The fine tribute is a lengthy one and we re gret there is but space for a para-

"Deceased was first a teacher-a very successful teacher at that. He gave up teaching to enter journalism and like many other teachers, in the story of journalism across the Dominion, soon came to the front in the newspaper field, thus building up a well recognized and paying business. His qualities as a man were well known and highly respected, inasmuch as they never fail to contribute greatly to a successful career irrespective of the industrial and professional spher in which they are found. These attributes in the main were; hard work, in a word, honest toil; loyalty to and love for his convictions and friends; also the ever gripping conviction that come what may, this earth is a consecrated portion of the unity of creation wherein "The light that never was on land or sea" spiritually dominates and really inspires everything worth while Mr. Ramage knew how to work. knew how to have hope and faith in the ultimate solution of things -a trio of fundamentals that will positively remove mountains in the physical, mental, moral and ideal fields of action."

AGNES PETTY

To Those Who Use The Highways At Night

for either driving or walking

I APPEAL to the motorists of Ontario to make night driving (and night walking) as safe and enjoyable as driving (or walking) by day. I believe it can be done -by the simple expedient of applying the principles of COURTESY.

Let us make it an infallible rule to dip or dim our lights when meeting other cars. It will soon become almost automatic for us to do so. Oncoming drivers will respond. Within a very short time, this "deliberate gesture" of Courtesy (as it now is) will become a fixed habit.

Do not crowd the other Fellow when meeting or passing. If he is inclined to be a nervous driver, he may easily misjudge distance at night. We don't know. And it costs us nothing to give him several feet of clearance.

Let us give pedestrians MORE than ample space for walking. We have all the advantage when we are driving and the other fellow is afoot. Let us not use that advantage in a bullying way. On the other hand, when we are walking, let us show

true courtesy to those who are driving. When we walk WITH traffic, we place ALL the responsibility upon the motorist. Always walk facing oncoming traffic, and wear or carry something light that the lights of oncoming cars will pick up, even if you carry only a partly opened newspaper.

These are a few instances only, to demonstrate the SPIRIT of Courtesy which I am suggesting and recommending to the people of Ontario.

Practise and preach the golden rule of the road -"Show to others the same courtesy that you would like to have shown to you".

S.B. W. Mussen
