A Good Report

We all like to have a good report nade on our activities, whether of our

chool work or elsewhere. We would like, therefore, to pass on o the Lone Scouts of Ontario the report which was made by the Assistant Provincial Commissioner, F. C. Irwin, thrown on their own resources. M.A., to the annual meeting of the Provincial Council for Ontario, which was recently held at the Royal York Hotel at Toronto.

Mr. Irwin stated the "Lone Scouts don't get a fair chance to show their real growth because of the number of them (68 last year) who transfer to regular Troops, some of which are formed as a result of their activity.

In spite of this, however, they manage to do considerably better than to hold their own. Lone Scout Commissioner Furminger and his four "Lone Scoutmasters" are very proud of the accomplishments of their more than 300 Lonies who plug away without the incentive of Troop meetings and personal contact with other Scouts.

that of Scout Troops."

We think that this is a very good report indeed, and we must see to it

Blackbirds and Spring

Dinah Lou has always maintained that a blackbird brings the spring. This opinion she doubtless borrowed from Ben King, as I distinctly remember being bribed, with an extra wedge of molasses pie, to read his verse to her. When a stanza made some special appeal, she would have me read it again and again, repeating each line after me. Then she would boldly appropriate a tune from one of her "camp-meeting" hymns, and set the words to music. Morning after morning, she musically assert-
