HEIRESS HELD AS HOSTESS
ABOARD MILLIONAIRE'S YACHT
 Two Girls Part of Contraband—Dus-
 ty Lanion Gun-Runner Suspected—
 Coast Guards Combing Florida
 Coves.
 Biscayne Bay! Vague reports are
 filtering through from this port that
 Janet Duane, daughter of the well-
 known millionaire is held hostage
 aboard her father's yacht, by 'Dusty'
 Lanion, lawless adventurer.
 It is believed that Lanion is con-
 templating a run to Cuba with
 contraband cargo destined for rebel
 forces. So far the coastguard have
 been unable to locate the yacht. It
 is believed to be anchored in one of
 the numerous coves on the Florida
 coast.
 For further revelations read "Ho-
 tage Heiress" by Davis Dresser, the
 first chapter of which will appear in
 next week's issue of the Review.

WEATHER CLEAR — TRACK FAST
 Seventy-two per cent of all fatali-
 ties in Ontario, according to the De-
 partment of Highways, occur when
 the weather is clear and the roads
 are dry; 70 per cent of all accidents
 happen when clear weather condi-
 tions prevail, and 66 % when the
 roads are dry.
 The fact that most accidents occur
 in clear weather and on dry roads
 may seem surprising at first glance.

FOR SALE
 Lot 15, Con. 15, Twp. of Egremont
 100 acres, —85 acres workable land;
 frame bank barn; frame house; situ-
 ated on County Road 2 miles from
 church, 1 mile from school. Apply to
 A. S. T. Eccles, Holstein, Phone 27
 Kalsley.

ROB ROY
 On Sunday last anniversary serv-
 ices were held at Glenelg Centre ap-
 list church, Rev. E. J. McEwen be-
 ing preacher for morning and even-
 ing services.
 Mr and Mrs Couling of Guelph vi-
 sited over the holiday with Mr and
 Mrs Jas. Brown.
 Mr and Mrs John McFarlane visi-
 ted with Mr and Mrs Neil McFarlane
 and Charlie and took in the anniver-
 sary services at Glenelg Centre.
 Mr. Robert Kirby of Guelph spent
 the weekend with Mr and Mrs Alex
 Kalsley.

HAMPDEN
 A few from this locality were in
 Hanover Sunday attending the organ
 recital in St. Matthews Lutheran
 church, in which they have had a
 new pipe organ installed.
 Mr and Mrs Wilfred Park and
 daughter, South Bentinck and Miss
 Ella Park of Toronto spent Monday
 at the home of Mr and Miss Geddes.
 Owing to Mr Geo. Pauli resigning
 as teacher of No. 8, the trustees were
 obliged to find another in short order.
 Among fifty five applicants Mr W.
 Lawrence of Stielburne was the
 choice. He will not begin his duties
 for a few weeks owing to the epidem-
 ic prevailing.
 Mr and Mrs John Laidlaw who
 have been spending their holiday at
 the Geddes home left Monday morn-
 ing for Toronto Ex. on the first lap
 of their journey home to Pittsburg,
 Penn.
 Mr and Mrs E. Litt of Carlisle
 district visited with the former's bro-
 ther, Mr Norman Litt recently.
 Misses Byers, daughters of Mr Jas.
 Byers have renewed their studies at
 Hanover High School.
 What might have been more serious,
 owing to a faulty steering rod, two
 young men belonging to the John
 Fleming Co. had a narrow escape
 when the truck, which was loaded
 with wood, took a turn over the fence
 into Mr Norman Litt's field one morn-
 ing last week. As it was, they were
 lucky to escape with a few scratches
 and bruises.
 Summer is ended. So says the
 weather man when he dished out the
 frost the other morning, and the chill-
 ness of the atmosphere brought a
 search for warmer undies.

Notice to Farmers
 We are in the market for
all Kinds of Grain
 Get in touch with us before you sell. We will send our trucks out for it.

The Ontario Department of Health
Presents a Statement by
The Academy of Medicine, Toronto, on
"INFANTILE PARALYSIS"
(POLIOMYELITIS)

Realizing the anxiety which exists in the public mind today with respect to the increased prevalence of Poliomyelitis ("Infantile Paralysis") in Toronto and other parts of the province, the Academy of Medicine of Toronto, which represents more than one thousand physicians, called a special meeting of its Council, September 1st, to review the whole situation. To this meeting were invited representatives from all departments of medicine interested in this subject.

At the conclusion of the conference, during which time all of the pertinent facts of the present situation were presented and discussed, it was felt that, in fairness to the public, an official statement should be made to set forth the facts exactly as they exist. To this end, a committee was appointed to prepare and issue an official statement, which follows:

Poliomyelitis ("Infantile Paralysis") is a communicable disease. It is definitely known that it is caused by the entrance into the body of a minute form of life known as a virus. It is known also that this virus enters commonly through the upper part of the nasal tract. There is no evidence that the disease is conveyed by flies or domestic animals.

When an outbreak of the disease occurs, healthy persons as well as those ill with the disease are found to harbour the virus in the secretions of the nose and throat. The disease is, therefore, spread through the contact of persons one with another.

Usually the virus occasions only a mild illness but sometimes the virus enters the central nervous system, which may result in paralysis. The majority of adults are not susceptible to the disease.

Present Situation
 While the number of cases reported in Toronto is greater than in any previous outbreak of this disease, and there is no reason to presume that the incidence rate is likely to decline within the next two or three weeks, it must be borne in mind that not 25% of these cases show any evidence whatever of paralysis. Furthermore, among those developing paralysis, the majority eventually will recover complete use of their paralysed limbs. It would appear, therefore, that while there is every reason for the public to view the present situation with concern, there is no justification for undue alarm or hysterical behaviour.

According to figures computed by the Department of Health, Ontario, to date, there are estimated to be 750 cases in Ontario, of which 285 have occurred in the City of Toronto. Of this number, 212 cases have been admitted to the Riverdale Isolation Hospital, only 54 of whom developed some degree of paralysis. There were 11 deaths in this group. Statistics of a similar nature apply to the Hospital for Sick Children, which has received its cases not only from Toronto but from other parts of the province.

Control Measures
 These include the strict isolation of all persons ill with the disease and the quarantine of those who have been in immediate contact.

In as much as it is not known who are or are not carriers of this disease, it is advisable to reduce to a minimum, contact with other people. In other words, keep out of crowds. As children are particularly susceptible, it is most important that they be kept as far as possible from mingling with other persons. For this reason, the opening of the schools of Toronto has been deferred and the Department of Health of the Province of Ontario has recommended to parents that they see to it that their children avoid attendance at theatres, playgrounds, bathing pools and beaches and other places of amusement where children congregate. The Academy agrees with the provincial and municipal health authorities that the responsibility for the control of the activities of children is primarily the duty of the parents.

The Department of Health of Ontario has completed within its own organization plans whereby serum for the treatment of this disease is available in any part of the province upon the request of the attending physician.

Nasal Spray
 Experimental work with animals indicates that Poliomyelitis can be prevented by spraying the extreme upper part of the inside of the nose with a harmless solution of zinc sulphate. This was discovered during the past year. To date, its value in the prevention of Poliomyelitis in humans is not known. To be in any degree effective, the spray must be applied high up inside the nose. This can only be done with a specially constructed atomizer and by a physician thoroughly familiar with this type of work. The application of this or any other spray by an ordinary atomizer or to the lower part of the nose is quite useless. The possible value of the nasal spray properly administered is being determined at the present time in Toronto.

The Council of the Academy of Medicine of Toronto endorses the attitude adopted by the provincial Department of Health and the local Board of Health in respect to measures designed to control the present situation. We would respectfully suggest that the general public will best serve its own interests by endeavoring to follow the advice which is being given by these health authorities.

Chas. A. Hair M.D.
 PRESIDENT OF
 THE ACADEMY OF MEDICINE
 TORONTO

FINGERPRINTS ON THE WALL

The heartbreak of finding a newly decorated nursery covered with sticky little fingerprints can hardly be equalled. The poets may write reams of copy about the thrill of the patter of little feet and tiny fingerprints on the wall, but poems do not remove the fingerprints.

When you decide to make a child's room the gay place it ought to be, be sure that your floor and wall coverings are easily cleaned.

Washable wall paper may be obtained in a variety of designs suitable for children's rooms. One ambitious mother decorated her son's room herself. The lower third of the wall was enameled in a modern shade of green and the upper part was finished in pale green, and against this surface, balloons of red, blue, green and yellow were stencilled. On the door a trained seal, balancing a ball on his nose had been painted.

Funds for redecorating and remodeling the interior of your home are now available under the Dominion Government sponsored Home Improvement Plan.

THE HARDEST HIT

The people who are the hardest hit today are the middle class people, says the Kingston Whig-Standard.

The rich, even after paying very high taxes, still have enough to let them live comfortably and luxuriously. The very poor are better looked after today than they ever were. It is the man on the moderate income who is trying to buy his little home, educate his family, keep up his insurance savings and trying to put by a little for the inevitable "rainy day" who finds the going hardest.

TO ALL STATIONS IN WESTERN CANADA Special Bargain EXCURSIONS
