

HAMPDEN

FERDINAND BREUTIGAM

day last, March 4th witnessed the passing of Mr. Ferdinand Breutigam, the Great Beyond. He at the sixty-third birthday a few days ago. A man who will be much missed in the family circle and the community having lived his life in and around this locality in a genial and friendly manner, a worker in the different branches of life socially and in the management of which he behaved with the office of a number of years. He was a native farm life a few years ago, not feeling in the best of health, a weakened heart, and wife and daughter moved to the home of Mr. William Mather, at Hamlet, where he was given the sympathy goes out to his family. He was married to Miss Mabel Snider, who died in 1916. He has three children, Mrs. Mather (Beatrice); Mrs. Gladys; Harold Mather at home. He was a member of the Hamlet Baptist Church and a member of the Hamlet and a brother of Mrs. Mather. He was a member of the Hamlet Baptist Church and a member of the Hamlet and a brother of Mrs. Mather. He was a member of the Hamlet Baptist Church and a member of the Hamlet and a brother of Mrs. Mather.

THE DURHAM REVIEW

PRICEVILLE AND VICINITY

PRICEVILLE Priceville Wins Twice to Tie Flesherton

Fighting to avoid elimination, Priceville after being two games down, pulled into a tie with Flesherton at two games each, by winning third and fourth games of the Semi-Pro Hockey League finals; the one 2-0 in Durham Friday night and the next 3-2 in Flesherton Monday.

Friday's game in Durham was played on soft ice, and was fairly fast. Priceville had a slight edge and were adept at clearing the puck when their goal was threatened.

In Flesherton Monday, Priceville made it two straight in a fast contest. Priceville earned the victory when after Flesherton had edge in first period and scored only goal, they came back with two in 2nd and one at start of last frame.

- 1. Flesherton-Johnston 2. Priceville-D. Turnbull (Bell) 3. Priceville-Frook 4. Priceville-Bell 5. Flesherton-Teeter (Welton) Referee for both games-Buck Singleton, Markdale.

Priceville: Goal, McMeekin; defence, Frook and McLean; centre, Bell; wings D Turnbull and E Turnbull; alternates, Carson, O'Dell and Ibbotson.

Flesherton, Goal, Henry; defence, R. Johnston and A. Hopkins; centre, N. Johnston; wings Welton and Teeter; alternates, D Hopkins, Seeley Russell.

SWINTON PARK

And still it snows and blows! The roads are so high you would think you were travelling on an elevated track, as you look down over the fields.

School attendance is very irregular. First of March only 4 were out, and again on the 6th, a very few. Mervin Little, the teacher, runs to school as if he was sent for, and home as if he were of a good dinner.

Sunday was fine, and a goodly number got out to church and enjoyed the service, which was conducted by a stranger, supposed to hail from Owen Sound, and with him, another gentleman, who sang a fine solo. The names we have not. On Sunday next, March 12th, communion services will be conducted at usual hour by Rev. Mr. Taylor.

Mrs. George Duncan of Dundalk, spent the week-end with her mother Mrs. Ferguson, in the Park. Miss Marjorie McLeod of Durham Red Cross hospital, is spending a week of holidays with mother and brothers here.

Mr and Mrs Aldcorn have moved back to the Park and a wee hoose by the side of the road. Robert Lee of Priceville is finding the roads very bad for moving stock and equipment across those sideroads to the Aldcorn farm.

Will McMillan was called on Sunday to assist his son Jack near Priceville. Jack, wife and children were all down with measles. Mrs. McKay, who underwent a serious operation in hospital in Toronto February 24th, is reported making satisfactory recovery.

Wm. Kinsman and son Lloyd are cutting wood for John Aldcorn. Farmers are beginning to seek men for the spring work. Lambs are coming. Hardy Bros. have 10 lambs with five ewes, and others we hear of with good increase and no losses.

School trustees are again considering engaging a teacher of music. We read in last week's Review of Mr. Pentland's sorrow over the ignorance of the rural trustees of his Inspectorate, because they did not all jump when he cracked the whip over consolidated schools, or by what name he may call them. In these six townships of which he spoke, there will be 60 or more schools; in each 3 trustees; thus the judgment of 180 experienced men, whose opinions are unanimously pitted against his freshest thoughts, should cause him to think once again of a busload of children on the 1st of March, driving 7 or 8 miles on drifted roads. It is nice to go out only on fine days and fair roads, as Mr Pentland does.

Glencly Council

Met at Tp. Hall on March 4th. All members were present. Letters were read from Dept. of Highways acknowledging receipt of statement as to road expenditures in 1938; From the same source, a summarized statement of total amount approved for provincial subsidy at 50%, said total amount being \$10,488.96. A FACT A WEEK ABOUT CANADA

CANADA'S APPLE INDUSTRY It is now ninety years ago-to be exact it was in 1849-that the first export of apples from Canada was made by packet from Nova Scotia to England. However, the cultivation of apples in Canada was made by the early settlers. Of the varieties used by the French of the early days it is believed that the only survivor of commercial importance is the Fameuse, or Snow Apple, a delicious fruit used for both cooking and eating.

Apples trees were planted in Nova Scotia before 1663, for in that year Pierre Martin set out a number of trees in the Annapolis Valley opposite what is now Annapolis Royal. At the time of the British occupation of Nova Scotia by the New England settlers in 1760, apple trees were found growing throughout that valley and the English took up the crop as a commercial possibility. They imported varieties from France, the McIntosh Red originated at Dundela, not far from Ottawa. there will be a substantial number of entries of baby chicks at the show. The most recent expansion of commercial production it has been in British Columbia. The commercial production of Canada is now very large. Last year it was about fifteen million bushels.

IN DAYS OF YORE

25 YEARS AGO (from Review file, March 5th, 1914)

Sir Geo. W. Ross has had a relapse and the end is expected any day the physicians say. Mr. Richardson, foreman in the Furniture Factory, has purchased a lot of forty feet frontage from Dr. W. C. Pickering, next the river on Lambton St. He will probably build this summer.

The two closing days of February were very mild and therefore exceptions to the most of the month. Sunday and Monday, the first two days of March brought Zero weather again, accompanied by destructive winds in some parts. In Protton, windmills were blown down and other damage.

Friday evening last the Foresters' Hall, Dornoch proved quite inadequate to hold the crowd that came out to hear Railway discussed and for nearly three hours they heard lots of it. For that night Dornoch was the hub and Owen Sound and Durham merely suburbs. Interest in the meeting was intensified because the whole of the Hentick Council were expected and they were there, Clerk and all, proving as Reeve Brown said, that there was some electricity in them after all.

Mr. Alfred Redford and family from Mulock have moved into town and taken up residence on Elgin St. CAMPBELL-ALJOE - In Durham, at the residence of Mr John Schultz, on Wednesday, February 25, Mr Robt. Campbell to Miss Ada Aljoe, both of Durham.

Jr. 4th -Edna Browning, Stella McCrae, Clarence McGirr, Harold Sharp, Jemima Lawrence. Priceville Corr: A meeting of the congregation of the Presbyterian church, Priceville, is called for Wednesday, March 11th, at 7.30 at night to take into consideration the fixing up of the sheds in better condition than they are at present. The managers thought it wise to consult the whole congregation before taking any action thus the necessity of all that can come to be there and Brown, milk, \$2.52; Robt. Morley, not fault finding afterwards. The potatoes \$2; Durham Creamery, milk pairs will probably cost some 400 \$5.00; L. McFadden, hauling wood \$7.20; J. Newell, rent \$5.

McLean and Stohart were to ship a carload of stock this Monday but on account of the storm will be delayed a few days. Hugh McPhail sold a fine horse at Markdale fair on Thursday of last week for \$135. Same animal would have brought him \$200 not many months ago.

GOHEEN-CAMPBELL - At the residence of the bride's father, Swinton Park, by Rev. J. A. Matheson, B. D., Feb. 27th, Samuel Goheen to Florence Campbell. Holstein Corr: Rev. Dr. Marsh is billed to give astronomical lectures in Guelph and Hamilton next week on Tuesday and Friday respectively.

As a preventive to possible spread of the fever in the village, the school has been closed down on Tuesday afternoon and thoroughly disinfected. The patients of the madaly are improving nicely. A piece of rubber placed in the stove of the town hall on Tuesday night last was instrumental in having the mystic A. G. Woods Company pack their trunks and leave the village the next day. They had phoned for a week's visit behind the local footlights, but the frosty reception coupled with the delicious odor of rubber sent them packing to Durham, where they spent the rest of the week.

TO SHOW BABY CHICKS AT SEED SHOWS

An entirely new feature is to be introduced at the Lambton County Seed Fair to be held at Petrolia, Ontario, from March 7th to 9th inclusive, and at the Middlesex County Seed Fair to be held at London, Ontario, March 13th and 14th. This is to be a baby chick show under the auspices of the Ontario Hatchery and Poultry Association. While the entries of baby chicks from members of the Ontario Hatchery Association in the districts where the shows will be held, will be on a competitive basis, the principal purpose of the displays of baby chicks is educational, in order to demonstrate the value and merit of properly produced birds. It is expected that there will be a substantial number of entries of baby chicks at the show. The most recent expansion of commercial production it has been in British Columbia. The commercial production of Canada is now very large. Last year it was about fifteen million bushels.
