White Man's Food Brings On Decay

Isolated Eskimos Found Free of **Tooth Trouble**

Most primitive Eskimos have little tooth trouble if isolated from traders and white men's food, acording to Dr. Taylor Pyle, U.S. Bureau of Indian Affairs supervising dentist for Alaska.

He said that dental cavities were rare among tribes isolated in Alaska while the Indian who has been in contact with the white men since coming of the Russians is constantly developing a toothache.

Free Dental Attention

As wards of the government, Eskimos and Indians receive free dental attention, Dr. Pyle said. There are about thirty-five practicing dentists in Alaska and Eskimo and Indian work is distributed among fifteen in widely separated districts. In addition, Dr. Pyle personally attends the more isolated communities, reaching them by plane, boat and dog team.

During four seasons in the far North Dr. Pyle has made a study of Eskimo teeth diet and living conditions in the

Hallowe'en Goodies

The Goblins Will Get You if You Don't Watch Out

goblins and black cats are abroad the youngsters will want to be out too. However, this is just about the best time for mother to throw a party at home for the young gang so that when irate neighbours wonder who broke their front gate and created other havic, you can be righteously indignant, knowing that your Johnny and George and Bobby were at home on the night in question.

The children do enjoy this evening of make-believe and appreciate it when their parents can enter into the spirit of Hallowe'en. Let them have a party, dressed in weird costumes dug out of attic trunks, give them plenty of games such as ducking for apples in a tub of water and pinnng the tal on the donkey. They can pop corn at the open grate. pull candy or make taffy apples too. But the grandest part of the evening to them will be the refreshments so give them goodies that apeal particularly 3 tablespoons butter to children.

The Chocolate Fudge Cake, for which we are giving the recipe below, not be enough brains for both, so only is an old favorite, especially for minutes. Strain. Combine lemon parties. On Hallowe'en it comes

Iodine Proves Best

Germ Destroyer

Iodine, the old-fashioned germi-

cide, has been shown to be the most

efficient germ destroyer when tested

with a number of the newer germi-

cides. The tests were made by Dr.

bacteriology at the University of

California. The germicides were

tested on two kinds of germs, one

a pus producer and the other the

organism that causes typhus. It also

was tested on embryonic tissues. The

latter tests were made in order to

ascertain to what extent the germi-

cides injured the healthy tissue while

they were engaged in the task of

killing the germs. Iodine led the list

in germ-killing tests and injured heal-

thy tissues least. Of the newer or-

ganic germicides hexylresorcinal was

found to be valuable for general use.

The tests were made primarily to de-

termine which germicide was best for

BE PERSONAL IN YOUR LINENS

THE LAURA WHEELER WAY

dressed for the occasion in a new orange colored frosting. Chocolate Fudge Cake

2 cups sifted cake flour 2 teaspoons baking powder

½ teaspoon salt 1/2 cup butter or other shortening 1 cup sugar

On the night when witches and 2 squares unsweetened chocolate,

1 egg, well beaten 1 teaspoon vanilla 4 cup milk

Sift flour once, measure, add baking powder and salt, and sift together three times. Cream butter thoroughly, add sugar gradually, and cream together until light and fluffy. Add chocolate and blend; then add egg and vanilla. Add flour alternately with milk, a small amount at a time. Beat after each addition until smooth. Bake in greased pan, 8 x 8 x 2 inches, in moderate oven 325 degrees F. 1 hour. Cover with Orange Butter Frosting.

Orange Butter Fresting Grated rind of 1 orange

Grated rind of 1/2 lemon ¼ cup orange juice 2 teaspoons lemon juice 1 egg yolk

3 cups confectioners' sugar, sirted Add orange and lemon rind to orange juice and allow to stand 10 juice, egg yolk, salt, butter, and confectioners' sugar. Add orange juice until of right consistency to spread. Beat until smooth and spread on cake. Makes enough frosting to cover tops and sides of two 9-inch

For small cakes, Chocolate Marguerites will prove very popular.

Chocolate Marguerites

1 cup sifted cake flour 14 teaspoon each soda and salt ½ cup brown sugar, firmly packed 2 eggs, well beaten 2 tablespoons butter

11/2 squares unsweetened chocolate melted.

1 cup finely cut pecans Sift flour once, measure, add soda and salt, and sift together three times. Beat sugar gradually into

beaten eggs. (Melt butter with chocolate and add to egg mixture; blend. Add flour gradually; then nuts. Turn into a greased small fancy pan. Place pecan half on each. Bake in moderate oven 375 degrees F. 10 minutes. Makes 2 dozen cakes.

A light, easily-prepared and much appreciated dainty for the Hallowe'en party are Jelly Jack-'O-Lant-

1 package quick-setting orange jelly powder 1 pint warm water

Dried currants

6 halves canned peaches, drained 6 marshmallows, flattened

Dissolve jelly in warm water. Fill wide sherbet glasses about one-third full and chill. Press currants into rounded side of each peach half to make eyes, nose and mouth of jack-'o-lantern face. When jelly is firm, place marshmallow in centre of each glass and cover with peach half, placing face-side up. Pour remaining jelly over peaches; chill until

Weird Afflictions, Strange Diseases Plague Mankind

A Doctor Turns Pink, Another Man Gradually Becomes Black -Puzzling Cases Known To Science

A doctor found the other day the

he exuded pink perspiration, which co. loured his clothing, and even turned his shaving paper pink, says Londer "Answers." He was suffering from chromides

and is the rarest known condition of the body. Very curious, too, is the result too. duced by another rare disease knows as schizophrenic stupor. The victie

which affects the perspiratory glands

takes no interest in life, and sits per fectly still until he is moved. The most malignant disease known to medical science is melanosia, it is worse than cancer, and absolutely is surable. The patient usually becomes swarty in appearance - due to a mesbid deposit of melanin, a dark brown or black pigment, in the tissues, Patro Polli died in St. Gies' Hospitan.

ter developing this disease. All Lit Up ! Miss Ella Ball must have found a exceedingly awkward when the era shut at intervals, so that for a time was suffering from an unusual catas.

rhal malady, which doctors were all to cure by the injection of a special " serum at the Central London Onlithal. mic Hospital. Scientists were puzzled by a lumb. ous woman, Anna Monaro, of Pirara, and

Italy. This strange phenomenon was produced by her dominating religious complex which disturbed the endre. cine or separator glands, and induesd certain salts of the blood to become phosphorescent. Dance-Band Cure After witnessing the killing at a man by his wife, an Irishman became

as rigid as a statue for months, other to the shock. While an inmate of m institution he was present at a dance held on St. Patrick's Day. The band struck up. Staggering into the middle of the floor he began to dance, and event-

ually made a complete recovery. Ernest Gardiner, of Buckingham, had extremely brittle bones, which were constantly breaking. He once broke his thigh by merely turning over in bed. Six of his many fractures or

curred in two years, in spite of the

fact that during that period he had not ventured to walk at all. Kenneth Swartz, of Bath, mother brittle boy, had only his logs affected, but at eight and a half years of ace he was in hospital for the cleventh time with a broken leg, having prov-

lously spent 500 days in hospital. John Davis, of New York, and Micholas Enbrich, are two men who speak without a voice. Each had his larynx removed and a voice by trovided. With practice, they found they could control the breath from the stomach, using the diaphragm as a sounding board.

Probably the strangest case in midcal history is that of a Devonehire ber who is gradually changing into a girl. This change has never proviously been known to occur in a white per-
