LOCAL AND PERSONAL

What might have been a serious accident happened on Tuesday night as Ilyene Esle and Keith Dickson from Orchardville were going home from school.

There was no Community Circle on Monday night so many having the flu, that it was thought wise to skip a week.

Miss Ruby Kerr of Toronto was visiting her mother Mrs F. Jordan who has not been well for some time.

Mrs. Geo. Fenton has been very sick and her sister, Miss Crawford of Allenford is waiting on her.

Sorry to learn of the death of Mr D. P. Coleridge another pioneer gone. Our sympathies go out to the bereaved ones, especially his wife, who is nearly blind.

The Women's Institute postponed their meeting until a later day on account of the flu.

Rev. Mr Johnston had charge of the services on Sunday in the Presbyterian Church. He took his text from the Acts 12:5. Herod, the King had put James to death by the sword, but put Peter in prison and had soldiers to guard over him.

Mr Treleven has bought the creamery from the Cockburn Bros. We are pleased to know that they will be permanent citizens of our village.

Mrs Allan Reid of Moosejaw who has been here visiting relatives has gone to London to visit her sister.

Mr and Mrs Hetherington, Jean and Joan have returned from their visit to Theedford. They report no snow in that district.

Miss Inez Allan has returned from Toronto, where she was attending the funeral of her uncle, the late Mr. W. J. Robertson. Her sister, Vera remained for a longer visit with her aunt, Mrs W. J. Robertson.

A miscellaneous shower for Mr and Mrs. Howard Reay was held in the Hall last Thursday night. Good music was furnished by David, Jim Geo. and David Hooper, Sr. also Bill Small, Wm. Gordon, Mrs W. H. Wells and Mrs Thos. Moore.

After lunch John Small sang "When the Roses Bloom Again," and Wm. Gordon favored the crowd with some step dancing. All report a good time. Mr and Mrs. Reay remained for a few days' visit with her parents.

Miss Gertrude Wilson visited last week with Mr and Mrs Fleming Reid of Yeovil.

A large number around here are on the sick list with the flu at present.

MISS MACPHAIL'S WEEKLY LETTER

The M.P.'s who are on the Bren gun committee (Public Accounts) are in Toronto today, inspecting the Jno Inglis plant, where Major Hahn and company are engaged in making Bren guns.

Whether the committee would go to Toronto or not occasioned a warm debate. All opposition members were against the idea, on the ground that it was "too late now for the Jury to visit the scene of the crime."

Judge Davis, who investigated the Iren gun contract as the government appointed commissioner, recommended that a Purchasing Board be set up to control the letting of contracts for the Department of National Defence.

It seems hard to understand why munitions cannot be manufactured in government-owned and controlled factories. Many leading officers in the Department of National Defence are for it, as are members in all parts of the House.

The long-awaited debate on unemployment was initiated by the Minister of Labour, Honourable Norman Rogers, in a lengthy, academic speech. He used reams of figures and dealt more with the past and the present than with legislation designed to relieve unemployment in the future.

He dealt, too, with the different work projects which had absorbed the unemployed to some extent, such as the Housing Act, the Municipal Improvement Assistance Act and the elimination of level crossings, the building of roads, but it was a cold speech. For instance, he talked of "projects designed to retrain and physically recondition older unemployed men."

The only speaker who followed was Denton Massey. He didn't like the Minister's speech. He said it was a complete confession of failure and that there was no dodging the fact that in this month of January 978,000 people were on relief, an increase of 8 per cent. over the same period in last year, and that did not include many of those who were unemployed but not on relief.

He instanced sons and daughters of farmers who have had work in the cities and were now at home waiting for improved conditions. Protesting the dry quality of the Minister's speech Mr Massey said: "It impressed me that the whole matter is one which the Minister is endeavouring to deal with by figures—figures—figures..... What is the

Would Purify Elections; Less Unemployment?

MISS MACPHAIL'S WEEKLY LETTER

The M.P.'s who are on the Bren gun committee (Public Accounts) are in Toronto today, inspecting the Jno Inglis plant, where Major Hahn and company are engaged in making Bren guns.

Whether the committee would go to Toronto or not occasioned a warm debate. All opposition members were against the idea, on the ground that it was "too late now for the Jury to visit the scene of the crime."

Judge Davis, who investigated the Iren gun contract as the government appointed commissioner, recommended that a Purchasing Board be set up to control the letting of contracts for the Department of National Defence.

It seems hard to understand why munitions cannot be manufactured in government-owned and controlled factories. Many leading officers in the Department of National Defence are for it, as are members in all parts of the House.

The long-awaited debate on unemployment was initiated by the Minister of Labour, Honourable Norman Rogers, in a lengthy, academic speech. He used reams of figures and dealt more with the past and the present than with legislation designed to relieve unemployment in the future.

He dealt, too, with the different work projects which had absorbed the unemployed to some extent, such as the Housing Act, the Municipal Improvement Assistance Act and the elimination of level crossings, the building of roads, but it was a cold speech. For instance, he talked of "projects designed to retrain and physically recondition older unemployed men."

The only speaker who followed was Denton Massey. He didn't like the Minister's speech. He said it was a complete confession of failure and that there was no dodging the fact that in this month of January 978,000 people were on relief, an increase of 8 per cent. over the same period in last year, and that did not include many of those who were unemployed but not on relief.

He instanced sons and daughters of farmers who have had work in the cities and were now at home waiting for improved conditions. Protesting the dry quality of the Minister's speech Mr Massey said: "It impressed me that the whole matter is one which the Minister is endeavouring to deal with by figures—figures—figures..... What is the

size of this question in Canada? ... The breadth of the problem is the breadth of Canada and the depth of the problem is the heart of every man woman and child in this Dominion ... Why are we worrying about figures? After all, we know the situation is ghastly, but the government is not dealing with it accordingly."

He said that before his speech was finished he would give eleven constructive suggestions for the relief of unemployment, but the adjournment of the House deferred his speech until a later sitting.

Last year, "Chubby" Power, the Hon. C. G. Power, Minister of Health, introduced a Bill the object of which was to purify election campaigns. In reintroducing a similar Bill the other day, he said the last old John Inglis plant, extending, one was too good. It had been cal-renovating and equipping it, since the contract was let, so that by now the old "broken-down boiler factory" will be lost in the new, modernly equipped plant.

Whether the committee would go to Toronto or not occasioned a warm debate. All opposition members were against the idea, on the ground that it was "too late now for the Jury to visit the scene of the crime."

Judge Davis, who investigated the Iren gun contract as the government appointed commissioner, recommended that a Purchasing Board be set up to control the letting of contracts for the Department of National Defence.

SPRING TIME

Spring is here, so the birds remind us. In the early morning time, When we listen to their singing, For their voices sound sublime. Spring is here we love its beauty, Gently slowly as it comes, Spreading all around creation, Rays of glory from the Sun. Spring is here let all be joyful, For the new life that it brings, As we look upon the blossoms, Spreading fragrance on its wings. Spring is here and how we love it, As we watch the changing scene, From the dreary waste of winter, To the cleansing time of Spring.

—R. F. Mercer, Holstein

WARBLE FLY

The time has now arrived for applications of Derris Powder or its derivatives to control the ravages of the Warble Fly. How many Grey County farmers are treating their cattle this year?

Undoubtedly the tell-tale lumps, caused by the presence of the larvae, are to be seen on the cattle's backs at the present time. If too small to see they can be felt easily although the infestation is occasionally delayed so that the bulk of the larvae do not show on the animals' backs until next month.

Why not treat this year? Even though your neighbor does not treat, remember that treatment administered to your own cattle will reduce the racing or gadding of your beasts this coming summer. At least one firm now parcels the Warble Fly Powder in envelopes, so that it is convenient and inexpensive to buy. Apply the material to the lumps ONLY. It is unnecessary to wash the animal.

For the sake of the cattle, for the sake of your markets, and for the sake of your own pocket book—treat for Warble Fly this spring. Department of Agriculture, Markdale, Ontario

VARNEY

Mrs. Richard Bryan, Miss Heard and Miss Scarf of town, spent Sunday afternoon with Mr and Mrs C. M. Leeson.

Mr and Mrs Wm. Bogie and Mr. Wilbert Blythe and Lorne, attended the funeral of Mr. and Mrs. Ewen Ritchie's infant son in Durham on Monday.

Miss Marjorie Kerr of Owen Sound visited at home on Saturday. A number of the men in this community attended the rabbit hunt on Friday last.

Mr and Mrs James Leeson and daughters visited Sunday afternoon with Mr and Mrs Albert Hooper in Mount Forest.

HYPNOTIC INFLUENCE

Albert Clark, of Russellville, Ky., observed that one of his chickens seemed hypnotized and would not take her eyes from an overhead light. When Clark turned off the light, the hen ran around cackling furiously. Several days later she laid a bulb-shaped egg, which Clark sent to Washington as proof.
