CHEMICAL FODDER ENRICHES MILK

Invention of Finn Enables Dairymen to Keep Up Standard

MONTREAL - Getting cows to produce summer milk in winter is you. now occupying the attention of dairymen on this continent, largely because a Finn has developed a chemical that preserves in fodder opener? the juices and food values it retained when cut, and the topic is of college. particular interest in Montreal recently because of the presence in the city of G. L. Rosnqvist, a Finnish farmer and agriculturist.

and other health-giving, body-build- minutes to leave the theater. ing characteristics. The thing to do is to preserve those qualities in the something? fodder, thus enabling milch cows to give a milk that approximates their summer milk. This is the gist of Mr. Rosenqvist's remarks. He pays tribute to A. I. Virtanen, inventor of the so-called A. I. V. method of treating fodder chemically, thus keeping its summer nutrition preserved intact for winter cattle con- news? sumption. Mr. Rosenqvist has visited agriculturalists from British Columbia to Nova Scotia. cus and stole the show.

Like Finland

particularly the rural districts was haps can't get over the notion that very like Finland in many ways. it will finally "say something." popularity. Apart from their slight to his folks across the street? compatriot's scientific discovery, Mrs. Smathers-They're not much fessor Boving, of the University of even a grand piano. I can't imagine British Columbia, as "the greatest what they have got. advance made in agricultural scienco in the last 40 years", Mr. Rosenqvist was glad to see that Wisconsin scientists were attempting to improve the nutritive quality of winter milk. In his numerous visits across Canada he had found leading agriculturists and farmers keenly

interested in the "A. I. V." process. In Montreal, through the medium of the Board of Trade, he had been in touch with high officials of various agricultural organizations, including the Montreal Milk Producers' Association, the Co-operative Federee, the two railroads and the Department of Agriculture at Quebec. Farmer groups everywhere had viewed with interest the motion picture which he had brought with

him of farm work in Finland.

Mr. Rosenqvist was particularly Interested in the Co-operative Federee of Quebec, an organization which markets farm produce for farmers' clubs, as he himself is chief inspector for the Valio Cooperative Butter Export Association of Finland.
