Welcome First Train

The cowcatcher of old Engine 371 makes a fitting platform for

part in the pageant at Port Moody, July 3, celebrating the fiftieth

anniversary of the first C. P. R. train from Montreal to the Pacific.

The old engine, driven by the original engineer, hauled into Port

Moody a string of six old-style wooden cars handled by the original

conductor of the first train in a colorful re-enactment of the event.

More than 6000 visitors, including scores of rail veterans in service

in '86, flocked to Port Moody for the celebration.
