Record Service Given Ontario's Children By Hospital For Sick Children

Generosity of Public Permits Care For All Regardless of Race, Creed or Circumstance

The Hospital for Sick Children in Toronto is surely an institution in which every citizen of Ontario will well take real pride.

During the twelve months just ended, 8,345 cot patients were served for a total of 129,747 patient days.

Every day dozens of doctors come to the Hospital to donate their time and talent in the operating rooms, the out-patient clinic and in bedside service.

It is a notable fact that the Hospital for Sick Children has one of the lowest ratios of expense per patient day among all similar hospitals in North America.

Over 400 of the 420 beds in the Hospital are for those in very moderate circumstances, or those who are receiving municipal relief.

The rate per day, chargeable to the patient's parents (if able to pay) or to their municipality, is fixed at \$1.75. There are no extra charges.

Despite the fact that kiddies require especially expensive hospital care, the government allowances are the same as for those caring chiefly for adults.

So, each year, the Hospital for Sick Children appeals to you for a donation to help meet the deficit resulting from its service to the needy.

Remember, the Hospital receives no support from the Toronto Federation for Community Services, because patients are accepted from all parts of the province.

Mail a donation to-day to the Appeal Secretary, The Hospital for Sick Children, 67 College Street, Toronto.

The thanks of little children will be your reward.
