#### THE CREAM TESTER

Is a job that's mighty bad, You can make a farmer happy You can make him very mad. If his cream is grading Special, And the test away up high, He kicks about the price a bit, But will never breathe a sigh. If his cream is not so fancy And you grade it Number Two. He takes his can and thunders That he is through with you.

If the test is sometimes lower All the blame is laid on you: Someone has turned the separator And never touched the screw. They most always blame the tester For the law, the State has made And they do not understand it If their cream is not first grade. There are some that always tell you When they step inside the door, Just a day or two before. There are some that understand it If their cream is thick or thin, They take their cheque and tell you They'll be seein' you again. And here's sincerely hoping When their work on earth is done. That St. Peter's test will suit them And they'll all grade Number One

#### FALL FAIRS, 1938

## World's Largest Radio Marks Jubilee

TO mark the Diamond Jubilee of the Canadian National Exhibition at Toronto this year there are many unique features among which is the World's largest Radio-with an animated stage built in, on which a Marionnette performance is produced eight times each day, and two special performances for children on Children's Day.

This gargantuan Radio Set, 16 feet high and 6 feet wide, is an exact copy of the new Northern Electric eighteen-tube Radio Receiver and is placed in the Company's Booth in the Electrical Building. In this Booth also is the "Talking Mirror," an ingenious device which speaks to those who use this conveniently placed mirror and invites them to view the new Mirrophonic Radios on dis-
