instruction in easy lessons by mail.  
Send 25 cents for introductory lesson.  
Join the membership. Terms rea-  
sonable. Address—Archibald  
Pedden, Strathroy, Ontario.

### QUICK GARDENS

There are hundreds of annual flow-  
ers which may be satisfactorily planted  
by the person who is not going to  
stay long in one place. These annuals  
will make their full growth in a few  
weeks and bloom profusely from June  
until frost. Vegetable gardens, too,  
can be developed in a few weeks and will  
give ample returns in the same year.

Even a fair layout of grounds can be  
carried out by a tenant. Quick growing  
grass will make a very fine lawn in  
less than six weeks and one infinitely  
better than a patch of mixed grass and  
weeds. Especially during the  
early part of the season is cultivation  
necessary, and more particularly after  
each shower. With some of the many  
hand, horse or tractor-drawn garden  
cultivators on the market, this task is  
done quickly and without the old time  
backache.

### FORGET-ME-NOTS

A few sweet herbs in a corner of  
the garden will be welcome kitchen

material. They are inexpensive when  
grown from seed.

### EARLY VEGETABLES

The first of the garden peas, leaf

lettuce, radish and spinach will be

like among the earliest vegetables sown.

These may be planted as soon as the  
ground is fit to work. All of the first
