Proud Father Swipes Truck

Police Lieutenant Richard Swift reported the theft of a United States mail truck the other day in Niagara Falls, N. Y .- not for the mail it contained, but as . vehicle for a new father to carry news of the arrival of a daughter.

The truck disappeared from the post office loading platform. Five minutes later it was discovered, stalled, with the proud father trying to start it.

"He thought it was an empty truck and he borrowed it to drive to his parents' home and tell them the good news," Swift

Salada Tea Sends Plowmen To British Isles

Fine Offer Gladly Accepted By Ontario Plowmen's Ass'n.

At the recent annual meeting of The Ontario Plowmen's Association held in Toronto, Salada Tea Company promised to make a substantial contribution towards the promotion of horse-plowing in this province-and in fact all Canada.

in Ontario County and Branch competitions each leading horseplowman will be given a \$10 cash prize and the privilege of competing in a special event in the International Plowing Match to be held this year at Brockville.

The Grand Champion and runnerup at Brockville will be awarded a gold and silver medal respectively and will both be sent to the Old Land in company with a manager to compete with the best in the British Isles.

In addition to the first and second prizes at the International Plowing Match-Salada is giving twelve other cash awards ranging from \$25.00 to \$5.00.

This friendly gesture to the farmers of Canada should be great news to every plowman in the land.

1,500 Sudetens Will Settle In Canada

Eight Hundred German Families Cut Adrift By Hitler's Annexation Of Czecho-Slovakia to Establish Homes Here.

Five hundred families of former German Socialists and Democrats, cut adrift from their homes by Chancellor Hitler's annexation of Czecho-Slovakia have received permission from Ottawa to establish a village of their own in Can-

The Czecho-Slovak and British governments have arranged for the approximately 1,500 people to emigrate to the Dominion. They will be led by two former members of the Czech Chamber of Deputies, Wenzel Jaksch and Siegfried Taub.

The Prague government had allotted \$1,500 to each family. This will come from the \$75,000,000 which Britain recently granted Czecho-Slovakia, half as a loan and half as a gift, to aid refugees and assist in reconstruction work.

Village Blacksmith Forfeits License

Magistrate Donald Menzies advised the village blacksmith of Thorndale, Ontario, to stick to his spreading chestnut tree. his forge and his horses for the next 60 days and not to drive and automobile during that time. The village blacksmith was Thomas Monteith, age 57. of Thorndale. He was convicted of reckless driving, fined \$25 and costs, and had his car driving permit taken away for 60 days. On March 2 Monteith's car knocked down a traffic sign and then struck a telephone pole on Dundas street, London, near Pottersburg.

Only Four C.B.C. Radio Men Ideal

Only four announcers of the Canadian Broadcasting Corporation are considered "ideal" by the management, Gladstone Murray, C.B.C. general manager, told the House of Commons Radio Broad easting Committee.

The corporation sought the warmth and life of American anneuncers without the "high pressure" feature and without the 'atmosphere of inevitable tragedy in every news bulletin." It sought the calm and detachment of good British announcers, without the "Olympian air."

Izmir, Turkey, reports that its international fair last year had 727,197 visitors, compared with only 24,000 five years before

BOILED KETTLE WITH OLD CRUTCHES

Once Used Them Because Of Rheumatism

He was not wrong, either—this man who concluded that he would not need his crutches again. Writing of his experiences, he says:-"For five years I suffered terribly from rheumatic pains, and I began to think my case hopeless. also had a bad stomach, and rarely had a meal without my food repeating on me. One day an old friend told me to try Kruschen Salts. So I bought a bottle and gave it a trial.

"After some time I was able to enjoy a good meal and to walk more freely. One morning I got up and lit the fire, and my mother thought I was crazy, because I sawed my old crutches up and boiled the kettle for coffee with them. That was six years ago, and am now back at my old job as a chef."-H.A.B.

Do you realise what causes a good deal of rheumatism? Nothing but sharp-edged uric acid crystals which form as the result of sluggish eliminating organs. Kruschen Salts can always be counted upon to clear those painful crystals from the system.

What Science * Is Doing *

CAUSE OF EPILEPSY

Scientists are close to the threshold of learning the exact causes of the dread malady, epilepsy, the disease once ascribed to visitations of the devil. By use of an electro-encephalograph machine it has been discovered that epilepsy is marked by abornmalities in the "electric" rhythm of the brain cells.

The machine also has enables investigators to predict convulsions "sometimes a day ahead and thus make peparation pos-

REMOVE SUICIDE IMPULSES A new operation for correcting extreme mental upsets which cause many suicides is described by Dr. J. G. Lyerly of Jacksonville, Fla.

Dr. Lyerly explained that he makes two holes in the skull, just above and in front of the ears. Then by gradually cutting through the brain covering he reaches the

Canada's Maple Sugar Industry Is Booming This Spring

Last autumn's storm which did such tremendous damage to maple trees in the eastern United States means

good fortune for our Canadian maple sugar industry. Here we see pipe lines used at modern maple sugar factories, LEFT, to bring the maple sap from the tree to the boiling house. In these modern sanitary factories maple sap is now boiled and poured into moulds, RIGHT, to form bricks of sugar which break easily, do not

attain rock-hard quality, and do not mottle. The sugar can also be ground into icing sugar which will stay in

Sir Edward Beatty Objects To

Spending Of \$12,000,000

On Montreal Project For

C.N.R. When A Union Term-

In a letter to the Rt. Honourable

W. L. Mackenzie King, Prime Min-

ister, dated January 5 and recent-

ly tabled in the house, Sir Edward

Beatty, chairman and president,

Canadian Pacific Railway, pointed

out that, when the Montreal term-

inal scheme was unveiled to the

government and to the public in

1927, it was based on the concep-

tion of a unich terminal to provide

passenger facilities for all railways

Joint Termin. Less Expensive

the announcement of the plans of

the Canadian National Rallways,"

said Sir Edward, "with regard to a

Montreal passenger terminal, and

as representing the 92,000 share-

holders of the Canadian Pacific

Railway and as a citizen of Can-

ada, I take the liberty of imposing

on you an expression of my views."

tors of the Canadian National have

authorized the spending of \$12,-

600,000 on a terminal at Dorchestar

Street, but if the original plan is

to be carried to finality further

large sums of money will have to

Investigation Needed

having in mind changed conditions,

I think it not presumptuous to sug-

gest that before allowing the Cana-

dian National Railways to take this

further step towards the comple-

tion of their scheme," concluded

Sir Edward, "the government might

consider it proper to order an in-

vestigation of the situation by a

body of independent engineers.

That body should be asked to ad-

vise the government if the pass-

enger terminal requirements of the

Canadian National in Montreal

could be more economically met

by an extension of the present

Canadian Pacific terminal than by

the construction of a new and in-

dependent one at great cost to the

nerve fibre of the brain running from the pre-frontal lobes which direct activity of the rest of the brain by electral nerve impulses. Many and sometimes most of these fibres are cut, thus interrupting the electoral circuits. Then the brain covering is sewed together. the bone plugs are replaced in the skull and the scalp stitched over.

MEASURE LIGHT VELOCITY

A Harvard scientist has rigged a speedometer to measure velocity in the neighborhood of 186,000 miles a second. It's the latest apparatus for "the first completely automatic measurement" of the velocity of light.

PNEUMONIA CURE FOUND Sulfapryidine, a new drug dis-

covered in Great Britain last spring, has been used successfully to fight pneumonia. The dread killer is now declared by the medical profession to be "licked". All patients respond rapidly to the drug irrespective of the type of pneumonia present, a report says.

Compacts shaped like a telephone dial are a craze in Paris, the places for letters and numbers having men's initials or telephone numbers.

Gardening

START GRASS EARLY

growth in cool weather. On this

account, lawn work of a new or

repair nature should be carried

out just as soon as the soil is fit

After digging the ground should

be allowed to settle fon a few days

at least and then levelled again. It

is advisable to repeat this process

several times. The top soil should

then be raked fine and the grass

sown at a liberal rate, once across

and once lengthwise. This double

sowing insures an even distribu-

tion. Seed is sown on a day when

For permanent lawns of deep

there is no wind.

to work.

Grass makes its most rapid

then firm the soil with a heavy roller or pounder.

REMOVE WEEDS Unless the ground has been thoroughly cultivated and then allowed to lie idle the year before there is bound to be a good deal of weed seed in the soil. Some of this will germinate after the lawn is sown. Such weeds should be removed constantly, especially in the earlier stages.

Afterwards a good lawn fertilizer every year will push the grass along sufficiently to choke out most of these offenders. The first cutting of the grass is made when about three inches high and should he done with a very sharp mower. Frequent rolling when the ground is soft and regular mowing are ad-

WHEN SOIL IS READY It is useless, in fact decidedly bad business, to work soil too early. If stirred up when wet it is liable to cake into hard lumps, that will be hard to break down later on. If when walking over the garden, one's boots become muddy then the time is not yet. Soil fit for cultivation should crumble when squeezed gently in the hand, not compact into a ball.

> Modern Etiquette BY ROBERTA LEE

1.-What is the principal thing for a hostess to consider when selecting guests for a week-end par-

2.-Should one ever sip coffee, tea, or water at the table while food is in the mouth?

3 .- Isn't it ill bred for a person to walk along the sidewalk eating candy or fruit?

4 .- When attending a dinner, would a guest be rude if she switched the place cards so that she would be seated next to the persons she desired? 5 .- Isn't it all right to talk to one's companion while a motion

picture is in progress? 6.-How should the visiting card of a doctor and his wife read?

Answers 1. The principal thing is to consider the congeniality of each guest. One guest who is not kindred in the tastes and interests of the others can easily spoil the whole party. 2. No; the food should be swallowed before taking the liquid. 3. It is not exactly ill-bred, nor is it good taste. 4. Yes. She would be very rude to do such a thing, and the hostess would be justified in never extending another invitation to her.

Imagine a real portable typewriter weighing 9 lbs... with back spacer-Swinging Shift-84 characters, and many other helpful features for All prices subject

ECORONA L C SMITH & CORONA TYPEWRITERS of Canada Ltd., 37 Front St. E., Toronto Send free booklet describing this "Corona a Zephyr" we're bearing so much about.

6. No. It is extremely rude and ill-bred to do so, as it is sure to disturb other persons nearby who are listening to the play. 6. Dr. and Mrs. William Young.

> Because the nearest white man's law is 30 blizzard-swept miles away at Nenana, natives of the interior Alaska Indian village of Minto, have petitioned Uncle Sam to make every man his own policeman. The main purpose, they say, is to curb intoxication. Ralph J. Rivers, district attor-

ney at Fairbanks, told the Indians the law stated any citizen could make an arrest under certain conditions.

The Indians said they were going to try it.
