NEW REGULATIONS FOR LOWER SCHOOL EXAMS.

(From the Canadian School Journal) Commencing with the examinations of 1933, the Lower School examinations will be conducted through the High School Entrance Boards.

The examinations shall be held at each High School and Collegiate Institute, and at such other High School Entrance centres as the County Council may direct.

Presiding Officers shall be appointed by the High School Entrance Boards and shall be entitled to the same rate of remuneration as the Presiding Officers appointed for the High School Entrance examinations.

The papers, instead of being sent to Toronto for reading, will be examined by the Permanent High School Certificates, or of Permanent First Class Certificates who have had at least two years' experience in High or Continuation School or Fifth Class work.

No teacher shall be appointed to value the answer papers in a subject which he is not actually engaged in teaching.

Examiners shall be paid at the rate of 25 cents per paper.

The County Council or High School Board shall impose a fee of \$1.00 for each paper written by a candidate, the maximum fee to be paid by a candidate to be \$5.00.

In case the cost of conducting the examination exceeds the revenue from fees, the excess will be paid by the Department of Education.

A certificate upon a form supplied by the Department of Education will be given by the High School Board to every candidate showing the standing obtained.

HONEST POLITICIANS BUT ERR IN DISCRETION

Hon. George S. Henry, Ontario's farmer-premier, has been under fire because he was an owner of bonds in the Ontario Power Service Corporation, recently acquired by the Ontario Hydro.

Mr Henry has suffered some loss from depreciation of his investment, even though the Hydro took over the property. But he is better off than he was before the Hydro deal was made.

The public is fortunate when it has political representatives whom it regards as strictly honest. Mr Henry is in this category. He made a genuine and serious error of diplomacy in failing to disclose his ownership of bonds earlier than he did, but he was apparently not out to help his pocket book. He could have made a small fortune out of his inside knowledge of the O. P. S. deal, had he been an unscrupulous type.

It is to the benefit of people to have honest and successful business men, such as Mr Henry, taking part in public life. It is unfortunate for the public when they place themselves in the position Mr Henry is in. He failed to observe the best British political traditions.

Mr Henry's indiscretion was just what a certain group of politicians in his party have been waiting for. They could not themselves have manufactured a better excuse for ousting the Ontario prime minister in order to put their own man in.

The whole affair is a sorry commentary upon a certain type of politics just as the original promotion of the enterprise was a sorry commentary upon a certain type of high finance.—Financial Post.

EXPENSIVE LEGISLATION

(Parkhill Gazette) It costs about \$25,000 a day to keep Parliament in session. This is a cent a day for every Canadian family.

When divided among the inhabitants of the whole country the amount is not large, but it is the multiplicity of calls for a cent a day that makes the burden heavy. Parliament could without injuring itself and certainly with the approval of the editor, save a goodly number of these cents to every Canadian family.

WHAT THE EDITOR IS UP AGAINST

Sixty Minnesota editors refused to mention the Minnesota State fair unless they were given \$15 each for doing so. The fellows were in the right. Editors as a rule are expected to do much advertising without compensation.

The manager of the church social comes to the editor and says: "Give us a good send-off on the ice cream social which we are giving on Mrs Jenkin's lawn." She little realizes that printer's ink costs something; there is the rent to pay, the heat and light to settle for, for the men must be paid large salaries each Saturday night; the print paper each week costs perhaps \$10 to \$15, to say nothing of the power that runs the presses. The type wears out, the machinery gets old and out of repair and has to be replaced with new machinery which is more expensive; the freight like the taxes must be paid and it costs the editor at least 10¢ a day to live, for he has to invest in a little cornmeal and rice, to say nothing of his smoking tobacco. He has to get a new suit of clothes at

least once in two years and his \$2 shoes wear out after long weary hours of pacing up and down the street trying to corral the fellow who promised to pay and doesn't. Yes, the editor is running a charitable institution. He doesn't need anything for those write-ups. The editor gets his reward in heaven.—Ex.

MOTOR CAR OR TRIP TO EUROPE NOT SO SURE

Three of the plucky Newmarket Junior championship hockey team, have been holidaying with Meaford friends since their final and deciding game—Kenneth (Sparky J.) Vail, "Shorty" Smith and "Silver" Doran.

When asked "What about that trip to Europe and the new car you fellows were promised by the Newmarket executive?" all three laughed as though it were another of those rash promises often made when a championship is in sight. However they remarked, "We may get the trip across the water."

TRUSTEES UNTRAINED, TEACHERS COMPLAIN

Many school trustees throughout the province have never secured even their high school entrance yet are administering education in the districts where they live, it was pointed out Tuesday, at the meeting of the Federation of Women Teachers' Associations of Western Ontario, in University College.

The women teachers will request the Department of Education to provide legislation making it necessary for all trustees to have entrance certificates or their equivalent.

THE NARCOTIC OF SILENCE

"While the world is confronted with definite problems," says Father Coughlin, of Detroit, defending the right of the clergy to deal with social and economic matters, "it has been erroneously inferred that the clergy should be satisfied with speaking in wide-gauged platitudes when disconcerting is so prevalent. In the face of universal distress, it is falsely presumed that clerics should appease their consciences with the narcotic of silence."

BIG SOFTBALL SEASON EXPECTED THROUGHOUT ONTARIO

1933 is expected to be the best year in the history of the Ontario Amateur Softball Association, the annual meeting of which body was held at London on Friday. Last year there were 53 districts in the Association, with about 20,000 players. The age limit for Junior series was changed to under 20 years, instead of under 21, to conform with other sports regulations, and the 12 inch ball was again officially adopted. A "zoning" plan was adopted, which calls for the province being divided into sections, so as to make play-offs easier to conduct, and generally classify districts. Six zones were mapped out, but the number may be increased.

Durham entered a team in 1931, but not in 1932. Entries may be made up to July 1, and players signed up to July 15th. At least two or three speedy twirlers with good control are essential for a play-off team and if any can be developed here this year, a Durham entry would be an interesting climax to the season's sport.

CLOSE CONTINUATION SCHOOL TO KEEP DOWN TAXES

At the last meeting of the Lions' Head village council, members of the school board were present and informed the council that the Government grants toward the upkeep of the Continuation School had been cut 10 per cent last year and an additional cut of 20 per cent would be made this year. They had also been advised that the five outlying sections, which in the past had agreed to contribute \$160 per year toward the upkeep of the school, would not be able to pay anything this year.

This meant a shortage of about \$1200 and to make this up the rate would have to be set at 30 mills. Last year it was 18 mills.

After some discussion the council came to the conclusion that this would create a tax that the people, under present conditions, would be unable to pay and decided to close the Continuation School after midsummer. The rate for 1933 was set at 19 mills.

Hon. Leopold Macaulay the Coming Leader?

So Thinks Hon. T. L. Kennedy, Min. of Agriculture.

At a largely attended meeting of Peel County Conservative Association on Saturday last in Brampton, Hon. T. L. Kennedy, Minister of Agriculture, introduced the speaker of the afternoon, Hon. Leopold Macaulay, Minister of Highways in the following complimentary terms:

"We need leaders and one of the greatest you are going to get is Hon. Leopold Macaulay. He predicted a 'great political future' for Mr Macaulay, 'one of the ablest young leaders in Conservative ranks.'"

Mr Macaulay pointed out that the annual relief bill of Ontario alone, for instance, of increased government cost, was \$20,000,000, adding that or comparison, that in 1905, the whole Ontario budget called for an expenditure of only \$5,000,000.

Mrs Emily Urquhart of Port Credit, a former Durham girl and a well-known Conservative speaker, was also on platform and contributed a short speech.

WELBECK

What a gloomy spring it is! Nature as well as the people seems to feel the depression. Very little has been done on the land as it is still pretty wet and the roads are very rough. It is impossible to do much with them until they get a little dryer. The warm rain is bringing the grass along nicely, which is cheering to those who are short of feed for stock.

Miss Esther Riddell, Toronto, spent the holiday with her parents.

Mr and Mrs Norman Proctor and daughter Helen, are with Mr and Mrs R. J. Corlett. Mr Proctor has secured a position with his uncle Captain D. Proctor and leaves his wife and daughter with her parents for the summer.

Mr and Mrs John Heift, Dornoch, were guests of his brother, F. W. for Easter.

Miss Freda Eagles, teacher, spent the Easter recess with her mother in Toronto.

In a letter to Mrs Jas Crutchley, Mrs George Hay tells of a trying winter with sickness in their home. Two of the boys, Bain and Clifford, contracted pneumonia and were critically ill, Bain's life being despaired of for three days. Just as they were recovering nicely and the trained nurse in attendance had left, the whole family took the flu and the nurse had to be recalled. After getting over the flu, Mrs Hay was again stricken and had to be removed to hospital where an operation was performed for appendicitis. We are glad to say it was successful and she has returned to her own home where she will still be confined to bed for some time. Our hearts go out in deepest sympathy to these old neighbors who seem to have more than their share of trouble.

Miss Viola Stafford is with Mrs. Clarence Noble at present.

Mr Gordon Goldsmith and family, motored to Massey and spent Easter with his parents.

Mr Arch Watson is assisting Mr. Goldsmith in the mill at present.

The Sharp orchestra put on a dance in the Community hall, Williamsford, on Monday night. A splendid crowd gathered and a pleasant time was spent by all present.

Mr and Mrs Jas. Crutchley were visitors with Durham friends Sunday
