HAVE  
YOU  
HEARD

**WORTH-WHILE THINGS**  
Life is so full of worth-while things—  
Flowers that bloom, birds that sing,  
Willows that weep o'er a country  
lane,  
Roses that nod in a summer rain,  
What thought the sky is clouded with  
sorrow?  
Sun will shine again tomorrow!  
What is so blue as the azure sky,  
Smiling under the clouds roll by?  
Summer sunshine, winter snow,  
Red leaves whirling in winds that  
blow;  
Sunset on a distant peak,  
Song of crickets in drowsy sleep,  
Life is so full of worth-while things,  
Raindrops tapping the window pane,  
Childish prattle, a friendly smile—  
All such trifles make life worth-  
while.

Man—I hate a bad loser.  
Friend—Yeah, but I'd rather play  
with a bad loser than any kind of a  
winner.

Honest work and fresh air used  
to turn out more pretty girls than  
the beauty parlors.

There was a smile among the  
classified ads in Times-News, the  
other day, when an ad intended to  
say: "Miss Mary Hall has lost her  
pup" was printed to read: "Miss  
Mary Hall has lost her pep."

Man—Modern marriage is like a  
cafeteria.  
Friend—And how?  
Man—A man grabs what looks  
nice and pays for it later.  
Man (excitedly)—Where is my  
hat?  
Wife (sweetly)—Hanging on the  
lamp.

Man—Lamp. Huh! What crazy  
place will I find it next?  
Wife (snappily)—On your head,  
I suppose.

Father says he is a success only  
because of his earning power being  
more than other's spending power.

When ignorance was bliss nobody  
had invented bookkeeping.

Life, a wonderful adventure, an  
empty dream, or a continual round  
of pleasure? Whatever it is, it's  
nice.

Some of the marriages are wreck-  
ed because the husband and the  
wife do not understand one another.  
And others because they do.

Little Richard—Mother dear, may  
I have a nickel for the old man who  
is crying outside?  
Mother—Yes, dear, but what is  
the old man crying about?  
Little Richard—He's crying: "Ice  
cream cones, five cents!"

Ford Spending  
Several Million

Observes the Windsor Star — Ford  
of Canada is not only important as  
a local manufacturing concern, it is  
a vital factor in giving employment  
to parts manufacturers in other sec-  
tions of Canada. Millions of dollars  
are spent for the products of these  
parts and materials factories and  
other haulage charges to get them  
to Windsor. The fact that the Ford  
Company is going strong here means  
that many other smaller industries  
are kept running and giving employ-  
ment to their workers. Without the  
Ford contracts, these smaller con-  
cerns would fold up with consequent  
unemployment in various parts of  
Dominion.  
During this year Ford of Canada  
will spend more than \$1,000,000 for  
various services and materials in  
each of Sarnia, Hamilton, Toronto  
and Windsor. The amount in Windsor  
goes to the different factories sup-  
plying the Canadian Ford.  
The company will spend from  
\$100,000 to \$500,000 in each of  
Chatham, Ingersoll, New Toronto,  
Niagara Falls, Sault Ste. Marie, Til-  
bury, Woodstock, Montreal, Farn-  
ham, Que., and Sinclair Mills, B.C.  
From \$50,000 to \$100,000 will be  
spent in each of Guelph, Kitchener,  
Waterloo, Oshawa, Welland and  
Peterborough.  
Smaller disbursements will be  
made in each of 63 towns and cities  
extending from Nova Scotia to Brit-  
ish Columbia.  
The importance of the Ford of  
Canada in keeping going the fac-  
tories in these communities in the  
Dominion can be appreciated. Fur-  
ther, in the first six months of this  
year the supply companies have done  
close to as much business for Ford  
of Canada as they did in the entire  
year of 1934.

Her Head Felt Like  
A Ton Weight

**Put Right by Daily Dose of  
Kruschen**  
After suffering with severe head-  
aches for nearly twenty years, it  
must have seemed like heaven to  
this woman when she was free of  
them, as a result of taking Kruschen  
Salts. Here is the letter describing  
her earlier sufferings:  
"I have had headaches for years,  
then so I was 11 years of age I had  
to take me away from school. They  
never got much better, and I am now  
30 years of age. Seeing Kruschen  
Salts advertised so much, I thought I  
would try them. That was two  
months ago, since then I have felt  
I get up, my head does not seem to  
be a ton weight, like it did before  
taking Kruschen Salts. I think  
Kruschen is wonderful." — (Mrs.)  
E. D.  
Headaches can nearly always be  
traced to a disordered stomach, and  
to the unsuspected retention in the  
system of stagnating waste material  
which poisons the blood. Remove  
these poisons—prevent them from  
forming again—and you'll never have to  
worry any more. And that is just  
how Kruschen Salts bring swift and  
lasting relief from headaches.

Australia Census  
Lists 6,724,305

CANBERRA, Australia. — Official  
figures show that on June 3 of this  
year Australia's population was 6,  
724,305. Males predominated, num-  
bering 3,469,326, compared with 3,254,  
979 females.  
The gain in population for the year  
was 47,908, or 1,350 more than the  
gain in the previous year. A fall  
of 248 in the natural increase was  
more than balanced by an improve-  
ment of 1,598 in the migration figures.  
The natural increase during the  
first six months of 1935 was 25,451,  
compared with 24,939 in the corre-  
sponding period of the previous year.  
This, in the opinion of the Common-  
wealth statistician, is indicative of at  
least a temporary slackening of the  
fall of the natural increase rate.

Those Leisure Hours

Why Not Employ Them Profitably? Specialized training leads to increased efficiency. Increased efficiency means increased earning capacity. Overcome inferiority complex. Develop mental power, and equip yourself for a better future. Study leisurely in the things. Study leisurely in the things. Study leisurely in the things. MONTREAL, QUEBEC

SCOUTING  
Here - There  
Everywhere

Through the co-operation of re-  
turned men, the east wing of Cana-  
dian Legion Hall, Fort Francis,  
Ont., has been turned over to the  
local Scouts for a Christmas Toy  
Shop.  
Three pies were the real treasure  
hidden in Point Pleasant Park for a  
treasure hunt by the 17th Halifax  
Troop. Appropriately the pies were  
secured by the Bear Patrol.  
One hundred and sixty-five Scouts,  
Cubs and Rovers from Sherbrooke  
and Lennoxville, Que., gathered for  
the presentation of His Worship  
Mayor Bradley of the Gilt Cross for  
life saving to Scout Fred V. Sinclair  
of the 4th Sherbrooke Troop. The  
meeting was opened with flag break,  
Scout Silence and the Club's Grand  
Howl. A Certificate of Merit was  
awarded Scout Roy Phillips for his  
share in the rescue, which involved  
diving to bring up a fellow Scout, at  
last summer's camp, and the success-  
ful use of artificial respiration.

Clay and Salt  
For Gravel Roads

Department of Highways Ex-  
perimenting on Schomberg-  
Alliston Road.

A mixture of clay and common  
salt is being used in the new formula  
with which Ontario's Department of  
Highways is experimenting for the  
surfacing of gravel roads, it has  
been learned.

Successful salt highway construc-  
tion has been reported from New York,  
Michigan, Vermont, Maryland and  
other parts of the United States,  
where it is claimed that the salted  
roadways provide a hard, non-skid  
dustless surface at a much lower  
cost than asphalt or concrete.

The new surfacing is being tested  
on a few miles of the Schomberg-  
Allandale Road, while in northern  
Ontario it is also being used to see  
how it will stand the severe winter  
is the north. Salt or calcium chloride  
is used in proper proportion to the  
amount of clay and gravel to keep  
the surface moist, and this damp clay  
maintains a uniformly hard surface.  
It is suggested that these salt roads  
may eliminate the deep holes and  
ruts which develop in gravel roads.  
Salt is used rather than calcium  
chloride because of the difference in  
cost.

That before 1833, when American  
railroads adopted the four standard  
time divisions, they ran on schedules  
using 58 different kinds of time.

Regina Scouting circles are going  
strong on flying. Rover Wes Hodg-  
son of the 2nd Regina Crew has passed  
the tests for a commercial pilot's  
license, and Miss A. L. McNeill,  
Cubmaster of the 5th Regina Pack,  
has qualified as a private plane pilot.  
A number of Regina Scouts expect to  
take pilot's examinations at a later  
date.

At the first autumn meeting of the  
1st Parry Sound Troop, a handsome  
new stand of colours was presented  
by President J. M. Daly of the Cana-  
dian Legion.

NO EXPORT  
Canada As League Member  
Prohibits Export of Arms  
To Italy

To what does Canada commit her-  
self when, as a good member of the  
League of Nations, she accepts the  
decision of its Assembly to prohibit  
the export of armaments to Italy?  
A proclamation in an extra of the  
Canada Gazette furnishes the an-  
swer to this question, enumerating as  
it does illegal to export, re-export or  
transport to Italy or any Italian pos-  
session:  
Category I—  
1. Rifles and carbines and their  
barrels.  
2. Machine guns, automatic rifles  
and machine pistols of all calibres  
and their barrels.  
3. Guns, howitzers and mortars of  
all calibres, their mountings, barrels  
and recoil mechanisms.  
4. Ammunition for the arms enu-  
merated under 1 and 2 above, filled  
and unfilled projectiles for the arms  
enumerated under 3 above, and pre-  
pared propellant charges for these  
arms.  
5. Grenades, bombs, torpedoes and  
mines, filled or unfilled and apparatus  
for their use or discharge.  
6. Tanks, armoured vehicles and  
armoured trains.  
Armour of all kinds.  
Category II—  
1. Vessels of war of all kinds in-  
cluding aircraft carriers and sub-  
marines.  
Category III—  
1. Aircraft, assembled or dismantled,  
both heavier and lighter than air,  
and their propellers or air screws,  
fuselages, aerial gun mounts and  
frames, hulls, tail units and under-  
carriage units.  
2. Aircraft engines.  
Category IV—  
1. Revolvers and automatic pistols  
of a weight in excess of 1 pound 6  
ounces (630 grammes) and ammuni-  
tion therefor.  
Category V—  
1. Flame throwers and all other  
projectors used for chemical or in-  
cendiary warfare.  
2. Mustard gas, lewisite, ethyl-di-  
chlorarsine, methylchlorarsine, and  
all other products destined for chemi-  
cal or incendiary warfare.  
3. Powder for war purposes and  
explosives.

Hunters Fighting  
Invasion of Rats

SUDBURY, Ont.—The north end of  
Sudbury is in the throes of one of  
its periodic invasions of rats from the  
city dump, half a mile out on the  
Flood road. Sportsmen have started  
driving out to the dump at night and  
picking off the rats with rifle fire  
under the beams of auto headlights.  
Poison also is used on the vermin.

GET DOWN  
where the  
PAIN  
is!

To end aches, pains and sore  
muscles... rub in Omega Oil! It  
actually penetrates right to the  
spot. Brings a clearing flow of  
fresh blood, quiets irritated  
nerves. Soothing relief is prompt.  
35c a bottle. Ask your druggist.

break up congestion  
with  
**Omega Oil**  
Instant Relief From  
**ITCHING**  
Are you tormented with the itching tor-  
tures of eruptions, eczema, scales, rashes or  
other skin afflictions? For quick and happy  
D. D. D. Prescription. Its gentle oils soothe  
the irritated and inflamed skin, thus aiding  
nature itself to heal the disorder. No fuss  
—dries up almost immediately. Stops the  
most intense itching instantly. A 35c trial  
bottle, at drug stores, will prove it—or  
money back. D. D. D. Prescription is  
made by the owners of ITALIAN BALM.

Doctors say that much of the so-  
called "indigestion," from which so  
many of us suffer, is really acid in-  
digestion brought about by too  
many acid-forming foods in our  
modern diet. And that there is now a  
way to relieve this... often in  
minutes!

Simply take Phillips' Milk of  
Magnesia after meals. Almost im-  
mediately this acts to neutralize the  
stomach acidity that brings on your  
trouble. You "forget you have a  
stomach!"  
Try this just once! Take either the  
familiar liquid "PHILLIPS'" or  
now the convenient new Phillips'  
Milk of Magnesia Tablets. But be  
sure you get Genuine "PHILLIPS'".

Also in Tablet Form:  
Phillips' Milk of Magnesia Tablets  
are now on sale at all drug stores  
everywhere. Each tiny  
tablet is the entire  
dose of a teaspoonful  
of Genuine Phillips'  
Milk of Magnesia.

PHILLIPS'  
Milk of Magnesia  
MADE IN CANADA

**BRUNO-  
MASKWA  
GOLD MINES  
LIMITED**  
has every indication of a  
**HIGHLY PROFITABLE GOLD MINE!**

The company controls two groups in Eastern  
Manitoba, one lying southeast of Gunnar Gold  
(now erecting a 150-ton mill) and the Maskwa  
group due south of the Rice Lake gold camp. At  
the present time, substantial crews are actively  
developing both groups. At Bruno, commercial  
and frequently high grade values over consid-  
erable widths and lengths have been discovered.  
No. 1 vein has been opened up over 300 feet;  
two additional veins, from 3 to 6 feet wide,  
have been opened up for several hundred feet.

At Maskwa, a shaft has been sunk on the  
vein to a depth of 125 feet. Ore on the  
dump, extracted from open cuts, averaged  
\$40 to \$50 in gold, with additional silver  
values. E. M. Dowman, Mining Engineer,  
has seen that this one of the few properties I  
state: "This is one of the few properties I  
small mill." Present financing is for mill  
erection and further underground development.  
This stock offers enhancement both  
market-wise and mine wise.

**Bruno - Maskwa  
Gold Mines, Limited**  
Reports from the Maskwa prop-  
erty of Bruno-Maskwa Gold Mines,  
Limited, in the Gunnar Gold area of  
Manitoba state that shaft-sinking  
has now reached a depth of 125 feet  
and drifting is proceeding on the 110  
and 122 foot levels. On both hori-  
zons, a new vein, carrying gold  
values has been intersected. This  
vein averages from 2 to 3 feet  
in width and tests are now being  
made. A crew of between 15 and 18  
men is employed at this development  
of the company.  
At the Bruno group, a crew of  
some 15 men is engaged in surface  
development. The vein has been  
stripped for almost 300 feet and has  
been traced for ¼ mile. The vein  
averages 3 feet in width.  
It is the intention of the company  
to continue development work on  
both properties throughout the com-  
ing winter.

**STOP  
BEING A BURDEN
