

Funeral of Mrs. G. Ritchie

A large number of people were present at the funeral of the late Mrs. George Ritchie last Tuesday. A private service was held in the home and the public service was held in Zion Church and conducted by the family pastor, Rev. W. H. Smith and assisted by Rev. R. G. Halbert and Rev. Mr. Newman of Elmwood.

The remains were laid to rest in Zion cemetery by six nephews: Messrs. W. J. Ritchie, W. E. Ritchie, Lorne McNally, Thos. Cook, Joseph Firth, and William R. Weir.

Geo. Burnett Laid to Rest

A large concourse of mourners, including many school chums, attended the funeral last Thursday of George Burnett, the fourteen-year-old son of Mr. and Mrs. G. S. Burnett.

At present the Conservative party in Canada is going through its zero hour, divided in factions, policy and outlook. It is not the first time however, the temperature has been low, and doubtless it will find a way out of the quagmire, as in the past.

CONSERVATIVE PARTY AT SIXES AND SEVENS

The Ontario Conservative camp is even divided into two factions, ultimatums threatening the Provincial President, W. H. Ireland, to the effect that if he does not call a general meeting, on or before June 15, an anonymous committee will make "an intensive and thorough campaign in the province to force the issue."

And that's that. There is likely to be some fireworks in the camp before the National convention convenes in July at Ottawa.

Friends present from a distance were: Mr. and Mrs. Ed. Burnett, Hanover; Wm. Black and son, St. Marys; Mrs. Tom Cowan, St. Marys; Mr. and Mrs. Art. McDonald, Acton; Mr. and Mrs. Willard McDonald, Hepworth; Mr. and Mrs. Glen McDonald, Chatsworth; Mr. and Mrs. Conley Sr. and Mr. Moffat, Mr. and Mrs. Ivan Conley, Wednesday night, there will be no all of Holyrood; Mr. and Mrs. Wm. Burnett, Mr. and Mrs. Lorne Smith, Miss Kearns, all of Mount Forest.

\$140,000 RELIEF BUDGET IN MIDLAND THIS YEAR

The Midland Free Press says: "Midland's gross relief budget for 1938 will be \$140,000. So the town council decided after a long debate on Wednesday evening last. This is a reduction of \$10,000 over 1937, and of \$20,000 over 1936 relief costs have dropped steadily for some years.

THANK YOU, C. P. R. That virile Canadian corporation, the Canadian Pacific Railway, has our thanks for a splendid series of ten books, which will add wealth to the "Review" library.

SCHOOL GRANTS RISE EFFECTIVE

Duncan McArthur, Deputy Minister of Education for Ontario announced general increases in grants to public and separate schools, forecast recently by the Minister, Hon. Dr. L. J. Simpson, had been put in effect.

A FACT A WEEK ABOUT CANADA

GREAT OAKS FROM LITTLE ACORNS GROW, and claims worth a couple of hundred thousand dollars a year to Canada from tiny creatures which at two weeks old are only about one twentieth of an inch in size.

Clams go upon the market both fresh and canned. Many of the fresh clams go to the United States. The "little-necks" of New York restaurants, a delicacy eaten raw, are young clams of the "quahaug" family and are not larger than half-dollar pieces.

There were 72,000 barrels of clams taken from Canadian waters in 1936. About 42,000 barrels were marketed fresh, the rest being canned or made into chowder.

New Products In recent years we see much of synthetic fibers, since they tend to modern living and daily lives more than some of the necessities of life we can get from nature, but we seem fit to supply us everything we need. And in the case of one which nature has supplied in sufficient amounts. She has supplied the necessary raw material from which man can make what he wishes, if he only knows about the job.

Through years of research, the chemist has learned how to take apart the sea, rocks and mineral animals, and — while important — how to make "bricks" and "blocks" make synthetic materials.

Certain of these man-made materials with those supplied by nature, the chemist has found a time, which could be guided from the even by the of far-away Fort. ferent, however, we made fibre, rayon, which makes from the from the spruce or linters. This synthetic by a process known as by the silk we times made in filam.

Advertisement for Veterans' Clubs. The same law... Clubs form a valuable part of our social structure. They encourage co-operation and mutual understanding. Many of these clubs are granted authority by the Liquor Control Board to serve beer to their members. To many of them, especially Veteran and Labour Clubs, this provides useful assistance in improving the accommodation in their premises and increasing the scope of their good work. The opportunity which these clubs provide for relaxation is provided also in hotel beverage rooms to those not fortunate enough to be members of a club—but to whom relaxation is as essential. The same law provides for both. The present law permitting Veterans' Clubs to sell beer to their members has been of great assistance in maintaining suitable club rooms and has enabled them to expand their efforts to assist ex-service men and overcome their economic difficulties and physical handicaps. —Thos.
