Scientists agree that properly made Bread is good for the teeth and bones. Recent laboratory tests prove this conclusively. These tests brought out, that in children a diet high in refined wheat is by no means incompatible with excellent calcium and phosphorus

Give your children plenty of the delicious, wholesome Bread we bake. Eat it yourself-for health and enjoyment. And let us take care of your other baked goods needs, too. We produce a wide variety of fine quality products, always fresh and perfectly baked.

GO OUT ON STRIKE

Employees of Speisz Furniture Co. walked out Friday when the demands of the shop committee of the union were refused by J. J. Speisz head of the firm.

The union feel that there are several men who have been with th firm for many years and are experienced and thoroughly proficient their class of work and these men should be paid according to their ex perience and proficiency instead just the regular code scale of wages the same as inexperienced men are. Another demand is that there are two non-union men employed by the plant with whom the union men refuse to work and these two men should be dismissed.

The shop committee have interviewed Mr. Speisz on these subjects several times with no result. So the men decided to walk out.

The factory is closed and the men are on picket duty, and shortly after noon on Saturday, prevented the railways from moving a loaded car from the siding at the Speisz plant. Otherwise there has been no trouble

The busybodies who are always wanting to tax something which has 26 not been taxed before (and of course which they have not got) are now suggesting a tax on perambulators, It anything more is heard of this all 33 the babbies will be up in arms!
