**POLIOMYELITIS**

Funds have been provided by the Ontario Department of Health for the launching of an experiment designed to assist in the prevention of infantile paralysis. The plan is in the hands of the Hospital for Sick Children and the School of Hygiene, University of Toronto, and an announcement on the subject has just been issued to every physician in Toronto. It is proposed to publish in the newspapers an offer to provide spraying of the nasal cavities of children under ten years of age whose parents forward a signed request form. Special clinics will be set up at the various hospitals and appointments may be made at a central office. No children will be treated unless a signed request has been made.

The solution used in spraying is harmless. It is to be repeated in two weeks if the epidemic continues, and the co-operation of nose and throat specialists will be sought in carrying out the plan.

The authorities regard the plan in the nature of an experiment. A systematic trial of which may determine its value in the prevention of polio in human beings.

The first clinic was held on Wednesday the first of September.

**DIMMING HEADLIGHTS**

Car drivers should not overlook the fact that the "Try Courtesy" slogan extends to the dimming of lights when meeting other cars after night. Bright blinding lights have been the direct cause of many accidents, and unless more care is taken in removing this hazard they will continue to be

the cause of accidents. Of late we have heard many drivers complain that other motorists have ignored the courteous gesture of dimming lights and there is a growing opinion that failure to recognize this gesture should be looked on as a violation of the Traffic Act and a summons issued accordingly. That these offenders have been allowed to escape so long is no reason why they should, being a menace to highway safety.

As we see the question the removal of this menace, other than wholesale court action, lies with the individual motorist. Courtesy in dimming headlights can be practised with beneficial results and failing this, a little compulsory action by the Department might help.

**COL. HUNTER IS NAMED TO SEEK RE-ELECTION**

Col. F. Fraser Hunter was chosen as Liberal candidate for St. Patrick's riding, Toronto.

Warm discussions, heckling and the eleventh hour withdrawal of Naife Stephens, president of the Lebanese Liberal association, marked the meeting.

Mr. Stephens said he had telephoned Premier Hepburn that afternoon to ascertain the colonel's standing in the party. "The premier urged the riding to get behind Col. Hunter. I was nominated tonight to speak for myself but in speaking for Col. Hunter I am speaking for myself", he said.

John Sinclair of Arran tp. was the choice of Bruce Liberals in Southampton on Saturday last, to contest his riding in the forthcoming election. The Liberals have nominated a strong man who has every chance to win the field again.

It fortunate for the politicians, the weather has cooled down, for the hot air of the speeches will make it warm enough for any normal elector.

The Dundalk Herald says the Conservatives are cheering their leader on with "Rowe brothers, Rowe," while in the Liberal camp, they are acclaiming "Hep-Hep Hepburn."

Both political parties are using the weekly press as an advertising medium, and they are wise, for nothing reaches the back concessions and sideroads just like the home weekly.

Premier Hepburn has announced a \$5 reduction in all auto licenses for 1938 and a new Liquor Control Board of three to be appointed to take the liquor question out of politics. A Supreme Court judge as chairman and a Conservative and a Liberal M.P. will be the personnel.

Everist M. Gallant a Toronto stock salesman, was in court in Hanover recently on a charge of having received valuable papers from Robert Mighton of Bentinck on terms requiring him to account for same, and that he failed so to do. Found guilty, he was placed on suspended sentence for one year on paying \$21.70 in court costs and making full restitution of the stock to Mr. Mighton.

**Department of Health of Ontario**

**"INFANTILE PARALYSIS"**  
(POLIOMYELITIS)

The Department of Health has a sufficient supply of Convalescent Serum for present demands. This serum is obtained from persons who have previously suffered from an attack of "infantile paralysis".

In anticipation of further requirements the Department now requests that persons who are willing to provide blood for this purpose (donors) register with the medical officer of health in their district.

The Department remunerates donors on the basis of Ten Dollars for 100 cubic centimeters; the usual amount withdrawn from one donor is 200 cubic centimeters. This can be readily obtained without discomfort or ill effects to the donor.

Children under fourteen years of age are not eligible. Persons who have suffered an attack of the disease during the present year are also not eligible. Those persons fourteen years of age and over who have suffered an attack within the past twenty-five years and who show some definite evidence of resulting paralysis, are requested to provide the medical officer of health with their name and address.

Those who have already acted as donors need not register again.

When a clinic is to be held, donors will be notified through their medical officer of health.

**And Hepburn said:**  
**"NO-MR. FARMER"**  
**"YES-SIR JAMES"**

What has happened to the promises Hepburn made to the farmers of Ontario before he was elected?

**Hepburn Promised the Farmers:**  
A special session of the legislature to deal with farm relief problems immediately after the election.

**What Hepburn Did:**  
Nothing! He said: "The farmers must stand on their own feet."

**Hepburn Promised the Farmers:**  
Help in improving livestock, grants to help agriculture.

**What Hepburn Did:**  
He wiped out the Farm Loan Board—stopped bonuses for pure bred sires and grants to junior judging competitions—cut off \$300,000 in grants made by the previous government to aid the farmer.

**Hepburn Promised the Farmers:**  
Wider markets and better marketing facilities.

**What Hepburn Did:**  
He closed the marketing agencies at Montreal, Winnipeg and in the Maritimes—closed Ontario House in London, England, which had created markets thereby increasing Ontario farmers' annual income by \$10,000,000.

**Hepburn Promised the Farmers:**  
A string of cold storage warehouses across Ontario, for the benefit of the farmer.

**What Hepburn Did:**  
Nothing!

**Hepburn Promised the Farmers:**  
Reduced taxation.

**What Hepburn Did:**  
He collected in taxation 80% more than was collected in the last year of the Conservative Government, of which the farmers paid their share.

**What is Sauce for the Goose**  
**... Is Sauce for the Gander**

**BUT**—while Mr. Hepburn was saying to the farmer "you must stand on your own feet" and was cutting off \$300,000 in agricultural bonuses, he was passing on a bonus to Sir James Dunn of the Algoma Steel Corporation of almost a like amount of the taxpayers' money.

Agriculture and industry are both vitally necessary to the prosperity and welfare of the Canadian people. The farmer says, however, that "what is sauce for the goose is sauce for the gander—why take away our bonus to bonus Sir James Dunn?"
