### Their Majesties Wave A Royal Farewell

Leaving Sussex, N.B., Their Majesties are pictured here on the rear platform of the royal train as they waved farewell.

### Have You Heard ?

Kind Lady: "What are you crying for, little man? What's your name? Where do you live?" Small Boy: "That's what's the matter. I don't know my name or where I live. We moved yesterday, and mother was married again today."

You've Noticed That when a motorist stops, looks and listens, there is something wrong with his engine. Two motorists were heading toward Toronto. They were zipping along the highway at some eighty or ninety miles an hour when a policeman appeared from nowhere and forced them over to the curb.

A young acrobat of Quebec Once twisted his legs round his neck. Like a fool he forgot How to loosen the knot—And now he's a positive wreck!

Civilization is that state of affairs in which money is collected from women who make up their faces and tint their nails, in order to send missionaries abroad to teach the savages not to do the same.

### Worry Is Ended For Woman Steepjack

Mrs. Charles Miner, of Agincourt, Ont., decided the best way to stop worrying about her husband when he was painting steeples was to get up there beside him.

### Greater Auto Speeds Seen

Engine Predicts 200 M.P.H. on Rails and 150 on Roads Soon Possible

A Laddow Clayden, Philadelphia engineer, told the World Automobile Engineering Congress at San Francisco he expected to "live to the time when speeds of 200 miles an hour on rails and 150 miles on automobile highways will be commonplace."

Motors in the Rear William S. Canning, another Philadelphia engineer envisioned eventual construction of 150-mile-an-hour highways cutting through big cities on elevated structures, accelerating and decelerating lanes for cars to enter or leave the high speed channels in suburban or inter-city centres, and eventually open roadways screened on both sides by evergreen hedges to prevent the attention of drivers being diverted to the scenery.

### Modern Etiquette

- 1.—What rule applies to a bride displaying her wedding gifts?
- 2.—When one has illness in the family and a friend says, "I am sorry," what response should be made?
- 3.—Should one serve hot dishes at a summer luncheon?
- 4.—Isn't it true that there is less gossip among country people than in the city?
- 5.—What does the French word saute mean?
- 6.—What form should one use to acknowledge a garden party invitation?

Answers 1.—Sometimes the gifts are shown only to relatives and close friends, a few days before the wedding. Others, however, let all the guests at the reception view the gifts, a special room being set aside for displaying them.

2.—"Thank you," is sufficient. 3.—Yes, at least one dish should be hot. 4.—No. According to the old proverb, "Go into the country to hear what news is in town," it would seem that there is more gossip in the county. 5.—It is a cooking term meaning, fried lightly and quickly in a little hot fat, while being frequently turned. Pronounce so-tah, o as in so, a as in take, accent last syllable. 6.—Use the same form as the invitation. This rule applies to any invitation.

### Keeping Pasture Herbage Edible

Close Grazing to Prevent Coarse Growth is Essential

In order to keep pasture herbage in as palatable and nutritious a condition as possible, close grazing to prevent coarse growth is essential. Under eastern climatic conditions the rate of growth of pasture herbage is not uniform throughout the growing season.

### Ontario Farmers Changing Oats

They're Switching to the Rust-Resistant Varieties

Oat growing in Western and Central Ontario was reported to be passing through a transition period with farmers switching to rust-resistant varieties, according to a report presented to the Canadian Seed Growers' Association convention in Victoria, last week.

Overproduction of registered seed wheat in Alberta last year had brought hardships to seed growers of that province but reports from other branches including Quebec, Prince Edward Island and Nova Scotia, indicated more satisfactory conditions although wet weather spoiled seed crops in Eastern Canada.

### What Science is Doing

WAR ON VIRUS DISEASES Scientists Investigating from all parts of America are preparing to virus diseases which plague mankind launch a united attack on the kind. Meeting in Harvard's School of Public Health last week they pooled all the available information on smallpox, yellow fever and infantile paralysis, and the closely allied "rickettial" diseases.

The virus diseases—distinguishable from those caused by bacteria—are those for which there is no known cure. The only hope is to be able to perfect vaccines with which to make human beings and animals immune from them.

### CURE EPILEPSY BY SURGERY

### HELP FOR CROSSED EYES

For years, doctors have treated victims of strabismus (cross-eyes or wall-eyes) by strengthening the imbalanced muscles exercising for their condition. A new exercising device for the cross-eyed is now on the market—the stereo orthoptic, which gives the affected eyes a non-fatiguing workout by the use of stereoscopic images and a complicated rigging of lights, mirrors and lenses.

### SCOUTING

Rover Scouts will this summer supervise the playgrounds section of the new Central Park at St. Thomas. In return the Rovers will have the use of a park building as a "Rover Den."

"We could not feel that this great exposition—international in character as it is, and representing all the social and economic needs of our country—would be complete if we did not have this Scout camp," declared President Grover Whalen of the New York World's Fair at the opening of the fair's Boy Scout camp site.

Representative Boy Scouts from all parts of the British Isles to the number of 1,000 gathered at St. George's Chapel, Windsor Castle, on St. George's Day, for the annual ceremony of re-affirming their Scout Promise. They were reviewed by the King and Queen in the castle quadrangle.

Boy Scout circles are waiting with some concern to learn whether General Franco will disband the Boy Scouts of Spain, as has been done in other dictator countries.

The Boy Scouts of Saskatoon have been given the responsibility this summer of protecting the trees on the city's boulevards from damage suffered in previous years. It is expected that the care given the trees by the Boy Scouts will have a desirable educational effect upon the younger children who have been largely responsible for the damage done.

### ARMS USELESS ON A WET DAY

Rheumatic Pains Relieved by Kruschen

Here is a noteworthy instance of the manner in which damp weather can affect the joints of one who is subject to rheumatic pains. "I had been suffering from rheumatism very badly," a man writes, "and had such pains in my joints that I could hardly bear it, on a wet day especially. It pained me terribly to use my arms, and I was hardly able to work. I tried two different remedies, but I was still as bad after the treatment. Then I was told to try Kruschen Salts, which quickly brought relief. So of course I have kept on with it, and I am now much better and have never felt so fit for years. I used to feel so miserable and sluggish, but now it is a pleasure to be able to work."—S.E.
