Sorry to report Mrs Kate McArthur confined to her bed. All hope for her a speedy recovery.

The veteran pioneer couple, Mr. and Mrs Don McMillan, S. Line will celebrate their diamond wedding on Feb. 4th. We, along with a host of other friends wish for them more recurring celebrations of this pleasing noteworthy event, Mr. Mclealth considering the trials of early

anniversary of Mr and Mrs W. W. Ramage, celebrated perhaps when the roads are more passable for distant relatives. 82 and 77 are the ages next birthday. All grateful to Providence for good health.

The provincial snowplough leaves the highway in fine condition for cars or sleighs.

The place, inadvertantly omitted in our last issue, where our young ladies here, secured first prizes, was at Flesherton carnival. That of Miss Catherine McVicar, who represented Dr. Dafoe with black rimmed glasses, medical case, and Misses Anna McLean and M. McMaster were the nurses in charge of five fine husky youngsters with rosy cheeks in a baby carriage. They go to sleep as soon as laid down, and some can even now say ma. The prize was a large bottle of fine scented cologne

Miss Bertha James left Sunday on a visit to her neice, Mrs Ted Lucas, nee Helen Bowes, at Orangeville.

The annual meeting of St. Columba was held last week, when all reports were very satisfactory with balances on every hand in the various branches. Mr. John Shortreed was elected manager in place of H. B. McLean, resigned. The envelope sec'y, W. McKechnie and treas., W. W. Ramage were re-elected. A fine lunch was served at the close.

SWINTON PARK

Everything is very quiet at present. Just an odd load of logs or wood going by. The weather has been quite common in this locality, very cold of course at times, but like Pat with hanging, it's nothing when you're used to it.

Yet we pity those people in many places where the cold and storms have been so bad, and them not used nor prepared for it. In Pro on I believe most people have heavy warm clothing, perhaps also thicker

hides, caused by much exposure. We hear that Edmund Fowler's thermometer was down to 44 below one morning last week. We would advise taking it in the house. That's too cold!

We feel like the Irishman this morning, thick-headed. Pat was dis charged one morning by his boss, a coal merchant, who told him he was too thick-headed to learn anything. "Faith I have learned wan thing since I've been driving for ye." "An what's that?" "I have learned that 1700 lbs make a ton of coal." We just sit by the fire these days and think of the time gone by, and won der what is yet ahead.

We had quite a chat with a young man on Sunday evening; he very strongly upheld the aeroplane as. boon to humanity. He was for speedy travel. We proclaimed it useful only for fools or faddists; they make only a few trips now and then. First with an aeroplane you require money to own one, and they are of no use in canvassing either for funds for the church or for votes for an election. You cannot land in every garden. Our views were as different as our ages: the young man was thinking of the few hours it would take
