrugation method consists of running small furrows, four to six inches deep and sixteen to fort; -eight inches apart, down the line of steepest slope, and turning into each furrow a small quantity of water and letting it thoroughly wet the soil. The furrow method comprises a number of small furrows starting at the head a tch and running down the slope for from 300 to 1,200 feet. Each furrow is a small irrigation ditch.

The basin and dike method is best adapted to very flat lands where it is possible to inclose a field with a low dike just high enough to retain the depth of water required.

Turkey To Charge 43 P.C. On Monthly Incomes Over \$300

Istanbul.-All persons in Turkey whose incomes exceed the equivalent of \$300 a month will have to pay 43 per cent, to the government under the 1932 budget. No exemptions will be made, and even the smallest earnings will have to pay about 30 per cent.

Although the budget will be balanced at 172,000,000 Turkish pounds (about \$36,000,000), which is 17,000,-000 less than last year, further drastic taxation has become necessary. Turkish wage-earners, therefore, will soon be the most heavily taxed in the world.

Spinning Wheel Beat Slump Aberdeen, Wash .- Mrs. J. E. Fisher solved the depression with an old-fashioned spinning wheel such as she used when a girl in North Carolina, Her husband, a carpenter, built it for her. She buys wool at about 25 cents a pound and spins it into yarn worth \$2.00 a pound.
