are not worrying over their "Merry Christmas", as far as their municipal seats are concerned. In fact the right people for these municipal seats are not worrying enough. There is at present a decided apathy as to aspirants for the civic seats. To hold a civic of fice should be a duty of any business man even though he (or she) attach little honor to it. Personally we would this, not because of any dissatisfaction with the present municipal board. but rather to see life and interest on election day and not so much acclamation. Acclamations may let the town off in election costs, but too many of them are bad for any town. They do not register public opinion.

As far as we we can learn, Mayor Macdonald has no keen desire for the shoals quite well. As for the reeveship, W. S. Hunter knows the ropes so well after several years in office, that no one seems keen to enter contest with him. It looks like a return trip.

The council board have been running but five strong since the death last May of one of their number,-Cameron Lauder. These five are Donald McQueen, Jas. Duffield, Bert Stoneouse, W. S. McGowan and Geo. McKechnie. They have all been faith ful to the town's interests, but the question is do they want the position again. Donald McQueen's name has been mentioned for the Mayor's chair also that of W. S. McGowan. A new name broached to us was that of R. L. Saunders, and all we can say to this suggestion is that should he prove a good a financier for the town as for himself, he is the right man for the

But these conjectures are merely street talk and the night of Dec.27th, is the night for the ratepayers to nominate their 1938 rulers.

## EARLY WINTER'S STORM

One of the worst December storms in many years as regards snow an zero temperature, has been the fate of Ontario in general and sections of it in particular. The Niagara Peninsula has been through one of the worst blizzards in its history traffic being at a stand still for days. The Government snow plows have been working overtime, in an effort to keep the highways open.

The Bruce peninusula was locked

their destination.
