LATE WILFRED WATSON WELL-KNOWN CHURCH WORKER

The death took place Tuesday afternoon, April at the family residence, Dinnick Crescent, Toronto, of J. Wilfred Watson, second son of the late Mr. and Mrs. James Watson, Knox Corners, Normanby. His demise will be much mourned. His death like his living presence casts a radiance around deceased's personality that made his life an example for others.

Wilfred was born on the well-known Watson homestead, now occupied by his brother Bert. His public schooling was received at S. S. No. 1, Normanby, the late Charles Ramage being an early tutor. Following

ing a business course taken at Owen Sound Business College, Wilfrid migrated to Detroit, where he entered mercantile life. His business acumen and foresight was readily evident and other gifts and talents possessed soon found him in demand by insurance companies. In this line of work he excelled. Apart for business pursuits, his interests in the motor city were linked up with Fort Street Presbyterian Church, where his Christian influence is still felt.

Over twenty-five years ago he was wedded to Amy McGill, who survives with four children, namely, Marion, Edward and Harry at home, and James in Detroit. Other chief mourners comprise three brother, near Durham, Archie S. and William W. in Detroit. Some ten years ago Wilfrid moved to Toronto where, latterly, he has been connected with the McIntosh Granite Co., and while in that city associated himself with the Bedford United Church. In this edifice to-morrow (Friday) a public funeral service will be held. It follows a private one for the family at his late home. The Review joins with many of his old friends in expressing sorrow at his passing.

FINANCE, EDUCATION, ROAD DEPTS HEAR FROM

Committee reports were the order as the Grey County Council got underway on Friday morning, and the lengthiest session of the current sitting saw a great deal of work cleared away.

The finance committee, in its report, recommended that the salary of the county treasurer, J. C. Mercer be increased by the sum of \$250 per year, the change going into effect on April 1st of this year. This was approved. It also included a recommendation that the county treasurer's bond be reduced to the sum of \$15,000.

The special committee on educational costs, composed of D. J. MacDonald, Wm. F. Riley, W. S. Hunter and J. C. Mercer, was reappointed and given more power to take any action deemed necessary.

Reeve S. M. Patterson brought in the first of the county roads committee which showed that they had been particularly active during the past term. They reported that a committee meeting in Owen Sound on March 8th had decided to offer farmers an agreement regarding taking down, storing and erecting snow fence, similar to the agreement offered by the Department of Highways, paying the farmers \$1.25 per one hundred feet of snow fence.

This proposition, the report stated had been favorably received throughout the county.

It was also decided to exchange the Adams 20 grader, formerly owned by the Owen Sound Suburban area Commission, for a new Adams 201, tandem drive, gasoline powered machine at a price of \$4,582, and to accept a turn-in allowance on the old machine of \$2,000, making the net cost of the machine \$2,582.

172 lbs. in 40 days.
 A Detroit man, Malham Kanaan, aged 63 began a self-imposed fast Feb. 29 in an effort to cure himself of diabetes. In the next 40 days he took nothing but water and tea, losing his weight thereby from 230 pounds to 135, on April 1. Most of the last few days were spent in bed. He was always an enormous eater and the last 25 years, has weighed about 300 lbs. Since going on the fast, he remarked he should be able to do it 20 or 30 years ago. He has to have benefited, and plans to break the fast with a small amount of orange juice.

"HORSE SENSE?"
 One day recently a Carriek farm left his team standing outside a hay stack where he made a call, and when he came out he found his team was already a black and white. From the conduct of one of the horses it was evident that the product of a warm stable and a feed of oats and hay provided a sufficient charge for its behavior. The other horse headed animal had an impression that it was doing wrong in pulling itself to be pulled by its fellow-minded mate, and several times he was kicked directly back into the stack as if to ensure concerning the matter, who by that time was gone after his team. When the driver got within shouting distance he uttered, "Whoa!", and the horse came to an immediate stop, and his mate had to be led away. There is undoubtedly a thing as horse sense.
