VARIOUS VIEWPOINTS

BY SILAS

Hon. MacKenzie King, visiting in Paris, said he had no comment on the resignation of Hon. H.H. Stevens. We can now look for a five hour speech in parliament on this subject from the Liberal chieftain.

A German inventor who conceived the idea of flying to Mars, died in abject poverty the other day. He was the father of 21 children which explains the previous sentence.

As a tribute to Premier Hepburn, the Mayor of St. Thomas has successfully asked for the letter H on the 1935 auto markers, for Elgin County. That's fine, but some dismissed politicians might think an H marker stood for Hydro.

A farmer in Quebec lost a wallet with \$150 in it, and found later a cow had eaten it. That may be unusual, but we know a lot of farmers who have put a good deal of money in herds which they will never get back.

Fifteen women and children in Guelph were counted stealing coal from a car on a railway siding. Looks like a case of everybody works but father.

Some person slipped a bottle of liquor in a car at Caledonia, the car being billed to the stricken districts of Saskatchewan. The bottle got broken although it was intended for a drought-stricken area.

One thing of which there is no doubt. Hon. H. H. Stevens had and still has the attention of the public. He was doing something which needed to be done, and we doubt if there are many men in public life who would dare dig where he has been sinking his spade.

...What your TELEPHONE does for you...

- Summons help when fire breaks out. Calls the doctor in sudden illness. Calls the veterinary for sick or injured stock. Keeps you in touch with markets and prices. Gets quick service on repair parts for machinery. Enables you to arrange social affairs and meetings. Keeps you in touch with your neighbours and friends.

\*C. H. SHEPHERD discovered fire in his home. It was making rapid headway. He managed to reach the telephone and gasp his story into the transmitter. In ten minutes, neighbours came twenty strong and soon had the fire under control. They had been notified by the operator through whose quick grasp of the situation, the Shepherd farmhouse was saved.

Your TELEPHONE Nothing gives so much for so little.

C. RAMAGE & SON, Editors and Proprietors

IDEAS TO IMPROVE YOUR TOWN

These are the days when municipalities require to pare their estimates to the bone, to keep within the limits of the taxpayers' capacity to meet expenditures. There is no fun being a town councillor and often it is the case, that brickbats rather than bouquets are thrown at them. The citizens should be a unit with the Council in working for the town's progress and should be individually interested in seeking any improvement they can make, whither by word or deed. The Collingwood Enterprise-Bulletin is giving money prizes for the best six letters to their paper on ideas that will help Collingwood to a better condition. Enlarging on this topic, the St. Marys Journal Argus says: "Municipal affairs in our towns, cities and townships are attracting more interest than they used to receive. That's one good thing that has come out of the depression. Our taxes are so hard to pay that we can no longer ignore them. Then the first thing we do, is to criticize. We are all good at criticizing. And it's all right if we can keep it on a constructive basis. Most municipal councils are tied down by debenture debts that have been piled up in the past and that demand heavy payments every year for principal and interest. But there isn't much that can be done about it at the moment except to be as economical as possible, thereby lightening a little bit at any rate the burden of the taxpayer. For the time there appears to be no magic method whereby to brighten the future of municipal tax-paying, except by careful expenditure and avoiding the reckless piling up of future debts that characterized so many municipalities in the past."

NO NEW TAXES, STATES PREMIER HEPBURN

The 1935 session of the Ontario legislature will begin about the middle of February, the customary time, Premier Mitchell F. Hepburn said last week. There never had been any suggestion the session would be delayed until the following month, he added. He also gave assurance the customary financial report, released to the public near the close of the fiscal year, Nov. 1, would be published, though a little later in the season. "We want the people to know just where we stand," he said. The Premier also said definitely the Government was "not contemplating imposing any additional taxes on the people of Ontario." He denied suggestion municipalities had been relieved of their share in highway costs and had been permitted to share in beer and wine profits, "to pave the way for imposition of an income tax."

A doctor claims that apple pie contains only one-quarter the amount of vitamin C contained in raw apple. You can't scare us miser. We'll have having been very beneficial. There is still about 40% of the fall plowing to be done, and there have been some requests by farmers for plowmen in order to get the work done.

Mr. Cooper says that a considerable quantity of hay has been purchased, but some farmers still hold large quantities. Barley has been a good paying crop this year, with the yields running from 50 to 60 bushels to the acre and prices varied for matting barley from 60 to 70 cents. One farmer is said to have sold 1200 bushels.

Mr. Cooper in his general remarks states that during the past week approximately 6 inches of snow has covered the entire county, most of which had disappeared at the time of writing. This has had the effect of replenishing the water supply in the county as well as making plowing easier.

TOWN COUNCIL MET MONDAY

Durham Council had a quiet session on Monday with routine business only. Chairman McGowan of the Board of Works reported a satisfactory job of new sidewalk at Smith's garage. New fire hose and equipment are now all O.K.

Accounts totalling \$592.13 were passed, also \$91.33 to County Grey for half cost indigent patients in the hospital. Clerk Willis read the report of Dr. Smith, M.O.H., stating dairies, the creamery, and slaughter houses to be in a satisfactory condition, and the Public School in first-class sanitary condition. The treasurer's report showed \$17,392.74 of 1934 taxes paid in to date, of a roll of slightly over \$33,000. This is \$13 only less than at same time in 1933.

in which the air of this continent is so cluttered up with raucous announcing of Sunday games, the story of Harold Wilson, world-champion speedboat racer, comes like a breath from the hills and the sea. — New Outlook.

Wisdom—Old and New. The Governor of Barbados, when opening the Legislature recently, recommended the setting up of a fund against hard times. Joseph recommended the very same thing to Pharaoh when he told him to save corn for seven years when it was a good crop. That advice given thousands of years ago was sound and is good advice today. If the tens of thousands on relief now had saved a little when times were good they would not be in a condition today of want. The old idea of saving something for a rainy day is wise, and the present generation should get it into their heads.

Growing in Popularity.

The generation who watched the Old Mechanics' Institute gradually develop into the Public Library, as we know it, will be interested in a very special sense in the statistics which show that in 1933 there were 637 public libraries in Canada. This figure is not inclusive of branch libraries in the larger cities or travelling or other libraries of a special type. In all 15 libraries had been added in two years to the aggregate of 1931. In the same period the number of books on public library shelves has been increased by about 250,000, and the circulation by about 1,220,000 volumes. The number of borrowers has grown to 1,100,923, or about 10% of the population of Canada. Ontario last year had 468 libraries; Saskatchewan 41; British Columbia, 31; Quebec, 25 Alberta, 22; Manitoba 21 Nova Scotia 15; New Brunswick, 9; Yukon, 3 and Prince Edward Island 2. They are largely to be found in urban centres. The expenditure per capita of the population by these libraries for books, periodicals and binding in 1931 averaged in all Canada 12 cents and in 1933 10 cents, while the Yukon spent 49 cents; Saskatchewan 15c; Ontario, 13c; Alberta, 13c; British Columbia, 9c; Manitoba, 5c; New Brunswick, 4c, and Quebec, 3 cents last year.—Mail and Empire.

AMONG THE CHURCHES

At the Presbyterian Young People's meeting, the scripture lesson was taken by Kathleen McFadden. A very pleasing solo by Elsie Ledingham followed, and Mr Gowdy gave a paper on "Why I am a Presbyterian" which was followed by questions asked by the class. Instrumentals were given by Bob Gray and Frank Ritchie on the violins and accompanied by Lewis McCombe on the piano. Prayer by Elizabeth Harding closed the meeting.

FARM CONDITIONS THROUGHOUT GREY

Mr T Stewart Cooper, Agricultural Representative for Grey, in his semi-monthly report to the Department of Agriculture regarding conditions in the county, states the cattle situation is most disappointing to the farmers as prices are such that it is impossible to make anything worth while out of cattle at the present time. With regard to the crops which have come under his observation he states that about one-half of the turnips are still in the fields, while his information is that some potatoes still remain unharvested.

EDGE HILL

Miss Reta Glenecross, Angus, spent the week end at her parental home. Miss A. Copeland of Swinton Park is visiting this week with her friend Mrs Clarence Robinson.

GREEN GROVE

Mr and Mrs Ed. Pratt and family have moved to the house recently vacated by Mrs Wm. Hargrave. Mr and Mrs Thos. Bell and children spent over the week end with their brother Dr. Bell at Alvinston.

NO TROUBLE WHATEVER

An invitation to dinner had been sent to the newly settled practitioner. In reply the hostess received an absolutely illegible letter. "I must know if he accepts or rejects," she declared. "If I were you" suggested the husband, "I should take it to the druggist. Druggists can always read the doctors' letters, however badly they are written."

The druggist looked at the sheet of note paper which she handed him, and without waiting for her explanation, went into his dispensary and returned a few minutes later with a bottle which he handed over the counter. "There you are, madam," he said, "That will be seventy-five cents."

Special Services, Baptist Ch.

The Durham Baptist Church is stressing Evangelism during November. Evangelistic and Revival messages are being presented by four Pastor-Evangelists. Last Sunday Rev C. Stanley Baggett, Listowel, preached in the morning on "Choked Channels." He spoke on Christians who have power in their lives, and those who have not. There is the man who came to Jesus at night, Nicodemus, whose timidity made him powerless to work for Jesus. There are some like the resurrected Lazarus who are bound hand and foot with the grave-clothes of the old life. And then there is the man of whom Jesus spoke, "He that believeth in Me, as the scripture saith, from within him shall flow rivers of living water;"—those whose lives like rivers exert an influence for good all along the way. In spite of dreary weather, good congregations greeted the preacher both morning and evening. In the evening Mr. Baggett spoke on I Corinthians 16:3, "Christ died for our sins," and made a stirring appeal to forsake sin and seek the Saviour.

HAMPDEN

Mr. Wm. Fritz and Master Howard Kraft were patients in the Hanover Memorial Hospital last week, returning home Friday to recuperate. Master Lawrence Schenk has been very ill and under the doctor's care the past week.

MULOCK

A very enjoyable Halloween masquerade was given in the Baptist parsonage, Tuesday evening, under the auspices of the B.Y.P.U. A large number of young people present, about half of them masked, representing goblins, ghosts, and pioneer days causing a great deal of merriment, during the grand march. Prizes were won by Loleta Mighton and Earl Anderson. Contest prizes went to Florence and Gordon McLean, Loleta and Erma Mighton, Earl Anderson and Frank Sharpe. Nearing 11 o'clock, pumpkin pie, sandwiches and cake were served. Scripture reading and prayer by Mr. Homer at the close. The next meeting will be held on Thursday evening, Nov. 8 in charge of Hugh McLean, Devotional convener.

EDGE HILL

Miss Reta Glenecross, Angus, spent the week end at her parental home. Miss A. Copeland of Swinton Park is visiting this week with her friend Mrs Clarence Robinson.

Diamond Wedding of Mr. and Mrs T. Bailey, Hanover

Sixty happy years of wedded bliss with the groom Mr. Thomas Bailey of Hanover, at 85 years, hearty and happy, erect in bearing and walk unslowed, right clear complexion, which he attributes to the constant use of cold water and possessed of a wonderful memory. His bride in her 79th year and while her health is slightly impaired, she joined heartily with her husband in Friday evening's celebration in Speer's Hall, Hanover, when 125 friends gathered to celebrate this diamond anniversary. Presentation bouquets, shaded lanterns with orange and black streamers falling softly from the lights, made a striking setting for the bridal party, whose table near the entrance, was decked with shaded mums, candles and a tiered wedding cake.
