NOT CANADA'S FIGHT SAYS MISS MACPHAIL

Miss Macphail, M.P., was once more in the limelight, when last week at the United Farmers of Ontario annual convention, she set forth in no uncertain tone what in her opinion, should be Canada's attitude should war and strife affect the Ethiopian situation more aggressively than today.

A VALUABLE MAN PASSES

All Canada mourns the death of Hon. James Malcolm of Kincardine, Minister of Trade and Commerce in the former King Government. The press have acclaimed his work from coast to coast. At the comparatively youthful age of fifty five, he has contributed his 'oia to Canadian life. Men such as James Malcolm do not grow in every constituency.

A NEW WORD FOR THE EDITOR

We felt quite perturbed the other day when we struck a word, that was new to us. Not that we have a monopoly of the knowledge of the King's English, but we do pride ourselves on knowing the difference between an every-day word and a "sticker." Perhaps you may have used the word "emote" before, but to us it was decidedly new. We at once went to our friend, Daniel Webster and he says it is an "effected with emotion." And where do you think the word came in? We were looking at a picture in a paper of the "Quints", which had the following above: "The Misses Dionne, Movie Stars Now, Emote for the Camera." It is easy to see now how to use the word "emote". The Dionne babies are this week perfecting themselves for their first movie and all unconsciously, are posing or "emote" for the reel of pictures.

At Queen's Park

BY THE WATCHMAN

Toronto, Dec. 12. There is a distinct possibility that Premier Hepburn will remain at the helm of the government and continue to render the calibre of service that brought the Liberal party from the shades of opposition to the seat of power, if... The "if" is important. There is no doubt that the premier must permanently retire from politics unless he is able to continue without endangering his health. If his cabinet colleagues are able to so lighten his burdens that he would be relieved of the burdensome detail which has always been loaded on the leader of a government, then he will continue to guide the destinies of the province. And it goes without saying that his colleagues will move heaven and earth to keep him at Queen's Park, even though it would mean that he would not be at his desk more than two or three days a week.

THE SCOT THINKS BEST WITH HIS EYES SHUT

Rev. J. B. Skene, pastor of Emmanuel Presbyterian Church, Toronto and a grandson of one of Dornoch's pioneers, came over with the statement of a Scotsman thinks best with his eyes shut, so that "although to the casual observer certain of my congregation may seem to be sleeping during the sermon," actually the concentration is more profound than that of a wide-eyed assemblage of listeners. At the same time, Mr. Skene says a rude awakening is coming to the party or parties that fall asleep in his church. As to "sneezers" in his congregation, Mr. Skene feels nothing is so horrible as an explosive sneeze in the middle of one of his sermons. Peppermints would be a good friend to have in some churches, though no sleep chasers are needed when Mr. Skene preaches.

BAD THORNBURY FIRE

A disastrous fire early Friday morning last destroyed the warehouse of the Georgian Bay Beaver Valley Fruit Growers Company at Thornbury. The loss is estimated to be nearly \$10,000. What could start a fire at four a.m. in a building of this nature is baffling, to say the least. There were between three and four thousand barrels of Winter Spy apples stored in the building and 3,000 barrels stored in the cellar. Most of these were salvaged though they are completely ruined for purposes of selling. The company had made some heavy shipments of apples just recently and for this reason there were not as many apples in the building as usual.

ONE OF PLAYRIGHT COMPANY

Friends in town of Mrs Robert A. Farquharson of Toronto, will be interested to know that she forms one of "The Playwright's Studio Group", started in the Queen City four years ago by Edward Stone, then director of Hart House Theatre. The group specializes on writing Canadian plays and since organization have written 28 one-act plays, varying from heavy drama to light comedy. Mrs Nancy Pyper, the popular directress of Hart House Theatre, believes such groups as the "Playwrights" will be responsible for the demand for a nationally owned theatre.

ONTARIO WINS 19 TITLES

Canadian grain growers and livestock breeders today counted 22 championships and 59 first prizes in grain and a score of major awards in livestock won at the International Hay and Grain and Livestock Exposition just concluded in Chicago. Ontario won the most awards of any Canadian province with 19 championships, 44 first prizes and many lesser awards. Ontario placed fourth behind Indiana, Illinois and Iowa in awards. Quebec had two championships and six firsts.

ONTARIO NEEDS VITALITY AND DYNAMIC ENERGY

Ontario needs the vitality and dynamic energy which he has infused into the conduct of affairs. Opponents as well as supporters admit that he has reshaped political affairs to the advantage of Ontario. By the time this is in print, the premier will have attended the inter-provincial conference at Ottawa and further enhanced his reputation as a leader.

LIVE STOCK MARKET REPORT

Monday's fresh supply of cattle was the lightest run for some time, comprising about 3000 head; besides this there were about 700 cattle left unsold, which consisted mainly of common stockers.

On Monday, the market opened with a good demand for choice, handy-weight butchers and baby heaves; also choice steers weighing from 1100 to 1200 lbs, which sold at from 6 to 6 1/2c, fair to good from 5 1/2 to 5 3/4c, common to medium 4 to 5c. Choice baby heaves ranged from 7 to 8c, fair to good from 5 to 6 1/2c. There was a limited demand for stockers and feeders. Those of selected quality sold at steady prices, but common & medium were very slow of sale and lower. Choice selected stockers sold at from 4 1/2 to 4 3/4c and best feeders from 4 1/2 to 5c, common and medium from 3 1/2 to 4c. The cow trade was active and higher, choice butchers making from 3 1/2 to 3 3/4c, fair to good from 2 1/2 to 3.40, canners and cutters strong from 1 1/2 to 2 1/2c. Choice butchers made from 3 1/2 to 4c, choice heaves from 3 1/2 to 3.60, botognas mostly 3c.

The lamb market continued strong today, Tuesday, some of the best making 9 1/2c; also some fancy Christmas offerings up to 10c. All classes of sheep were in good demand, choice light ewes selling from 4c to 5c. The calf trade held active and steady, choice from 9 to 10c, fair to good 7 to 8 1/2c, common and medium 5 1/2 to 6 1/2c. Supplies of hogs were liberal and although prices were expected to advance, the market finally settled on the basis of 7.50 f.o.b. and from 7.85 to 8.00 for truck deliveries. It is expected the market will hold steady for the balance of the week.
