

Scientist Tests Animals' Vision

Alligators and White Rabbits Lack Acuity of Eyesight

Alligators and white rabbits have poor eyesight as compared with man or with other animals and birds. John Warkentin of the University of Rochester, reported to the American Psychological Association meeting at Minneapolis.

Acuity of vision is usually expressed in degree of arc, a measure corresponding to size of type that can be read or the size of objects that can be distinguished at a standard distance.

Comparable to Man's Vision

Man, cottontail rabbits, chickens, ducks and pigeons have a keen acuity of eyesight expressed by 30 seconds of an arc, a figure comparable to man.

With this the alligator's vision is 100 minutes. Sin with 100 minutes, 60 seconds make up one minute, this means an enormous range in ability to distinguish fine lines. Objects must be of considerable size for an alligator to notice them.

Despite the excellent vision of the white rabbit, the white (albino) rabbit tested only 100 seconds.

Find Runaway Dog 660 Miles Away

G. D. Wills' wandering dog was all ready to come home Friday, to Tyrone, Pa., after an absence of more than a year in which he travelled about 660 miles.

The pedigreed animal disappeared from home, on August 8th, 1936. Last week Wills received a letter from Lester Halverson, of Leland, Ill., advising that Halverson had found the dog, starving on a roadside near Leland.

Wills readily agreed to pay the cost of shipping the animal back to Tyrone.

A Reducing Diet Based On Bread

Hamilton Women Conduct Successful Experiment on How to Reduce Without Hunger or Fatigue — Health Experts Will Check on Results.

How to reduce without hunger or fatigue on a diet that any woman can follow, has been discovered by a group of Hamilton women. Results of an experiment in reducing conducted under the supervision of a physician by 16 women in Hamilton, Ont., announced, show that the women lost in weight, amounts ranging from nine to thirteen pounds each.

Amazing feature of the diet followed by the women in the test was that it was based principally on bread, the one item usually avoided in the ordinary reducing diet.

The Hamilton experiment was conducted under the direction of Mrs. Thomas Taylor, mother of four athletic daughters and energetic exponent of personal health.

Five Times a Day

Organizing the group of women to test the bread diet which was already popular in Britain, Mrs. Taylor had the assistance of Dr. J. E. Tilden, Hamilton physician, who supervised the diet, examined the women before and after the diet period and recorded at their weights before starting and at the end of each week of the diet. Though the British diet popularized by Elizabeth Ann Loring used plain white bread, for the Hamilton experiment the group used a special loaf prepared from a recipe made up by Lloyd Jackson, cereal chemist. This bread was slightly higher in protein and mineral salt content than the ordinary loaf.

The diet consisted of two ordinary slices of bread with butter, five times a day. Twice a day the women drank half a pint of milk with the bread. They also had tomato juice and were

FOREIGN AFFAIRS

The position abroad is complex and difficult but one gets few hints of the tremendous desire for peace which is latent in all parts of Europe. I know of no European country where the mass of the people are sympathetic with the aggressive expressions of some of their leaders. In many countries, desperate economic conditions have created mass fear. Ruthless, cynical and irresponsible leadership is gambling to keep itself in power. Just as there are constructive psychological factors beneath the surface, so there are favourable economic forces at work. Those of us who continue to feel hopeful base our optimism upon the belief that idealism is not dead and that it cannot be long before economic reconstruction gives even those who are most desperate a breathing spell.

UNITED STATES

One of the most important questions of the day is whether the United States is merely experiencing an interruption in the long term trend of recovery, or whether the wheel has turned full circle and the country is again facing a major depression. In my opinion, fundamental conditions now and in the period immediately preceding the last depression are not comparable. One would be tempted to say without hesitation that the present setback is merely a temporary recession, were it not for the unfortunate lack of co-operation that exists between Government and business.

It surely cannot be long before a plan for practical co-operation between government, industry and labour will be adopted.

CONCLUSION:

Where the recent prosperity in the United States has been dependent mainly upon large-scale government deficits, the Canadian recovery took its origin from foreign trade.

Without doubt, prosperity based upon world demand for Canadian products is more soundly established than that based upon deficit spending. Sixty per cent. of our exports go to countries other than the United States, and even with a substantial decline in exports to that country, total Canadian prosperity should be only moderately affected.

On the whole, I look forward to 1938 as a year in which—barring some upset in international affairs not presently anticipated—I expect to see an improvement from present levels in the United States, and a further orderly economic reconstruction in many foreign countries. If this proves to be an accurate forecast, we can, I believe, look forward to further substantial progress towards full recovery in Canada.

GENERAL MANAGER'S ADDRESS

In reviewing the general Balance Sheet, Mr. S. G. Dobson, General Manager, referred with satisfaction to an increase of \$14,000,000 in total assets, a renewal of the upward trend in commercial loans and a growth of 190 million dollars in Royal Bank deposits in less than five years.

Conditions in Canada definitely improved during the year, said Mr. Dobson, the one dark spot being the drought areas in Western Canada.

Referring to the unfair criticism in Alberta, Mr. Dobson said in this campaign of misrepresentation, efforts have been made to stir up resentment against the bank, not in one single instance has any farmer or home owner in Alberta been deprived of his farm or home by this bank through foreclosure.

To demonstrate the wide diversity of services banks provide, Mr. Dobson took occasion to analyze certain of the bank's figures. At the end of the year, the bank had on its books loans to farmers totalling \$16,000,000, to retail merchants \$21,000,000, to professional men and other private individuals \$51,000,000. As a further example of the extent to which we facilitate the affairs of what might be termed the "smaller client", I may say we had loans outstanding to 61,000 borrowers whose liability to the bank did not exceed \$500 each.

In conclusion, Mr. Dobson said that a profitable year for business was clearly reflected in the Bank's own balance sheet for 1937.

Elephant Tusks Sold For \$4,000

MOMBASA, Kenya Colony, Africa—A pair of elephant tusks, claimed to be the heaviest in the Kenya Colony, has been sold to American interests for between \$3,000 and \$4,000.

The tusks, weighing 178 and 187 pounds respectively, were believed destined for a New York museum, possibly the American Museum of Natural History. They were seized from two men who were fined for illegal possession because the colony's game laws forbid the retaining of ivory from the interior.

New U.S. Ambassador

WASHINGTON. — The Senate has confirmed President Roosevelt's nomination of Joseph P. Kennedy to be United States Ambassador to Great Britain.

Kennedy, long one of the Administration's principal business advisers, will succeed the late Robert Worth Bingham.

HAVE YOU HEARD

In case you have forgotten it the name of this month, February, is taken from a Latin word meaning to purify . . . Was originally the month of purification . . . And there is as much need for that now as there ever was.

Optimists are, even now, dreaming about the fine vegetables to be grown in their garden this spring.

Boy—Say, Dad, how soon will I be old enough to do just as I please?

Dad—I don't know, Son; nobody has ever lived that long yet.

Thoughts—The things that come to the man who waits are usually not worth waiting for . . . The less a man knows the more he wants to tell it . . . Some people pray for more things than they work for . . . There is one good way to forget the faults of others—remember your own . . . Some people who think themselves a wit are only half right.

Wife—I wish I had talent; I'm just itching to write.

Husband—Well, why don't you sit down and try scratching a little?

It's a smart suitor, in February, who recognizes, in his fair companion, a June bride.

Policeman—Excuse me, sir, but if you're the "pale faced gentleman who looks like a lop-eared rabbit," I was to tell you that your wife has gone home on the 5.30 bus.

There is an off season for nearly all flowers except blooming idiots.

Young wife (affectionately) — I shall miss you while you are on your hunting trip, dear, and I shall pray that the hunters you are going with will do the same.

Professor—What do you know of the Latin syntax?

Freshman—Did they have to pay for their fun, too?

Read it or not—The Vatican in Rome, Italy, is the largest residence in the world.

Teacher (after erasing the decimal from a number)—Now, where is the decimal point?

Pupil—On the eraser!

Ticket Agent—This train, madam, goes to Atlanta and points South.

Madam—Young man, I want a train to Richmond, and I don't care which way it points.

Doctor—Well, my little man, you are quite well again. I was quite sure that the pills I left would cure you. Did you take them in water or sugar?

Boy—Oh, I used them in my peashooter.

Debtor

So long as my spirit still is glad of breath
And lifts its plumes of pride in the dark face of death;
While I am curious still of love and fame,
Keeping my head too high for the years to tame,
How can I quarrel with fate, since I can see
I am a debtor to life, not life to me?

Church Tries Talking Films

Whole Service Is Handled From Screen in Old English Cathedral

Talking pictures substituted for the regular evening service last week in Chichester's twelfth century cathedral. The first moving picture service to be presented in an English cathedral, the service was handled entirely from the screen after a brief opening ceremony by Very Rev. A. S. Duncan-Jones, dean of the cathedral.

In place of the sermon, the main film was based on Tolstoy's work, "Where Love Is God is." Other short films showed Biblical scenes and adaptations of parable.

The screen was hung in the nave. Acoustics of the ancient building — a mixture of Gothic, perpendicular and other mediaeval architectural styles—were good, experts who installed the apparatus declared.

One of our youngest stars—Betelgeuse—has a volume more than a million times greater than that of the sun.

CARRY YOUR ALKALIZER WITH YOU

IF OVER-EATING CAUSES ACID INDIGESTION—

Use it this way. Take 2 Phillips' Tablets—equal in "alkalizing" effect to 2 teaspoonsful of liquid Phillips' from the bottle. At once you feel "gas," nausea, "over-crowding" from hyper-acidity begin to ease. "Acid headaches," "acid breath," "over-acid stomach" are corrected at the source. This is the quick way to ease your own distress—avoid offense to others.

DO YOU FEEL SLUGGISH?

Maybe you need more bile

When you feel you haven't a friend in the world and life is not worth a red cent—that's the time your liver is getting you down. Don't fall for it. Make your liver behave.

Tanol Tablets will do the job. They act directly on the liver, stimulating the liver's production of bile. Comprising a special blend of certain laxatives, Tanol Tablets include a small proportion of calomel, probably the most effective liver stimulant known. In a day or two your liver is at work again as well as ever and you feel at friends with the world. All drug-gists have Tanol Tablets, 50c.

DO YOU FEEL SLUGGISH?

Maybe you need more bile

When you feel you haven't a friend in the world and life is not worth a red cent—that's the time your liver is getting you down. Don't fall for it. Make your liver behave.

Tanol Tablets will do the job. They act directly on the liver, stimulating the liver's production of bile. Comprising a special blend of certain laxatives, Tanol Tablets include a small proportion of calomel, probably the most effective liver stimulant known. In a day or two your liver is at work again as well as ever and you feel at friends with the world. All drug-gists have Tanol Tablets, 50c.
