Scientists agree that properly made Bread is good for the teeth and bones. Recent laboratory tests prove this conclusively. These tests brought out that in children a diet high in refined wheat is by no means incompatible with excellent calcium and phosphorus retention.

DEATH STALKS OUR HIGHWAYS!

If every human life in a village of 800 people in the Province of Ontario were snuffed out in one day, newspapers throughout the entire world would carry the story of the ghastly tragedy.

If one of your loved ones—or even a friend—were a victim, it would become quite a grievous, horrible, personal loss!

That is precisely what is going on in Ontario this year. Nearly 800 people will be killed on our highways. Nearly 14,000 will be injured—many of them crippled; many of them suffering almost unbearable pain. Death and

untold suffering stalk our highways and this must stop!

RECKLESS DRIVERS BEWARE!

Motorists have been requested to be courteous on the road but the death toll mounts at an appalling rate. This Department, with the aid of our internationally famous police force and public-spirited citizens, intends to put reckless drivers off the road! You must stop cutting in, passing on hills and curves, crowding, racing, taking chances. Unless you have regard for the safety and convenience of other users of our highways you will soon find yourself in serious trouble.

MOTORISTS: WE ASK YOUR HELP!

When you see a motorist driving in a manner dangerous to the public, take his number, make a careful note of the actual time and place, and when you reach your destination write to the Motor Vehicles Branch, Department of Highways, Toronto, giving full details. We do not invite reports of minor infringements of the traffic laws; you are requested to use sound judgment. We will deal adequately with offenders!
