### Art Success

#### London Gallery — Every Province Takes Part in Exhibition

Canada's art show — "Century of Canadian Art" — in London's famed Tate Gallery has been a pronounced success, H. C. McCurry, of Ottawa, assistant director of the National Gallery of Canada, said last week. The exhibition includes canvases painted in every province in the last 100 years.

Mr. McCurry, just back from England says the Canadian group was the first Dominion exhibit to be honored with a place in the Tate Gallery. It drew a greater attendance than any recent exhibition there, and the closing date had to be extended twice. The show will close in January.

### British Excited About It

The show was opened on schedule October 14 by the Duke of Kent despite the international crisis which had made preparations difficult.

Mr. McCurry who made preliminary arrangements for the exhibition, said British art experts are taking a keen interest in the best Canadian work "and it would not be surprising if more Canadian pictures are acquired by British galleries as one result of the exhibition."

Six years ago, Robert Montgomery became interested in cameras. Today he has a complete outfit for color photography as well as black and white. He can usually be found at his home taking pictures of his garden, his children or his home, when no busy at the studio.

### Recluse Never Opened Parcels

Collected Over a Period of Years, House of Retired Bank Employee at Newmarket, Ont., Was Full of Purchases

The executors of Edgar A. Bogart's estate, after two weeks of work, still didn't know the full value of the property left by the 75-year-old retired bank employee who lived the life of a recluse.

When the executors entered Bogart's home at Newmarket, Ont., after his recent death they found the house jammed with furniture, coins, weapons, china, clothing, newspapers and oddities collected over a period of years. A staff of men has been attempting to catalogue the assorted objects for the past two weeks.

### Certain Feeds Give Butter Odd Flavor

Feeds that will affect the flavor of the butter and which should never be fed to milk cows: Decayed ensilage and roots, heated, musty or mouldy hay, etc. Leeks, onions, weed seeds. French weed or other strong feeds. Feeds such as turnips, turnip tops, rape, or rye may be used if fed after milking. If a period of four hours elapses between the time the feed has been eaten by the cow and the time of milking no taint should be noticeable in the milk or cream. Washing utensils with unclean, foul smelling wash-cloths.

## Sunday School Lesson

LESSON II  
PETER COMMENDED AND REBUKED  
Matthew 16: 13-25  
Golden Text—Thou art the Christ, the Son of the living God. — Matt. 16: 16.

**THE LESSON IN ITS SETTING**  
Time.—In the third period of the Galilean ministry, autumn, A.D. 29.

Place.—At or near Caesarea Philippi, in the northern part of Galilee, south of the foot-hills of Mt. Hermon.

A year and one half, which is almost one half of the entire period of our Lord's public ministry, has elapsed between the events of our last lesson and the epochal event which we are about to study in this lesson.

13. Now when Jesus came into the parts of Caesarea Philippi, he asked his disciples, saying, Who do men say that the Son of man is? After months spent in teaching the apostles about his person and mission he gives them a choice, a test concerning the explanation of it all. It has been probably two years since he chose them as apostles. By this time they ought to know their own minds.

14. And they said, Some say John the Baptist; some, Elijah; and others, Jeremiah, or one of the prophets.  
15. He saith unto them, But who say ye that I am? This was a decisive moment in which the separation of the New Testament church from the Old Testament theocracy was to be made.

**Peter's Great Confession**  
Matt. 16: 16. 16. And Simon Peter answered and said, Lord, thou art the Christ, "Christ" is the Greek synonym for the Hebrew word "Messiah". All those of the Old Covenant knew that when the Messiah would come peace would reign, justice would prevail, the wilderness would be changed into a garden, wars would cease, there would be no darkness or night. The Son of the living God. Peter in these words goes even beyond ascribing Messiahship to Jesus; he considers him to be the very Son of God.

**Divine Revelation**  
Matt. 16: 17-20. 17. And Jesus answered and said unto him, Blessed art thou, Simon Bar-Jonah; for flesh and blood hath not revealed it unto thee, but my Father who is in heaven. The Lord means that recognition of his Messiahship and Sonship is not brought about by human logic, but that it is a divine working in the human heart and mind, a work of revelation, by which such an acknowledgment is made.

18. And I also say unto thee, that thou art Peter, and upon this rock, the word "petros," meaning "the rock." I will build my church. We should notice that Christ declares he will be the one who will build the church. Jesus is the architect, and the verb suggests the continued activity of the living Christ in giving out his design.

The foundation of the church is made up of the apostles and prophets, Christ himself being the chief corner-stone. (Eph. 2: 20). What the Lord really meant is that not upon Peter but upon this confession of Peter concerning the person of Christ he would build his church. And the gates of Hades shall not prevail against it. The passage implies conflict with the kingdom of evil and victory over it; but its leading thought is the triumph of life over death, of the kingdom of the resurrection over the usurped reign of the king of Hades.

**Keys to the Kingdom**  
10. I will give unto thee the keys of the kingdom of heaven; and whatsoever thou shalt bind on earth shall be bound in heaven; and whatsoever thou shalt loose on earth shall be loosed in heaven. The keys of the kingdom of heaven are first of all the gospel of salvation through Jesus Christ. By this means men are admitted into the kingdom. He was conferring power for saving and not for barring from salvation.

20. Then charged he the disciples that they should tell no man that he was the Christ. He now desired that he should move on and finish his work on the earth, dying, rising again from the dead, and ascending into heaven, before the disciples should go out and preach Christ; then men would fully know what receiving Christ meant.

Matt. 15: 21-25. From that time began Jesus to show unto his disciples, that he must go unto Jerusalem, and suffer many things of the elders and chief priests and scribes, and be killed, and the third day be raised up. Jesus was not, as some men claim, taken unaware and put to death. He knew from the beginning what would be

### Occupants of Canada's Most Northerly Outpost

Two R.C.M.P. officers enjoyed a large and appetizing Christmas dinner this year in company with their four fellow-occupants (Eskimos) of Craig Harbor, Ellesmere Island, Canada's most northerly outpost. Ptarmigan replaced turkey on the menu and all Christmas greetings arrived by mail. Three of the Eskimos appear in the top photo. Below you see Lance-Corporal R. W. Hamilton, of the R.C.M.P. with the fourth Eskimo. No mail will arrive at Craig Harbor till next summer.

his experience for he came definitely to die for us.  
22. And Peter took him, and began to rebuke him, saying, Be it far from thee, Lord; this shall never be unto thee. This word was a word of love.

23. But he turned, and said unto Peter, Get thee behind me, Satan: thou art a stumbling-block unto me; for thou mindest not the things of God, but the things of men.  
24. Then said Jesus unto his disciples, If any man would come after me, let him deny himself, and take up his cross, and follow me. 25. For whosoever would save his life shall lose it; and whosoever shall lose his life for my sake shall find it. There is no discipleship without self-denial both in the easier form of starving passions and desires, and in the harder of yielding up the will, and letting his will supplant ours.

or 8 per cent. Total production for the first 11 months of 1938 is now estimated at 83,281,303 lbs., the highest on record, and compares with 77,023,660 pounds in the first 11 months of 1937.

**Less Cheese Made**  
The trend in recent years in Canada has been toward greatly expanding butter production and reducing the quantity of cheese manufactured. That a lesser decline in cheese output would have been to the advantage of the dairying industry is now generally conceded, and efforts to build up cheese production and regain former export volume are considered by many as most desirable.

Germany has fixed a 600,000-pound quota on Quebec eels that will not be filled before next March. To Sweden and Belgium smaller shipments are made, although the Belgians' national dish is a preparation of baked eel.

Small hats with pleated fan effect in front promise to become popular in Paris.

### Ontario Cheese Production Up

But Total Cheddar Output For Canada in 1938 is Less Than Previous Year

The quantity of Cheddar Cheese manufactured in Ontario in November was reported at 4,998,053 pounds as against 3,625,323 pounds in November, 1937, a gain of 1,373,000 pounds or 38 per cent. Production for the first 11 months, however, is considerably below the level of a year ago, the total being 83,113,349 pounds this season, as compared with 91,456,962 pounds a year ago.

**Prognosticator Sees Cold Spell**  
FORT ERIE, Ont. — They scoffed at William Henry Wintmute, Bertie Township farmer, last September when he predicted that this autumn would be the mildest in years, but he had the last laugh when he showed the scoffers violets and lilacs blooming on his farm in December.

Spurred on by his success, Farmer Wintmute has now made his prediction for the next three months, which, he said, will be cold. He bases his predictions on the condition and location of milts in hogs—a system he claims is infallible.

### Too Little Beef, Too Many Legs

Department of Agriculture Official Says Canadian Cattle Have Not Been Fed Nor Fattened Up Enough For Market

Too little beef on too many legs has been on big trouble with the Canadian cattle industry, in the judgment of A. M. Shaw, Ottawa director of markets for the Dominion Department of Agriculture.

There has been insufficient grain fed to Canadian cattle to provide "a reasonable level of beef quality or a sufficient regular supply of grain-finished cattle to meet the best demands of the domestic and export trade," Mr. Shaw declared in a paper before the prairie markets conference.

**Feed Them More Grain**  
He informed the conference, that is studying the lack of markets for western farm produce, that a great deal more grain could be consumed by fewer cattle to the advantage of the industry. An increase in cattle numbers was not altogether desirable and certainly not necessary to a substantial increase in grain consumption, he said.

### Fatten Up Your Horse For Sale

It's a Good Plan to Add a Few Hundred Pounds to the Animal

In fitting horses for Spring work it may not be necessary to fatten them, or burden them, so to speak, with excessive fat, but when it comes to courting a sale at a remunerative price, it is a good plan to add a couple of hundred pounds to the animal. Extra fat on a horse will not deter him from engaging in heavy work, and it is just as well to have the animal in a condition that will always command the best market.

**Fetches Better Price**  
A highly finished animal may not always be the fittest for immediate hard labor, but it is plainly evident, at horse sales, that horses in full fleshed condition command better prices. Buyers will bid for flesh, and it is daily demonstrated that it does not pay to offer unfitted animals for sale. Bidders at a sale will run up the price of an animal that is sleek and well covered. It is therefore the business of the seller to prepare his offering to suit the buying public.

### Are You Listening?

By FREDDIE TEE

**YEAR'S LEADING NEWS FIGURES**  
Lowell Thomas, Edwin C. Hill and Walter Winchell, NBC news commentators, put their heads together at the National Broadcasting Company to pick the ten leading news personalities of 1938. These three veteran reporters and commentators decided that the ten big news makers of the year were nine men and a horse. Here is their list:

1. Adolf Hitler
2. Neville Chamberlain
3. Franklin D. Roosevelt
4. Douglas Corrigan
5. Pope Pius
6. Thomas E. Dewey
7. Seabiscuit
8. Alfred P. Sloan, Jr.
9. Walt Disney
10. Henry Armstrong

**PIANO BEST BACKGROUND**  
If you want to be a composer, take up the piano!  
"The pianist has a head start on players of other instruments as far as composing music is concerned," says the famous "King of Jazz" — Paul Whiteman, whose program is heard over CBS every Wednesday night. To prove it, he cites the following composers: Ferde Grofe, for instance, earned his first claim to fame as the original pianist in the Whiteman Orchestra. Duke Elling-

ton is one of the top pianists of his race. CBS's Walter Gross is considered one of America's ace classical and swing keyboard masters. It was Gross who played Gershwin's difficult "Concerto in F" in Whiteman's all-Gershwin concert over CBS last summer. If you go back into musical history," says Whiteman, "you will find that nearly all composers played the piano. It is more natural for a pianist to compose than, say a violinist, because the pianist has to know his harmonies perfectly — and the knowledge of harmony is the foundation of creative writing."

### Sanctuary

There is a land of dreams  
Wherein soft desires  
Burn fragrant fires,  
Where the bright thought gleams.  
And the mind can retrace  
On swift, impassioned feet

The path of Memory, sweet  
With perfumed petals of a hal-  
lowed place.  
There, oh there only, can we wig  
Our peace at last,  
Alone with the Past  
And dreaming therein.  
—Eileen Fifer, in Poetry of  
Today.

### THIS CURIOUS WORLD

By William Ferguson

**The MOON**  
OFTEN APPEARS TO BE SAILING THROUGH THE CLOUDS!  
AS A MATTER OF FACT, IT IS ABOUT 100,000 TIMES FARTHER AWAY.

**The FEATHERS OF PENGUINS RESEMBLE SCALES.**

**PLANT BREEDERS HAVE DEVELOPED AN ODORLESS CABBAGE.**

THE penguin is a bird of paradoxes. Its feathers resemble scales. It has wings, but does not fly, using these appendages for swimming. On land, it walks erect, or slides over the ice on its stomach.

**NEXT: How many different species of native trees has North America?**

### Chinese Barricade

- HORIZONTAL**
- 1, 6 Lengthy man-made barricade.
  - 9 Less reluctant.
  - 11 Intention.
  - 12 Away.
  - 13 Flux derivative.
  - 15 Moor.
  - 16 Befalls.
  - 18 Railroad.
  - 19 Third-rate actor.
  - 20 Form of "be."
  - 21 It is 2550 long.
  - 23 Vertical.
  - 27 Ingenuous.
  - 29 Tea.
  - 31 Slow (music).
  - 33 Rubber wheel pad.
  - 34 It was built in the century B. C.
  - 36 Needy.
  - 37 God of war.
  - 38 To make ready.
  - 40 Circle part.
  - 41 To maintain.
  - 43 Council.
  - 45 Successive relief supply.
  - 47 Prophet.
  - 49 Inclination.
  - 51 Proverb.
  - 52 To soak flux.
  - 53 Otherwise.
  - 54 Loom slackening bar.
  - 55 To observe.
  - 56 Fixed courses of study.
  - 57 Fixed courses of study.
  - 58 Ozone.
  - 59 Side bone.
  - 60 Drone bee.
- VERTICAL**
- 14 Frost bite.
  - 15 It extends along the Northern coast of China.
  - 16 Bundle.
  - 17 Bad soft coal.
  - 19 Bees' home.
  - 21 Marvels.
  - 22 Plotters.
  - 23 Sycophant.
  - 24 Chart.
  - 25 Widest.
  - 26 It was built by — labor.
  - 32 Drone bee.
  - 34 Three.
  - 35 Arid.
  - 38 One that pays.
  - 39 To come in.
  - 42 To bail.
  - 44 Part of a shaft.
  - 46 Epoch.
  - 48 Sheltered place.
  - 50 Born.
