THAT FIRST BRANCH BANK AND 500 MORE

The founders of the Bank of Montreal firmly believed in branch banking. Two weeks after opening the Bank in Montreal on November 3rd, 1817, the directors appointed an agent at Quebec. By the following June the agency was made an "Office of Deposit and Discount," and thus the first branch came into being. Two others soon were created-at Kingston and York (afterward Toronto).

Those early bankers sought to extend and perpetuate for the farmers and merchants, the benefits and stimulus of a branch banking system the worth of which had been abundantly proved in the British Isles.

Thus they introduced one of the elements of elasticity

for which the Canadian banking system has received so

Consistently, throughout the decades, the Bank of Montreal has added branches wherever business warranted giving to new and growing communities the advantages of banking strength, ample facilities and sound managemen Today over 500 branches are serving Canada. Each branch is the Bank of Montreal, with all the facilities and public service for which the institution is known.

From the first branch in Quebec to the most recent one opened, the spirit of the Bank of Montreal is expressed-and will continue to be expressed-in terms of useful banking.
